Joseph Maddalena and the PiH staff
1. Final Bid Price, Purchase Price and Payment. The term, “Final Bid Price” means the amount of the highest bid acknowledged and acceptable to Profiles. The term, “Purchase Price” means the sum of (1) the Final Bid Price; (2) a premium payable by the successful Bidder (also referred to throughout these Conditions of Sale as “Buyer”) equal to twenty-three percent (23%) of the Final Bid Price [discounted to twenty percent (20%) of the Final Bid Price if paid in full in cash or by valid check]; or (3) the sum of (a) a handling charge of one percent (1%) of the Purchase Price; (b) Internet/Houston internet bidding; (3) applicable taxes (including California and local sales tax); and (c) compensation used tax based upon the purchase price unless exempted by law and/or where Buyer presents an original, valid resale certificate with a copy for Profiles’ records from the California State Board of Equalization. The last sentence constitutes Profiles’ “official policy” regarding returns, refunds, exchanges where credit or debit card charges were used will or cannot be made unless and until full payment has been actually received by Profiles, i.e., check has fully cleared or credit or debit card funds fully obtained.

2. Title. On the fall of the auctioneer’s hammer, title to the offered lot will pass to the highest bidder acknowledged by the auctioneer but fully subject to Buyer’s compliance with all of the terms of the Conditions of Sale and the Registration Form. Once the fall of the hammer, bear all risk and responsibility for the lot, and Profiles has been authorized by the seller or consignor to retain the lot until full payment in accordance herewith. Profiles and Buyer agree that any disputes specifically including third party claims and actions brought by either Profiles or Buyer, and that absent such agreement, Profiles would not permit the Bidder to bid.

3. Rights Reserved. Profiles reserves the right to withdraw any lot before or at the time of the auction, and/or to postpone the auction of all or any lots or parts thereof, for any reason. Profiles shall not be liable to any Bidder in the event of such withdrawal or postponement under any circumstances. Profiles reserves the right to refuse to accept bids from anyone.

4. Auctioneer’s Discretion. Profiles shall determine opening bids and bidding increments. The auctioneer has the right in his absolute discretion to modify any lot before the time of the event of dispute between bidders or if the auctioneer has doubt as to the validity of any bid, to advance the bidding at its absolute discretion and to determine the successful bidder in the event of a dispute between bidders, to continue the bidding or to reoffer and resell the lot in question. In the event of a dispute after the sale, Profiles’ record of final sale shall be conclusive. The auctioneer also may reject any bid and withdraw the lot from sale if the auctioneer decides either (a) that Profiles was not so authorized; (b) that Profiles was not so authorized. In such event, Profiles shall have the right to reoffer and resell the property in question. In the event of such withdrawal or postponement under any circumstances, Profiles reserves the right to impose a late charge of fifteen percent (15%) per year on any property not removed within sixty (60) days. Profiles shall additionally have the option, in its sole discretion, of transferring any of such property to a public warehouse at the full risk and expense of Buyer. Profiles, in addition, reserves the right to impose a late charge of fifteen percent (15%) per year on the Purchase Price if Buyer does not make full payment in accordance herewith. Profiles and Buyer agree and acknowledge that these charges are reasonably imposed to partially compensate Profiles for losses and expenses associated with any such delays.

5. Reserves. Lots may be subject to a reserve which is the confidential minimum price below which the lot will not be sold. Although the auctioneer may open the bidding on any lot below the reserve by placing a bid on behalf of the seller, Profiles reserves the right to protect the reserve by bidding through the auctioneer and continuing to bid on behalf of the seller up to the reserve amount either through consecutive bids or by placing bids in response to other bidders. Consignors may not bid on their own lots or property. If the consignor is indebted to or has a monetary guarantee from Profiles in connection with the auction, it may have an interest in an offered lot and the proceeds therefrom apart from Profiles’ commissions, and Profiles may bid thereon to protect such interest. In such instance, Profiles is entitled to its standard commission when a lot is “bought-in” to protect its interest.

6. Risk and Responsibility, Agency. The buyer shall, once deemed the highest bidder on the fall of the auctioneer’s hammer, bear all risk and responsibility for the lot, and Profiles, its agents or employees shall be liable to Buyer for any loss or damage to the property. The buyer will also be required to sign a confirmation of purchase at such time if requested by the auctioneer. All bidders are deemed to be acting as principals unless Profiles acknowledges in writing prior to the auction that the bidder is acting as agent for another party. In the absence of such written acknowledgment, the bidder guarantees payment of the Purchase Price of a successful bid.

7. Possession and Removal, Charges. No portion of any lot may be removed from the premises or possession transferred to Buyer unless Bidder and Profiles have signed and agreed to these Conditions of Sale and the terms of the Registration Form, and unless and until Profiles has received the Purchase Price funds in full. Notwithstanding the above, all property must be removed from the premises by Buyer at his or her sole expense not later than seven (7) calendar days from the invoice date, (a) or at any property not removed within sixty (60) days. Profiles shall additionally have the option, in its sole discretion, of transferring any of such property to a public warehouse at the full risk and expense of Buyer. Profiles, in addition, reserves the right to impose a late charge of fifteen percent (15%) per year on the Purchase Price if Buyer does not make full payment in accordance herewith. Profiles and Buyer agree and acknowledge that these charges are reasonably imposed to partially compensate Profiles for losses and expenses associated with any such delays.

8. Off-Site Bidding. Bidding by telephone, facsimile-transmission (fax-in), on-line, or absentee bidding (advance written bids submitted by mail) are offered solely as a convenience and permitted subject to advance arrangements, availability, and Profiles’ approval. The last sentence constitutes Profiles’ “official policy” regarding returns, refunds, and exchanges where credit or debit card charges were used will or cannot be made unless and until full payment has been actually received by Profiles, i.e., check has fully cleared or credit or debit card funds fully obtained.

9. Profiles’ Remedies. Failure of the Bidder/Buyer to comply with any of these Conditions of Sale or the terms of the Registration Form, is an event of default. In such event, Profiles may, in addition to any other available remedies specifically including the right to hold the defaulting Bidder/Buyer liable for the Purchase Price or to charge and collect from the defaulting Bidder/Buyer’s credit or debit account as provided for elsewhere herein (a) cancel the sale, retaining any payment made by the Buyer as damages and/or as a deposit. Profiles shall have the right to resell or reoff er the lot at question. In the event of a dispute after the sale, Profiles’ record of final sale shall be conclusive. The auctioneer also may reject any bid and withdraw the lot from sale if the auctioneer decides either that any opening bid is below the reserve (see paragraph 5 below) of the lot or article or that an advance is insufficient. Unless otherwise announced by the auctioneer at the time of sale, no lots may be divided for the purpose of sale.
discretion, deems necessary or appropriate to preserve and protect Profiles’ rights and remedies. Should Profiles resell the property, the original defaulting buyer shall be liable for the payment of any deficiency in the purchase price and all costs and expenses associated therewith, including but not limited to your own attorney fees and court costs, commissions, incidental damages and any other charges due hereunder which were not collected or collectable.

In the event that such buyer is the successful bidder on more than one lot and pays less than the purchase price for the total lots purchased, Profiles shall apply the payment received to such lot or lots that Profiles, in its sole discretion, deems appropriate. If Profiles does not exercise such discretion, the lots to which the payment shall be applied will be in descending order from the highest purchase price to the lowest.

Any buyer failing to comply with these Conditions of Sale shall be deemed to have granted Profiles a security interest in, and Profiles may, in its sole discretion, sell such property (including exhibition or reproduction rights) or other intellectual property, by the purchase of such property, Buyer/Bidder acquires no interest in any property, copyright, trademark, or other intellectual property, by the purchase of such property. Buyer/Bidder is not acquiring any interest in any copyright, trademark or other intellectual property that may be embodied or reflected in such property, but is acquiring only such physical embodiment and/or intellectual property ownership. Neither Profiles nor any representation of the consignor makes any representation or warranty, expressed or implied, or as to merchantability or fitness for intended use, condition of the property (including any condition report), correctness of description, origin, measurement, quality, rarity, importance, exhibition, relevance, attribution, source, provenance, date, authorship, condition, culture, genuineness, value, or period of the property.

Additionally, neither Profiles nor the consignor makes any warranty or representation, express or implied, as to whether the Buyer acquires rights in copyright or other intellectual property (including exhibition or reproduction rights) or whether the property is subject to any limitations such as ‘droit moral’ (moral rights) or other rights affecting works of art. Bidder/Buyer acknowledges and agrees that if the property embodies any copyright, trademark, or other intellectual property, by the purchase of such property, Buyer/Bidder is not acquiring any interest in any copyright, trademark or other intellectual property that may be embodied or reflected in such property, but is acquiring only such physical embodiment and/or intellectual property ownership. Neither Profiles nor any representation of the consignor makes any representation or warranty as to title. All descriptions, photographs, illustrations, and terminology including but not limited to words describing condition (including any condition reports requested by Bidder), authorship, period, culture, source, origin, copy right, provenance, exhibition, and relevance, used in the catalog, bill of sale, invoice, or anywhere else, represent a good faith effort made by Profiles to fairly represent the lots and property offered for sale as to origin, date, condition, and other information contained therein; they are statements of opinion only. They are not representations or warranties and Bidder agrees and acknowledges that he or she shall not rely on them in determining whether or not to bid or for what price. Price estimates (which are determined well in advance of the auction and are therefore subject to revision) and condition reports are provided solely as a convenience to Bidders and are not intended nor shall they be relied on by Bidders as statements, representations or warranties of actual value or predictions of final bid prices. Bidders are accorded the opportunity to inspect the lots and to otherwise satisfy themselves as to the nature and sufficiency of each lot prior to bidding, and Profiles urges Bidders to avail themselves accordingly. Lots and property are not returnable to Profiles for any reason except under Buyer’s limited Remedies set forth in Section 13 below and under the express terms and conditions of Section 13.

11. Limitation of Damages. In the event that Profiles is prevented for any reason from delivering any property to Buyer or Buyer is otherwise dissatisfied with the performance of Profiles, the liability, if any, of Profiles, shall be limited to, and shall not exceed, the amount actually paid for the property by Buyer. In no event shall Profiles be liable for incidental, special, indirect, exemplary or consequential damages of any kind, including but not limited to loss of profits, value of investment or opportunity cost.

12. Unauthorized Statements. Under no circumstances is any employee, agent or representative of Profiles authorized by Profiles to modify, amend, waive or contract any of these Terms and Conditions, any term or condition set forth on the Registration Form, any warranty or limitation or exclusion of warranty, any term or condition in either the Registration Form or these Terms and Conditions regarding payment requirements, including but not limited to due date, terms, constitutes, payment in full, or any other term or condition contained in any documents issued by Profiles unless such modification, amendment, waiver or contradiction is contained in a writing signed by all parties. Any statements, oral or written, made by employees, agents or representatives of Profiles to Bidder, including statements regarding specific lots, even if such employee, agent or representative represents that such statement is authorized, unless reduced to a writing signed by all parties, are statements of personal opinion only and are not representations or warranties as to the nature and sufficiency of each lot prior to inspection and to otherwise satisfy predictions of final bid prices. Bidders are accorded the opportunity to inspect the lots and property offered for sale as to origin, date, condition, and other information contained therein, and Profiles urges Bidders to avail themselves as to the nature and sufficiency of each lot prior to bidding, and Profiles urges Bidders to avail themselves accordingly.

13. Buyer’s Remedies. This section sets forth the sole and exclusive remedies of Buyer in conformity with Sections 10 (“Warranties”) and 11 (“Limitation of Damages”) herein and is expressly in lieu of any other rights or remedies which might be available to Buyer by law. The Buyer hereby accepts the benefit of the consignor’s warranty of title and any other representations and warranties made by the consignor for the Buyer’s benefit. In the event that Buyer proves to Profiles that a lot purchased has a material breach of the consignor’s warranty of title concerning a lot purchased by Buyer, Profiles shall make demand upon the consignor to pay to Buyer the Purchase Price (including any premiums, taxes, or other amounts paid or due to Profiles). Should the consignor not pay the Purchase Price to Buyer within thirty days after such demand, Profiles shall disclose the identity of the consignor to Buyer and assign to Buyer all of Profiles’ rights against the consignor with respect to such lot or property. Upon such disclosure and assignment, all responsibility and liability, if any, of Profiles with respect to said lot or property shall automatically terminate. Profiles shall be entitled to retain the premiums and other amounts paid to Profiles – this remedy is as to the consignor only. The rights and remedies provided herein are for the original Buyer only and they may not be assigned or relied upon by any transferee or assignee under any circumstances. Lots containing ten or more items are not returnable under any circumstances. The exercise of rights under this Section 13 must be made, if at all, within thirty (30) days of the date of sale.

14. Profiles’ Additional Services. For Buyers who do not remove purchased property from Profiles’ premises, Profiles, in its sole discretion and solely as a service and accommodation to Buyers, may arrange to have purchased lots packed, insured and forwarded at the sole cost, expense, and risk of Buyer. Profiles reserves the right to release the consignor for the Buyer’s benefit. In the event that Buyer proves to Profiles that a lot purchased has a material breach of the consignor’s warranty of title and any other representations and warranties made by the consignor for the Buyer’s benefit. The rights and remedies provided herein are for the original Buyer only and they may not be assigned or relied upon by any transferee or assignee under any circumstances. The exercise of rights under this Section 13 must be made, if at all, within thirty (30) days of the date of sale.

15. Headings. Headings are for convenience only and shall not be used to interpret the substantive sections to which they refer.

16. Entire Agreement. These Conditions of Sale constitute the entire agreement between the parties together with the terms and conditions contained in the Registration Form. They may not be amended, modified or superseded except in a signed writing executed by all parties. No oral or written statement by anyone employed by Profiles or acting as agent or representative of Profiles may amend, modify, waive or supersede the terms herein unless such amendment, waiver or modification is contained in a writing signed by all parties. If any part of these Conditions of Sale are for any reason deemed invalid or unenforceable, the remaining portions shall remain fully enforceable without regard to the invalid or unenforceable provisions.

***Additional Terms and Conditions of Sale for Items Consigned by Sony Pictures Studios, Inc.

The following additional Terms and Conditions of Sale shall only apply to items consigned by Sony Pictures Studios, Inc., and shall amend and supersede the corresponding sections of the standard Conditions of Sale with respect to Lots identified with an asterisk before the Lot number.

Section 9. 2nd paragraph. Profiles’ Remedies. In the event that such buyer is the successful bidder on more than one lot and pays less than the purchase price for the total lots purchased, Profiles shall apply the payment received to such lot or lots that Profiles, in its sole discretion, deems appropriate. If Profiles does not exercise such discretion, the lots to which the payment shall be applied will be in descending order from the highest purchase price to the lowest. Notwithstanding the foregoing two sentences, if the payment of any deficiency was paid, were consigned by Consignor and one or more other parties (including, without limitation, Profiles), Profiles shall apply the payment pro-rata among Consignor and such other parties.

Section 9. 3rd paragraph. Profiles’ Remedies. Any buyer failing to comply with these Conditions of Sale shall be deemed to have granted Profiles and Consignor a security interest in, and Profiles and Consignor may retain as collateral such security for such buyer’s obligations to Profiles and Consignor , any property in Profiles’ possession that may be embodied or reflected in such property, by the purchase of such property (including exhibition or reproduction rights) or other intellectual property, by the purchase of such property, Buyer/Bidder is not acquiring any interest in any copyright, trademark, or other intellectual property that may be embodied or reflected in such property, but is acquiring only such physical embodiment and/or intellectual property ownership. Neither Profiles nor any representation of the consignor makes any representation or warranty, expressed or implied, as to whether the Buyer acquires rights in copyright or other intellectual property (including exhibition or reproduction rights) or whether the property is subject to any limitations such as ‘droit moral’ (moral rights) or other rights affecting works of art. Bidder/Buyer acknowledges and agrees that if the property embodies any copyright, trademark, or other intellectual property, by the purchase of such property, Buyer/Bidder acquires no interest in any copyright, trademark or other intellectual property that may be embodied or reflected in such property, but is acquiring only such physical embodiment and/or intellectual property ownership.

Consigned by Sony Pictures Studios, Inc. ***Additional Terms and Conditions of Sale for Items Consigned by Sony Pictures Studios, Inc.

Before you bid, you must read the Conditions of Sale, immediately preceding these pages. They represent a contract between Profiles and you, and they contain important terms and conditions such as jurisdiction, payment terms, warranties and remedies. The Conditions of Sale are controlling over these general guidelines in the event of any conflicts between their respective terms.

Estimate Prices

In addition to descriptive information, each entry in the catalog includes a price range which reflects opinion as to the price expected at auction. These are based upon various factors including prices recently paid at auction for comparable property, condition, rarity, quality, history, ownership. Estimates are prepared well in advance of the sale and subject to revision. Estimates do not include the buyer’s premium or sales tax (see under separate heading). See Paragraph 10 of the Conditions of Sale for important restrictions as to reliance on estimated prices.

3
RESERVES
The reserve is the minimum price the seller is willing to accept and below which a lot will not be sold. This amount is confidential and will not exceed the low pre-sale estimate.

OWNED OR GUARANTEED PROPERTY
Profiles in History generally offers property consigned by others for sale at public auction; occasionally, lots are offered that are the property of Profiles in History.

BUYER’S PREMIUM AND SALES TAX
The actual purchase price will be the sum of the final bid price plus the buyer’s premium of 23% of the hammer price (discounted to 20% when full payment is made in cash or by valid check); or twenty-three percent (23%) if bid on and won through internet bidding. California sales tax shall automatically be added to the purchase price unless exempted.

BEFORE THE AUCTION
You may attend pre-sale viewing for all of our auctions at no charge. All property to be auctioned is usually on view for several days prior to the sale. You are encouraged to examine lots thoroughly. You may also request condition reports (see below). Profiles in History’s staff are available at viewings and by appointment.

HOURS OF BUSINESS
Profiles in History is open from 8 a.m. to 5 p.m. on weekdays. The viewing schedule for the auction is published in the front of the auction catalog.

CONDITION REPORTS
If you wish to obtain additional information on a particular lot, or cannot appear at the viewing, Profiles in History may provide, upon request, a condition report. We remind prospective buyers that descriptions of property are not warranted and that each lot is sold “as is” in accordance with the terms of the limited warranty. Condition reports, as other descriptions of property, are not warranted; they are only provided as a service to interested clients. Neither Profiles in History nor the consignor make any express or implied representation or warranty concerning the condition of any lot offered for sale; any information furnished does not modify or negate the limited warranty contained in the Conditions of Sale. See Paragraph 10 of the Conditions of Sale for important restrictions as to reliance on condition reports.

REGISTRATION
If you are planning to bid at auction, you will need to register with us. Please arrive 30 or 45 minutes before the sale to complete bidder registration and to receive a numbered paddle to identify you if you are the successful bidder. If you are a new client, or if you have not made a recent purchase at Profiles in History, you may be asked to supply bank and/or other credit references when you register. To avoid any delay in the release of your purchases, we suggest that you pre-arrange check or credit approval. If so, please contact Profiles in History at (310) 859-7701 or by fax at (310) 859-3842.

You must acknowledge having read your agreement with all of the Conditions of Sale prior to your registration and prior to your bidding on any lot.

THE AUCTION
All auctions are open to registered bidders only. You must register to bid or otherwise participate.

BIDDING
Property is auctioned in consecutive numerical order, as it appears in the catalog. The auctioneer will accept bids from those present in the salesroom or absentee bidders participating by telephone, internet or by written bid left with Profiles in History in advance of the auction. The auctioneer may also execute bids on behalf of the consignor to protect the reserve, either by entering bids in response to salesroom, telephone or absentee bids. Under no circumstances will the auctioneer place any bid on behalf of the consignor at or above the reserve. The auctioneer will not specifically identify bids placed on behalf of the consignor to protect the reserve.

BIDDING INCREMENTS
See registration page.

ABSENTEE BIDS
If you cannot attend an auction, it is possible to bid by other means. The most common is the absentee bid, sometimes called an “order bid.” Absentee bids are written instructions from you directing Profiles in History to bid for you on one or more lots up to a maximum amount you specify for each lot. Profiles in History staff will execute your absentee bid as reasonably possible, taking into account the reserve price and other bids. There is no charge for this service. If identical bids are submitted by two or more parties, the first bid received by Profiles in History will take preference. The auctioneer may execute bids for absentee bidders directly from the podium, clearly identifying these as order bids. Absentee Bid Forms are available in the back of every auction catalog and also may be obtained at any Profiles in History location. See Conditions of Sale and Registration Form for absentee bid details.

TELEPHONE BIDS
It is also possible to bid by telephone if you cannot attend an auction. Arrangements should be confirmed at least one day in advance of the sale with Profiles in History at (310) 859-7701. Profiles in History staff will execute telephone bids from designated areas in the salesroom. See Conditions of Sale and Registration Form for telephone bid details.

INTERNET BIDS
Profiles in History is pleased to offer live Internet bidding at www.profilesinhistory.com. To ensure proper registration, those bidders intending to bid via the Internet must visit this site and register accordingly at least one full day prior to the actual auction. Please be aware that there is a minimum 3-second delay in the audio and visual feeds, which may confuse some bidders. If you have questions about this feature, please call Profiles in History well in advance of the auction. Winning bidders will be notified by Profiles. Profiles in History is not and cannot be responsible or liable for any problems, delays, or any other issues or problems resulting out of use of the Internet generally or specifically, including but not limited to transmission, execution or processing of bids.

Please Note: On some occasions beyond the control of Profiles, the online bidding software or the Internet itself may not physically keep up with the pace of the auction. In order to help avoid disappointment, Profiles recommends placing a realistic absentee bid now. Occasionally the auctioneer may eliminate or reject an internet live bid, and the auctioneer may also reopen a lot after the close of the internet live bidding (typically but not always because a floor bid or a telephone bid was missed); and your bid may be rejected if it were shown to be the winning bid by Profiles. By bidding online, you acknowledge and agree that Profiles in History may award the lot to another bidder at its sole and final discretion under the circumstances described above or under any other reasonable circumstances. Since internet bids are not shown to Profiles until Profiles opens the lot on the floor, Profiles treats those bids the same as floor or telephone bids. In most cases, however, the floor and/or telephone responds before the internet bid is presented, due to live internet bid software or internet lag time, so for consistency it is Profiles in History’s policy that floor bids and telephone bids are always considered over online bids with floor bids being considered before telephone bids. Also please note that all Profiles lots purchased online carry a 23% Buyer’s Premium. Profiles in History strongly urges the bidder to resolve any questions about these policies or their implementation PRIOR TO BIDDING.

SUCCESSFUL BIDS
The fall of the auctioneer’s hammer indicates the final bid. Profiles in History will record the paddle number of the buyer. If your salesroom or absentee bid is successful, you will be notified after the sale by mailed or emailed invoice.

UNSOLD LOTS
If a lot does not reach the reserve, it is bought-in. In other words, it remains unsold and is returned to the consignor.

AFTER THE AUCTION
Payment
You are expected to pay for your purchases in full within seven calendar days of the sale or five calendar days from the invoice date, whichever is later, and to remove the property you have bought by that date.

Shipping
After payment has been made in full, Profiles in History may, as a service to buyers, arrange to have property packed, insured and shipped at your request and expense. For shipping information, please contact Profiles in History at (310) 859-7701. In circumstances in which Profiles in History arranges and bills for such services via invoice or credit card, we will also include an administration charge. Packages shipped internationally will have full value declared on shipping form.

SALES RESULTS
Interested clients may obtain sale results for specific lots at least three business days after the auction by calling Profiles in History at (310) 859-7701.

THE SELLER
Auction Estimate
If you are considering selling your property, you can bring items to our Calabas Hills showroom by appointment only. If a visit is not practical, you may instead send a clear photograph together with dimensions and any other pertinent information you may have. Profiles in History cannot be responsible or liable in any case for damage or loss to photographs or other information sent.

Consignment Agreement
If you decide to sell your property at auction, the procedures are simple and you should find Profiles in History staff helpful to you throughout the process. After discussions with our staff you will receive a contract (Consignment Agreement) to sign, setting forth terms and fees for services we can provide, such as insurance, shipping and catalog illustrations. For all categories, Profiles in History’s standard consignor commission rates are fifteen percent (15%) of the final bid price. Profiles in History generally charges a minimum commission of $100 for each lot sold. Profiles in History will discuss with you a suggested reserve price and our recommendations for pre-sale estimates for each piece of property you consign for sale. The terms and conditions contained in the actual Consignment Agreement will govern our respective rights and obligations; those terms and conditions are controlling over these general guidelines.

DELIVERY OF PROPERTY TO PROFILES IN HISTORY
After you have consigned property to us for sale, you can either bring your property to Profiles in History yourself, arrange with your own shipper to deliver it to us or Profiles in History can arrange for it to be shipped through their shipping department. We are always happy to assist you. For more information please contact us at (310) 859-7701. Property usually arrives at Profiles in History at least three months before the sale in order to allow time to research, catalog and photograph the items. Prior to the auction your property is generally stored at Profiles in History’s facilities.

PRE-AUCTION NOTIFICATION
Several weeks before the scheduled sale, along with thousands of Profiles in History’s worldwide subscribers, you should be receiving a copy of the sale catalog in which your property is offered. After approximately 30 business days following completion of the sale, pending payment by the purchaser, you will be sent payment for your sold property and a settlement statement itemizing the selling commission and other damages.

1. **Archive of John Wayne Personal Correspondence Spanning the Richest Period of the Actor’s Career with Films Such as The Spoilers, Pittsburgh, The Fighting Seabees, Angel and the Badman, Red River, Wake of the Red Witch, The Fighting Kentuckian, Sands of Iwo Jima, Island in the Sky, Hondo, The High and the Mighty, The Searchers, Jet Pilot, The Alamo, The Longest Day, In Harm’s Way and Many Others.** Extensive archive of John Wayne personal correspondence representing over 25 years, 1941-1966, and spanning the richest period of the actor’s career with films such as The Spoilers (1942), Pittsburgh (1942), The Fighting Seabees, Angel and the Badman, Red River (1948), Wake of the Red Witch, The Fighting Kentuckian, Sands of Iwo Jima, Island in the Sky, Hondo (1953), The High and the Mighty, The Searchers (1956), Jet Pilot, The Alamo (1960), The Longest Day, In Harm’s Way and many others. The archive contains significant correspondence and consultations, with 350+ individual pieces including (1) John Wayne 2 pg. autograph letter signed, (4) autograph notes signed, (6) typed letters signed, (1) signed promissory note to Charles K. Feldman, (4) signed agreements, extensive collections of copies of legal documents, inter-office memos, and telegrams; the majority being intimate exchanges with his agent, Charles K. Feldman, as well as letters to and from Darryl F. Zanuck, Howard Hawks, Howard Hughes, Spyros Skouras, studio and department heads and many others. Charles K. Feldman (1904-1968) was Wayne’s long-time agent and one of the most powerful agents in Hollywood. He had notable creative input as executive-producer on several important films, Pittsburgh, Red River, A Streetcar Named Desire, The Seven Year Itch, and others. The frank and, at times, highly personal nature of this correspondence is testament to the long, intimate friendship and complete trust Wayne had in Feldman. Many letters run to several pages of intricate details on management issues, whether a role is suitable or not, payment and royalties, etc. The archive begins in late 1941. At this time, Wayne was ending a frustrating 5-year contract with Leo Morrison and just had a taste of box office success after appearing in John Ford’s Stagecoach. It was his encounter with star Marlene Dietrich however, newly acquired by Charles Feldman’s agency, which set his sights higher. Dietrich was attempting to revamp her career after being dubbed “box office poison,” dismissing the forced exoticism and taking on different roles in robust American scenarios. Wayne ceased paying commissions to Morrison in late July, 1941, and the archive starts with a signed 4 pg. deposition from John Wayne, dated Sept. 25, 1941, in the case Leo Morrison, Inc. v. Feldman and Dietrich, et al. as well as his 5 pg. signed statement to SAG framing the reasons for Morrison’s dismissal. Interestingly, an unsigned file copy, submitted to SAG, of Marlene Dietrich’s response to the accusations that she personally influenced Wayne’s decision to dismiss Morrison and accept Feldman’s representation is included. It culminates in an historic 8 pg. signed agreement, signed by John Wayne, both as “Duke Morrison” and “John Wayne,” as well as Marlene Dietrich as “Mary Magdalene Sieber,” whereby Wayne agrees to pay Morrison commissions solely on his Republic contract. 1950s: 3 pg. Typed Letter Signed, Nov. 4, 1955, from John Wayne to Feldman regarding the possibility of purchasing beleaguered RKO studio for $15 million. A fascinating exchange of long and heated letters from John Wayne to Howard Hughes venting his anger about delays in filming The Conqueror: “...you have caused me a huge financial loss and a great loss of prestige at a point in my life and in my career when I can afford neither… it must surely be apparent to you that this is unjust and unfair and you have no moral or legal right to impose on me to this extent.” July 16, 1959: Strongly worded 2 pg. letter from Feldman to Wayne stating Skouras displeased with Wayne’s decision and sure of its success. 1961: Includes a fascinating 4 pg. TLS from Zanuck to Wayne with important scenario changes tweaking the role of “Cota,” who was initially to be played by John Wayne, “Here is why I very much want you to play the role of Brigadier General Norman Cota. Ultimately the role went to Robert Mitchum, Zanuck closes with “This may sound like a lot of crap, but I feel this can be an important motion picture, probably one of the most important films ever made.” Together with a collection of Dec. 1961 telegram exchanges between Darryl Zanuck and Feldman, as well as Zanuck and Skouras regarding obtaining Wayne in the role of “Lt. Col. Benjamin Vandervoort.” William Holden (in addition to Charlton Heston) was strongly considered for the role and this interesting dialogue is noteworthy for Zanuck determined to get Wayne in the film. Zanuck paid dearly to have Wayne in the picture. Condition is generally Very good or better; with slight signs of handling, tiny chips and creases. A rich trove of information and fascinating glimpse into the behind-the-scenes stories, his process of carefully selecting roles and scripts, and most evident, the leeway provided by the artistic control granted in his contracts that shaped Wayne’s early career and persona. The present material should be considered a view into the birth of a cultural icon and ascension to the top of the box office. Interested parties are strongly encouraged to view this material in person. **$20,000 – $30,000**

Stone-litho one-sheet poster printed by Hennegan Co. of Cincinnati, slightly trimmed to 26 ¾” x 39” and kraft-paper backed by the original poster exchange for durability in use. Referred to in the trade as a “stock” design because it depicts just a performer (in this case silent comedienne Mabel Normand) rather than a specific film, so it can be displayed for any of the performer’s various titles. Likely from the period 1915 to 1920 based upon the Art Nouveau design and execution, and this being Normand’s height of popularity. Condition is Good only, with folds and tears, though essentially intact and complete. $200 – $300

249. GILDA ORIGINAL NEAR-MINT LINEN-BACKED STYLE ‘B’ ONE-SHEET POSTER. (Columbia, 1946) Long considered one of the single greatest U.S. film posters of all time, not only for the Film Noir and Femme Fatale genres, but across the spectrum of design and execution in the world of American film publicity. It’s no small bonus that this exceptional and very sexy design also represents one of the truly great titles in the American Film Noir canon. Only a handful of this rare and desirable style have ever surfaced and changed hands in the history of film poster collecting, and at least a few of them had significant condition issues, i.e. trimmed borders, masonite-mounted, or color fading. This example suffered from none of these, having shown only minor normal age and handling for a poster of its vintage, and the original color saturation here is breathtaking. Only traces of retouching to folds and a clean internal tear are detectible in this archival linen-backed treasure which presents itself now as virtually perfect, making this one of, if not the, finest examples extant of a legendary poster classic. Very Fine to Near Mint. $30,000 – $50,000
250. **Ride the Pink Horse** original U.S. 3-sheet poster for the 1947 Film Noir classic. 257. Lady from Shanghai original U.S. one-sheet poster on linen. (Columbia, 1947) Arguably the most deliriously sensual, moody, confusing, and ultimately rewarding film directed by Orson Welles, and the only one he made with Rita Hayworth during their brief tempestuous marriage. Whether she went blonde for the role, or just for him is anyone’s guess at this point, but it was a remarkable look for her, and quite a shock to her traditional fans. This highly sexualized design (considering the power of the Production Code at this time), both for image and for its seductive caption, is without question the only other truly great Rita Hayworth U.S. poster to rival the legendary ‘B’ style Gilda one-sheet, offered elsewhere in this same auction. This is a lovely example of this scarce poster, showing only minimal retouching to minor fold and junction wear, Very Fine. $8,000 – $10,000

348. Bullitt Original Italian fotobusta set of (8). (Warner Bros., 1968) Set of (8) Italian fotobusta posters, 18” x 28” each, all conserved on linen. Co-produced by Warners/7 Arts and Steve McQueen’s Solar productions. Though already a thoroughly fulfilling detective drama in its own right, Bullitt is even more significant for presenting what became the definitive movie “car-chase” sequence, and the one which all imitators sought to emulate. Material depicting the chase is virtually non-existent, perhaps on purpose to retain suspense prior to viewing. In any case, the one fotobusta here of the 1968 Dodge Charger mid-flight ranks as one of the great moments in action-film history. McQueen is well represented in other shots, though this set actually covers the entire breadth of the film’s finest points. Since the invention of the cinematograph in the 1890s, simple title cards were used to introduce and close silent film presentations in order to identify the film, studio and the production company involved as well as register copyright. In the early short films the first examples of title sequences were quite literally a series of title cards shown at the beginning of the film. With the advent of sound the sequence was typically accompanied by a musical prelude. As cinema’s title sequences grew longer to accommodate larger cast and crew, we begin to see the involvement of graphic design in generating strong graphics-led sequences such as those by Saul Bass and Maurice Binder. Bela Lugosi signature “Count Dracula” screen-worn cape from Dracula. (Universal, 1931) This signature cape embodies the preeminent horror figure on film—Dracula. No other character has further perpetuated the legend of the vampire. Indeed, Dracula is the major character in more films than almost any other. When one hears the name “Dracula,” it is difficult to imagine anyone but Bela Lugosi wearing his signature mode of dress—white tie with tails and a cape—which he wore in the 1931 Universal Pictures classic Dracula. Lugosi rose to instant fame with his portrayal of Dracula, a part he had been playing on stage since 1927. His interpretation of the suave and sophisticated nobleman, with hypnotic stare and cultured Hungarian accent, made the character appealing to the ladies while terrifying to the audience when the monster beneath is revealed. The cape being offered was consigned to Profiles in History by none other than Bela Lugosi, Jr. The provenance of the cape as the screen-worn cape from Dracula (Universal, 1931) is based on the following history provided by Bela Jr. and on inspection of the cape. Prior to his death in 1956, Bela Lugosi gave the cape to his wife of 20 years, Lillian Lugosi, and the mother of Bela Jr., telling her that it was the cape from the 1931 film version of Dracula. He instructed Lillian to keep the cape for Bela Jr. Upon Lugosi’s death in 1956, the family decided that he should be buried in his Dracula costume. Given Bela Lugosi’s wish that his son should have the cape used in the 1931 film, the family dressed the body in a lighter weight version of the cape he used when making personal appearances. Lillian retained the original 1931 cape and left it, along with her other possessions, to Bela Jr. upon her death in 1981. It has remained in his possession continuously since. The black, full-length heavy wool cape features a high collar with interior metal band (to retain its shape) with gray silk lining. It exhibits an interior “United Costumers, Inc., Manufacturers” label with faint “Bela Lugosi” handwritten in ink. Designed to give Bela the freedom to open the cape like the wings of a bat and envelope his prey, the cape is impressively large, measuring a full 9 1/2 feet in diameter when laid flat, occupying approximately 320 degrees of a complete circle, and weighs a full 6 pounds, 4 oz. Condition of the black outer wool is excellent (Bela kept it stored in a cedar closet); fabric behind collar is in need of minor repair (metal support band is partially exposed) and the fragile silk within the interior of the cape exhibits moderate tearing in areas. Without question, this is the greatest single horror garment in cinema history. $1,200,000 – $2,000,000
590. *Dracula* near-mint unrestored original Jumbo lobby-card from Bela Lugosi’s own collection. (Universal, 1931) 14” x 17” original release Jumbo lobby-card depicting Bela Lugosi as Count Dracula, surrounding Helen Chandler with his signature cape, about to anoint her with his very special “kiss”. This is not only one of the most vital and essential images to perfectly distill the true nature of the film, in virtually mint, totally unrestored condition, it was also for decades, possibly even from the beginning, the property of Bela Lugosi and passed down to his heir where it has resided to this day. Remnant trace of scrapbook adhesive on verso margins, and very faint and insignificant handling lines and background crease are the only signs this extraordinary artifact was ever touched. Colors are rich and totally unfaded (the jumbo set was printed with softer colors intentionally than the 11 x 14 set). We are not aware of another example of this remarkable scene coming to auction previously, let alone an original poster item of this caliber from Lugosi’s own collection. Authenticity is beyond question on this exceptional piece. Very Fine to Near Mint. $20,000 – $30,000

These specific shoes are seen being worn by Bela in a number of personal Lugosi family photographs taken in the 1930s. FROM THE ESTATE OF WILLIS O’BRIEN

The following 13 lots are from the estate of legendary visual effects genius Willis O’Brien (1886-1962). It was O’Brien who pioneered the technique of stop motion animation, making a physically manipulated object appear to move on its own. A former newspaper cartoonist and sculptor, O’Brien began making short films in 1914. O’Brien’s first Hollywood feature was The Lost World (1925). Although his 1931 film Creation was never completed, it led to his most famous work, animating the dinosaurs and the famous giant ape in King Kong (1933), and its sequel Son of Kong (1933). He was chief technician for the epic The Last Days of Pompeii (1935) and on the film Mighty Joe Young (1949) O’Brien won an Academy Award for Best Visual Effects in 1950. Other notable O’Brien films are The Animal World (1956), The Black Scorpion (1957) and The Giant Behemoth (1959).

602. **King Kong original production photo of Kong with effects art by Willis O’Brien.** (RKO, 1933) Vintage silver-bromide print, 5” x 7” of Kong entering native village, which Willis O’Brien has art-enhanced to illustrate natives running in fear. This type of continuity print was referred to by the special effects artists as a “throwaway” due to its ephemeral nature in the creative process, and is consequently a genuine rarity, especially considering not only the artistic addition in the hand of effects master O’Brien, but the fact that this is from his personal archive as well. Center crease and age-toning to emulsion leave this Good to Very Good overall. **$2,000 – $3,000**

603. **Mighty Joe Young miniature bottles and glasses (12) from the nightclub effects scenes.** (RKO, 1949) Retained by Willis O’Brien and treasured by him for decades following the production of his second-most famous film, Mighty Joe Young, are these (12) miniature clear glass and plastic whiskey and wine bottles (some with labels), and drinking glasses of various shapes. Seen in the film during the effects shots of Mighty Joe’s rampage through the nightclub. Height ranges from ½” to 1½” and condition is generally excellent. **$3,000 – $5,000**
605. **Original final approval maquette of Kong’s head from *King Kong***. (RKO, 1933) From the personal archive of Willis O’Brien, revered among special-effects artists and directors of effects films as arguably the most influential creator of techniques which ruled the world of film effects for decades, until digital design displaced them. This hand-sculpted and intricate detail-painted plaster maquette head is truly the genesis of “Kong,” and was the first model of what Obie wanted Kong to look like. All other models and maquettes of Kong were based off this one. Measures 1 ¾” x 2”, with aggressive expression for animator’s reference during production. Almost certainly sculpted by Marcel Delgado, who was responsible for most of the hands-on physical construction of the original Kong figures. Surprisingly well-preserved, having been lovingly cared for by Willis O’Brien throughout his life after *King Kong*. **$8,000 – $12,000**

604. **Willis O’Brien four-panel concept art for *Baboon: A Tale About a Yeti***. 606. *Mighty Joe Young* original early concept art by Willis O’Brien. (RKO, 1949) Pencil and India ink on 15” x 20” illustration board (image size 12” x 16”), being an early concept of Mighty Joe moving a piano for Terry Moore’s character. Executed by Willis O’Brien for the film’s production and from his personal archive. Along with *King Kong*, this is one of special-effects legend O’Brien’s greatest realized projects. A bit of soiling and handling to blank margins, else Fine. $15,000 – $20,000

607. *Mighty Joe Young* pair of RKO art department concepts of interiors. O’Brien prepared a number of concept designs to promote financing of the film, but was unsuccessful in achieving production. Illustrated in Steve Archer’s biography “Willis O’Brien/ Special Effects Genius”. Traces of handling, else Very Fine. **$6,000 – $8,000**

610. *Willis O’Brien* concept art of monsters fighting for *King Kong vs. Frankenstein*. (Unproduced, 1960–62) During extended periods of unemployment, Willis O’Brien continuously created and developed various ideas for fantastic film subjects, hoping to sell them to studios. To be titled *King Kong vs. Frankenstein*, this was one which he put quite a lot of work into, only to see his concepts stolen by Toho for their *King Kong vs. Godzilla*. Pencil, pen & ink, and gouache on 15” x 20” illustration board (mounted to 20” x 24” board for preservation) image size 9 ½” x 15”, executed by Willis O’Brien ca. 1960, and from his personal archive. From an article read by Darlyne O’Brien concerning the theft in Burma of working elephants, she and Willis concocted a fable of international elephant rustling complicated by giant lizard attacks. Traces of handling, else Very Fine. $6,000 – $8,000

613. Willis O’Brien concept art of Frankenstein’s Creation for King Kong vs. Frankenstein. (Unproduced, 1960-62) Pencil, pen & ink, and gouache on 15” x 20” illustration board, representing the scale of the Frankenstein monster character posed next to a man. Also included is an original 5” x 7” pencil storyboard sketch by Mario Larrinaga of Fay Wray’s character interacting with a T-Rex. From the collection of visual effects technician Orville Goldner who later utilized these original masters as the principal reference images found in his 1975 book, “The Making of King Kong”. Apart from their appearance in his book, these unique, likely one-off originals are not known to have been otherwise published or reproduced. An epic and historic collection for one of the truly great epic films from the golden age of Hollywood. $10,000 – $15,000

616. No Lot
The following three lots are from the collection of Kenneth Strickfaden (1896-1984), innovative genius of illusionary special effects who created some of the most unforgettable images in the fantasy genre of motion pictures. It was Strickfaden who created Dr. Frankenstein’s laboratory with his flaming Tesla coils, reflectors, spinning rotary discs and wooden insulators, setting the standard for all mad-scientist labs to come. Following Strickfaden’s great success in *Frankenstein* (1931), he created the science fiction apparatus in more than 100 motion picture films and television programs, including *The Mask of Fu Manchu, The Bride of Frankenstein, The Phantom Empire, Flash Gordon, Son of Frankenstein, The Wizard of Oz,* and television’s *The Munsters.* The skilled technician, known around Hollywood’s back lots as “Mr. Electric,” once doubled for Boris Karloff in a dangerous scene and was nearly electrocuted. A science teacher at heart, Strickfaden started making personal appearances in the 1930s featuring his beloved creations. “Kenstrick’s Space Age Science Show” was both informative and entertaining and proved a tremendous hit with audiences. Despite his age and failing health, Strickfaden enthusiastically continued his one-man shows until his death at the age of 87.

617. **Kenneth Strickfaden** “Nebularium” Lab Device from *Frankenstein, The Bride of Frankenstein* and Other Films. (Universal, 1931; 1935) Named the “Nebularium” by Kenneth Strickfaden, this is a primary piece of laboratory equipment from *Frankenstein.* This device is a parabolic mirror (an actual piece of scientific equipment made by Bausch & Lomb) measuring 25 ½ in. diameter with a custom steel bracket frame and rounded steel housing in rear. Not only an impressive visual piece, the Nebularium was also used to create dramatic shadow effects when light was bounced off its concave mirror, essentially magnifying the shadow of anything it strikes. The shadow images of Frankenstein’s Monster in the Universal series were virtually always created with the use of the Nebularium. In *Frankenstein,* this key piece is situated very near the head of the lifeless corpse that Dr. Frankenstein revives. The parabolic mirror exhibits de-silvering in spots, but is in good overall condition. The first major prop offered from the *Frankenstein* lab, the Nebularium is a fantastic, prominent lab prop and visual effect device from the classic *Frankenstein*—the film that set the standard for all mad-scientist laboratories to come. Accompanying the Nebularium are a set of wooden insulators from Strickfaden’s collection used and re-purposed for film, television and live appearance productions throughout his storied career. $40,000 – $60,000
618. Kenneth Strickfaden special electronic effects main switchboard used in Frankenstein, The Bride of Frankenstein and many other films. (Universal, 1931) This is special electrical effects wizard Kenneth Strickfaden’s masterboard used to control various pieces of electrical equipment from 1930 to his retirement. The board is covered with knife switches, two variac rheostat potentiometers and two lightning screen controls. Measuring 59 in. x 26 in. x 24 in., the board is mounted on a steel frame and was built in 1929 and used on virtually all of the films in which Strickfaden contributed special effects, including Just Imagine (1930), Frankenstein (1931), The Mask of Fu Manchu (1932), The Bride of Frankenstein (1935), Flash Gordon (1936), Son of Frankenstein (1939), and many others. This switchboard made a screen appearance in the TV show The Munsters in the season two episode, “Just Another Pretty Face” (1965). A fantastic hands-on piece of equipment used in every Strickfaden project throughout his storied career. $8,000 – $12,000

619. Kenneth Strickfaden “Digital Disputor” laboratory device from Young Frankenstein. (TCF, 1974) Kenneth Strickfaden humorously named this device the “Digital Disputor” which was a prominent piece of equipment used in the Frankenstein laboratory Gene Wilder’s character inherited from his famous grandfather. It is a wooden and steel drum with firing electrodes on the face. The back of the drum contains the controls: a motor On/Off switch, motor speed rheostat, On/Off arc switches and a bank of fuses. Mounted on a turned glass insulator base, the piece stands 35 in. tall with the drum being 21 ½ in. diameter. In addition to Young Frankenstein, the Digital Disputor can also be seen in Dracula vs. Frankenstein (1971) and was a key piece in Strickfaden’s traveling science shows. Untested. $8,000 – $12,000
620. Chico Marx “Baravelli” charcoal-grey tail-coat from *Horse Feathers*. (Paramount, 1932) Chico was the dead-pan, hard-gambling, piano-playing member of the classic comedy team “The Marx Brothers”, which in their early films with Paramount included four (of the actual five) brothers. Worn by him as “Baravelli” in *Horse Feathers* (a wild romp through a college campus), for a chaotic wedding scene. Also, according to Western Costume label inside, this same tail-coat may have been used later by Charlie (Chuck) Chaplin. In a Fine state of preservation, virtually as screen-worn. $4,000 – $6,000

621. Jean Parker “Beth” plaid period dress designed by Walter Plunkett from *Little Women*. (RKO, 1933) Conservative, Civil-War period-styled wool plaid long dress with black embroidered trim and self belt, designed by Walter Plunkett for Jean Parker as “Beth” in George Cukor’s 1933 version of *Little Women*. 622. Shield from the 1934 *Cleopatra*. 628. Charlie Chan at the Opera spectacular Boris Karloff “Mephisto” screen-used cape and display. (TCF, 1936) Considered by most as the best of the first-generation (with Warner Oland as Chan) series of films about the inscrutable Asian detective, though to the best of our knowledge, no Asian has been allowed to portray the lead role in any of the numerous entries in this extensive genre. Boris Karloff is put to good use here as Gravelle, an amnesiac Opera star recently escaped from an asylum. The screen-worn cape offered here, professionally mounted on a realistic life-size figure of Karloff’s character with replica ancillary costume elements, comes into play when he impersonates another character in the Opera in order to exact his revenge. Fine condition virtually as screen-worn, with internal United Costumers label marked “Boris Karloff”. $20,000 – $25,000

Designed by Royer for Alice Faye as “Belle Fawcett” from *In Old Chicago*, and worn to great effect in her boudoir preparing for bed, only to be accosted by Tyrone Power, long frustrated by her rejections, who forces her to the floor for their first kiss. Peignoir is also humorously worn first by Faye’s highly stereotyped African-American maid (Madame Sul-Te-Wan), playing “mistress of the household” in secret. Condition is quite exceptional considering the fragile nature of its construction and its 74-year age. $2,500 – $3,500

632. Gary Cooper “Marco Polo” tunic from *The Adventures of Marco Polo*. (MGM, 1938) Period-styled suede-leather tunic with raised decoration and large brass buttons (two of which are replaced with similar type) designed by Omar Kiam for Gary Cooper, playing the title role in *The Adventures of Marco Polo*. Leather is worn through along both shoulder top edges, though otherwise relatively intact and presentable. Internal United Costumers tag inscribed with unreadable name, which is likely a re-purposing, as this tunic is positively screen-matched to Cooper in this film. $1,000 – $1,500

633. Bette Davis “Julie” period jacket from *Jezebel*. (Warner Bros., 1938) Short period jacket of black nylon with lace collar, and five silk bows along the front over an inset of matching checkerboard silk. (Republic, 1938) Medium grey wool felt Western-styled lace-up shirt, worn by Roy Rogers in one of his earliest roles, a double part playing bad-guy Billy the Kid (shot down by Pat Garrett early on while wearing this shirt) and a lookalike good-guy cowboy. Even while playing a limited bad-guy role, the Billy character is portrayed as a sort of “Robin Hood” to the homesteaders. Internal United Costumers tag inscribed “Roy Rogers”. Fine condition virtually as screen-worn, with just a few tiny moth holes. $300 – $500
635. **Longbow from *The Adventures of Robin Hood***. (Warner Bros., 1938) Curved walnut longbow with notched tips, decorated suede grip and knotted and looped string. Measures 78 in. long. *The Adventures of Robin Hood* was shot at Warner Bros. studio in Burbank as well as on location in the San Fernando Valley and Bidwell Park in Chico, California. The film’s attention to detail is evident in the craftsmanship of this bow that is identical in construction to the one held by Flynn in production stills from the film. The present owner inherited this bow, as well as the arrow Lot 636, from his father, who was one of the location scouts responsible for finding suitable Sherwood Forest-like terrain. This lot and the next were on loan to the Warner Bros. Museum in Burbank from 1995 to 1997 as well as the Academy of Motion Picture Arts and Sciences. Slight loss of veneer and wear to grip, the string is not original to the bow and the restoration was overseen by the Warner Bros. Museum. **$15,000 – $20,000**

636. **Arrow signed by the cast and crew of *The Adventures of Robin Hood***. (Warner Bros., 1938) Wooden arrow with faux flint arrowhead and feathers at tail. Measures 34 ½ in. long. This item, a companion piece to the previous lot, was presented to the current owner’s father for his assistance in scouting locations for the Sherwood Forest scenes in the film. Signed by cast and crew members including Errol Flynn, Olivia de Havilland, William Keighley, Alan Hale, Una O’Connor, Doc McDermott, Don Turner, Al Gordon, Vic Johnson, Gil Perkins, Ned O. Nair, Roy Clark, Colin Campbell, Al Alleborn, Tony Gaudio, Frank Gaudio, Sailor Vincent, Larry Dolgenc, Patric Knowles, Jimmie Stone and Harry Aubrandey. From 1995 to 1997 the arrow was on loan to the Warner Bros. Museum in Burbank. Slight fading to some signatures, loss of feathers; otherwise Fine. **$10,000 – $15,000**
637. **Judy Garland “Dorothy Gale” solid blue cotton test dress with blue and white gingham apron by Adrian from The Wizard of Oz.** (M-G-M, 1939) This costume was worn by Judy Garland as Dorothy Gale and was tested during the October 31, 1938 wardrobe tests after George Cukor had replaced Richard Thorpe as director for the film. Producer Mervyn LeRoy fired Thorpe after viewing the “rushes” of the first two weeks of filming, being completely dissatisfied with the direction the film was taking. Cukor started by making the much needed changes to Judy Garland’s hair, makeup and Dorothy costume. He wanted to “simplify” Judy’s appearance to better represent a Kansas farm girl. Costume designer Gilbert Adrian created an entirely new costume which was based on the original drawings of Dorothy as found in the original book, The Wonderful Wizard of Oz, by L. Frank Baum. It was during this period that Cukor instructed Judy Garland to remember that she was portraying a Kansas farm girl and that she would only need to be herself to be convincing and believable. Under Thorpe’s direction her performance was, at best, “over the top” and “too fanciful.” The outfit consists of a solid blue cotton fabric (the exact same fabric used in the original Richard Thorpe test costume). Sewn directly to the dress is an off-white, light cotton blouse with blue rick-rack trim (the exact blouse design that would later appear on the final screen-used Dorothy costume). The dress closes in the back with several small snaps and a hook and eye closure at the waist. Interior handwritten label reads, “Judy Garland 4208.” Also attached is an M-G-M cleaning tag. Worn over the dress is the original blue and white cotton gingham apron with blue rick-rack trim detailing. The apron has two front pockets and closes in the back with three large original buttons. The apron has an interior handwritten label reading, “Judy Garland 4461,” and it also features an M-G-M cleaning tag. After making adjustments and revisions to Garland’s Ruby Slippers, hair, makeup, costume and performance, Cukor decided to depart from the film and was replaced by Victor Fleming. Originally acquired from 1970 MGM Auction and After Auction Sale. A key piece in the development of Dorothy Gale in The Wizard of Oz. Included are two 8 in. x 10 in. photographs of Judy Garland wearing this costume. **$60,000 – $80,000**
638. Judy Garland screen-used “Dorothy Gale” blue and white gingham pinafore dress from The Wizard of Oz. (MGM, 1939) Designed by Adrian, this is the signature blue and white gingham pinafore dress worn by Judy Garland as “Dorothy” in The Wizard of Oz. The dress features hook and eye bodice closure with snap closure on the skirt. Interior bias label handwritten, “Judy Garland 4228”. Includes a hidden pocket on the right seam of the skirt. The bottom 6 1/8 in. of material was trimmed from the bottom of the dress for repurposing in another production. The dress has been expertly returned to screen appearance with hand-dyed fabric to match the original. One of the most instantly recognizable costumes in the history of cinema and a cornerstone of any Wizard of Oz collection.

$200,000 – $300,000

As author and expert on the subject, Rhys Thomas, states in his book, The Ruby Slippers of Oz, “They [the Ruby Slippers] were much more than just a piece of Hollywood memorabilia, much more than a valuable piece of industry history. They transcended Hollywood, to the point where they represented the powerful image of innocence to all America.” Indeed, the Ruby Slippers are one of the most asked about artifacts at the Smithsonian. They are the centerpiece of an exhibition called Icons of American Culture located on the second floor of the National Museum of American History. The carpet in front of the exhibit has been replaced numerous times due to the crush of humanity passing before it. Carl Scheele, former curator at the Smithsonian, stated perhaps 5 million people per year were visiting the Ruby Slippers since they were donated in 1979. Four pair of Ruby Slippers used in the production are known to have survived the 70+ years since the making of The Wizard of Oz at M-G-M in Culver City. Three of the four known pair were discovered by costumer Kent Warner who was hired by David Weisz Co. to identify costumes and organize the now-legendary MGM Auction in 1970:

1. The pair purchased for $15,000 on Sunday, May 17, 1970 at the MGM Auction by an anonymous buyer and later donated to The Smithsonian in 1979. The condition of these slippers is poor, relative to the other known pairs. The leather soles are painted red, with orange felt adhered to the front foundation, suggesting they were worn in the dancing sequences and while skipping down the yellow brick road. Being on perpetual display and part of the United States archives, this pair will never reach the market.

2. The pair belonging to collector Michael Shaw, who obtained them from Kent Warner in 1970. These slippers are in very good condition and exhibit leather soles covered in orange felt. These slippers were stolen in 2005 from the Judy Garland Museum in Grand Rapids, Minnesota. Whereabouts unknown; recovery unlikely.

3. The pair of Ruby Slippers won as a prize by Roberta Bauman in 1940 for a national “Name the Ten Best Movies of 1939” contest. These slippers feature red painted leather soles with orange felt glued to the front foundation. Their condition is worn with sequins missing. In black ink, the word “Double” is handwritten on the white kid lining of each shoe; meaning these slippers were the second or third pair made for use in the production, in case the first pair became damaged. “Double” does not represent “stand-in” according to several M-G-M costumers familiar with the studio’s practice of labeling wardrobe. Certainly, stand-ins were present and worn Ruby Slippers for lighting and blocking purposes; however, there is no evidence, whatsoever, to support that any pair of Ruby Slippers was worn exclusively by any stand-in. Further, there is substantial evidence that Judy Garland wore several different pairs of Ruby Slippers during the six months of filming at M-G-M. These slippers were sold at public auction through Christie’s East on June 21, 1988 for $165,000 and were later resold by Christie’s East on May 24, 2000 for $666,000.

4. The present pair, to be auctioned by Profiles in History on December 16, 2011, are Kent Warner’s prized size 5B slippers. They are marked on the inside lining, “#7 Judy Garland” and the leather soles are painted red on the bottom. The lack of felt, in addition to light, circular scuffs evident on the soles indicate their use in the extra-close-up or “insert” shots when Judy Garland taps her heels together at the film’s climax. The condition of these Ruby Slippers is excellent, further supporting the notion that these were used for the close-up “insert” shots and then boxed to maintain their condition. These Ruby Slippers were sold by Christie’s East on October 1, 1981 for $12,000 and were later sold privately by Christie’s East in 1988 for $165,000. The current owner has placed these slippers twice on loan to the Smithsonian while their pair was traveling abroad. In addition, these Ruby Slippers were the cornerstone of a Library of Congress exhibition in 2000 entitled, “The Wizard of Oz: an American Fairy Tale,” celebrating the centennial of the publication of America’s most beloved home-grown fairy tale. They were also on exhibit at the National Portrait Gallery from August 1996 through July 1997.

Note: A pair of test slippers with curled toes, referred to as the Arabian slippers, do not appear in the film but are seen in test shots with Judy Garland taken in October, 1938. This pair belonged to actress Debbie Reynolds and were recently sold for $612,000 in the Debbie Reynolds Auction held by Profiles in History on June 18, 2011.

The slippers being auctioned by Profiles in History on December 16, 2011 are a vintage pair of Innes Shoe Co. red silk faille heels with uppers and heels covered with hand sequined silk georgette, lined in white leather. The right shoe contains handwritten characters “X 68 02, 5B, D 536” in black ink. In addition, the right shoe also exhibits a gold embossed label on shoe lining reading “Innes Shoe Co. Los Angeles, Pasadena, Hollywood.” The left interior edge of the right shoe once indicated “#7 Judy Garland”, however, the “Garland” is no longer visible. The left shoe has an inscription on the interior left edge clearly marked “#7 Judy Garland” and it also contains handwritten characters which have faded and are now partially illegible but appear to indicate, “[?] 68 02, [?] B, [?] 536”, most likely matching the markings from the right shoe. Kent Warner located the slippers before the spring of 1970 as he was searching for star wardrobe for the sale. Being a collector himself, as well as an avid preservationist, Warner presented the auction house with a single pair knowing that any additional pairs would be ordered destroyed by auctioneer David Weisz. The bright red leather soles are not covered in felt, suggesting they are the pair of extra-close-up or “insert” slippers worn by Judy Garland when character Dorothy taps her heels together three times in the movie’s climactic scene transporting her back home to Kansas. The presence of light, circular scuffs marks on the red soles strongly supports this as well. Both shoes are in excellent condition with no loss or even disturbance to sequins. The right edge (facing) of the bow on the right shoe is missing one red faceted stone. Kent Warner had the reputation among collectors of having “only the best,” and he saved the best pair for himself. The slippers remained in Warner’s personal collection for more than a decade until he sold them in 1981. Author Rhys Thomas recently commented on this particular pair of slippers stating, “there’s no question in my mind that they are the creme-de-la-creme of all ruby slippers.” One cannot find anything more desirable than these prized Ruby Slippers. They are alive in the hearts of hundreds of millions of people in America and around the world. These Ruby Slippers would be the ultimate centerpiece of any collection and would attract the public in droves, just as they have for the Smithsonian for the past 30+ years. $2,000,000 – $3,000,000
The Ruby Slippers
641. **Original Munchkin soldier jacket from *The Wizard of Oz***. (MGM, 1939) Adrian-designed Munchkin Soldier jacket with lengthy coattails, fashioned of bright yellow and green wool felt and ornamented with gold bullion on the chest, shoulders, sleeves and on the rear of the collar. Interior “Metro-Goldwyn-Mayer” label with handwritten “38.” The costume personifies the painstaking attention to detail employed during the production of *The Wizard of Oz*. In Very fine condition. $15,000 – $20,000

640. **Original Munchkin soldier hat from *The Wizard of Oz***. (MGM, 1939) Adrian-designed Munchkin Soldier hat of green wool felt detailed with gold bullion decoration, top-mounted feathers and original gold roping chin strap. Interior handwritten markings are “Billy Curtis” (with his name crossed out) and “Chas Kelly” [sp.]. Both Billy Curtis and Charles E. Kelley are known “little people” who worked as Munchkins in *The Wizard of Oz*. Exhibits a few tiny moth holes; otherwise, in remarkable condition. This hat is featured in the book *The Wizardry of Oz* by Jay Scardone and William Stillman. $4,000 – $6,000
642. **Original Winkie Guard Spear Including Metal Spearhead and Original Wooden Staff.** (MGM, 1939) Cast metal spearhead which was wielded by the Winkies, the Wicked Witch’s ominous guards. Reminiscent of Adrian’s costume designs for the production, it is quite likely that the prop department created the spearhead based on Adrian’s design. Spearhead measures 30 in. long and includes the original wooden staff measuring 97 ½ in. long. Staff exhibits scuffs, otherwise, Very good condition overall. An incredible artifact and instantly recognizable prop from the film. **$30,000 – $50,000**

643. **Judy Garland/ Frances Gumm double-signed “Over the Rainbow” sheet music.** In 1967, a very young Kevin Bradigan went to work for his favorite personality in the entire world, Judy Garland. He made a special effort to find an example of the sheet music for “Over the Rainbow” which lacked graphics, so it could more visibly be autographed by her to him. When she performed the requested signing for her new assistant, she accidently spilled a little coffee on the aforementioned, not easily replaced sheet music, and to make amends for her error, signed her birth name, Frances Gumm as well, which is an extremely scarce autograph in its own right. Kevin Bradigan went on to acting off-off-Broadway with members of Andy Warhol’s Factory such as Mary Woronov and Taylor Mead. Accompanied by facsimile photos of Bradigan with Garland, and of other signed items for comparison. Sheet music is complete with minor edge chipping and slight darkening of front cover. **$3,000 – $5,000**
The Cowardly Lion
644. BERT LAHR screen-worn “Cowardly Lion” costume from The Wizard of Oz.  (MGM, 1939) Designed by the legendary Gilbert Adrian, this costume (67 in. tall on base) is constructed out of an African lion skin with unique markings and hair patterns that are as individual as a fingerprint. While it is one of two Lion costumes known to have been made for and used in the production, it is specifically attributed to having been worn by actor Bert Lahr in some of the most memorable scenes of The Wizard of Oz, including when the Cowardly Lion first meets Dorothy on the Yellow Brick Road and sings “If I only had the Nerve” as well as when he later sings his trademark, “If I were King of the Forest” in the Emerald City. James Comisar, a noted specialist in preserving top-tier cultural materials, supervised the preservation effort: “We knew only the best would be appropriate when caring for an icon as indelible as the Cowardly Lion, so we assembled a team of experts who conserved the costume at the Los Angeles County Museum of Art. Herbert Lahr, the son of actor Bert Lahr, had a strong resemblance to his dad and allowed us to mold his face because the Cowardly Lion’s original foam rubber make-up appliances did not survive.” Optical-quality glass eyes that capture a faint sparkle of the Yellow Brick Road were also created and metal whiskers and acrylic teeth add further realism to a newly sculpted head; a wig and flowing mane were created using Italian human hair, and thousands of hair strands were painstakingly hand-tied into a Max Factor lace foundation in the same manner used by MGM Studios in the 1930s; and a contemporary pair of the Cowardly Lion’s footwear was meticulously rendered out of lion hide and toned by art conservators to match the screen-used pair. William Stillman, a well-respected Oz historian who has co-authored numerous books on the film, states in a letter that this costume is authentic wardrobe worn by Lahr in The Wizard of Oz, and a full-page photograph of this conserved costume appears in his book, The Wizardry of Oz – The Artistry and Magic of the 1939 MGM Classic. This costume has also been the focus of documentaries produced by The Learning Channel, The History Channel, and has appeared on The Oprah Winfrey Show; and in recent years it has been in the possession of a renowned cultural archive that has maintained it to the highest standards. The Cowardly Lion costume is now presented in front of a painted canvas backdrop of the rolling hillsides that lead up to the Emerald City that was created by Disney artists as a freestanding installation, and the mounted costume and environmental elements are housed in museum-quality shipping crates. According to the American Film Institute, The Wizard of Oz is the #1 fantasy genre motion picture of all time, and the Cowardly Lion certainly stands as Hollywood’s most regal and enduring icon of courage. $2,000,000 – $3,000,000
645. The Wizard of Oz vintage clothbound book signed to Jack Haley’s son by virtually entire cast and crew including Judy Garland and Toto. (MGM, 1939) A well read and much loved copy of the 5th edition, 2nd state early 1930’s clothbound printing of The Wizard of Oz, ex-libris Jack Haley Jr., with his bookplate inside front cover. His father Jack Haley, who so memorably portrayed the Tin Man in the film, brought this copy to the set and had the following sign it for his son, who was 5 years old at the time: cast members Judy Garland, Frank Morgan, Jack Haley, Ray Bolger, Bert Lahr, Margaret Hamilton, Billie Burke, Toto (footprint, with trainer Jack Weatherwax signature); stand-ins Bobbie Koshay, Harry Masters, Frank Remsden, and Francine(?) O’Hanlon; and crew members producer Mervyn LeRoy, director Victor Fleming, Al Shenberg, Keith Weeks, Harold Rossen, Harry Edwards, Gavin Burns, Ray Ramsey, Allen Davey, A. W. Brown, Wm. Cannon, Jack Leonard, Pop Arnold, and 15 others. Front endpaper, which contains the primary signatures, also has detailed pencil drawings of the principal characters linking them to their signatures. All in all, a highly personal, remarkable, and most certainly unique artifact from what many film lovers consider to be the greatest film of all time. Front cover and several of the 8 color plates are wavy and lightly dampstained, and signed pages exhibit scattered foxing; all corners are bumped and abraded, a well-used copy, still Good to Very Good. Together with Jack Haley Jr.’s personal copy of “The Land of Oz”, being a 1930’s popular edition of the sequel to the above mentioned book. From the estate of Jack Haley, Jr. $40,000 – $60,000

Titles include her legendary signature tune “Over the Rainbow”, plus “Almost Like Being in Love”, and “Garden Medley”. Accordion-folded in varying lengths (“Garden Medley” is over 1 ½” thick) and representing a wide variety of instruments for each song. 647. JUDY GARLAND’S ORIGINAL 1933 VAUDEVILLE WORK PERMIT. Judy Garland’s original Division of Labor Statistics and Law Enforcement Theatrical Permit #238 (under her original name “Frances Gumm”) to perform her vaudeville act in San Francisco from 8/2/1933 to 8/8/1933, and for which she had to lie about her age, declaring herself to be 11 instead of her actual age of 10. Her Los Angeles area address is listed as “1207 Cedar St., Lancaster”. Measures approx. 8 ½” x 11”. From the collection of The Judy Garland Museum, Grand Rapids, Minnesota. $2,000 – $3,000

648. JUDY GARLAND’S PERSONAL COPY OF AN ORIGINAL THE WIZARD OF OZ DECCA RECORD ALBUM SET. (MGM, 1939) The first issue of a cast-recording soundtrack album for this great film is in the form of a 78 RPM 4-disc set in illustrated opening covers. This example was Judy Garland’s personal copy and is attributed as having been in her possession since approx. the time of the film’s release. One disc is missing (as is almost always the case with these lacquered-acetate, highly breakable early recordings) though thankfully the missing disc is the least important of the 4, being “Munchkinland Part I & II”. This is the only release we are aware of which contains the deleted musical number “The Jitterbug” as the album was prepared and distributed while filming was still wrapping up. Discs are in relatively nice condition for their media, with some original shine remaining, and only normal wear and handling, and appear to remain playable. Spine is nearly completely separated though still entirely present, and illustrated covers are worn at edges though quite presentable overall. A charming and perfectly appropriate artifact from the collection of this unique artist’s personal and professional life. From the collection of The Judy Garland Museum, Grand Rapids, Minnesota. $800 – $1,200
649. **The Wizard of Oz** Munchkinland resident topcoat designed by Adrian. (MGM, 1939) Worn by a resident of Munchkinland (one of the tallest judging from the size, though styled to hang to the floor), this heavy green wool-felt coat is trimmed in orange and yellow felt and studded with large circular silver buttons, and the inside of the coat is fully lined with pale green linen. Studio tag inside collar reads “Metro-Goldwyn-Mayer/ Robinson/ 1060- 40-46½”. (There is a Munchkin actress with last name “Robinson” so this could conceivably be for her). According to Jay Scarfone and William Stillman in their *Wizardry of Oz*, “Adrian determined to maximize the slight stature of Oz’s smallest actors by elaborating their proportions with voluminous sleeves, huge vests, and oversized jackets”. Scattered minor moth holes, and top edges of both shoulders and outside length of left sleeve are somewhat sun-faded, though can be re-dyed if desired. From the collection of The Judy Garland Museum, Grand Rapids, Minnesota. **$20,000 – $30,000**

650. **The Wizard of Oz** Emerald City resident vest designed by Adrian. (MGM, 1939) Worn by a resident of the Emerald City, especially visible as Dorothy and friends enter through the gates the first time. This green and ivory wool felt, linen-lined vest bears internal studio tag “Metro-Goldwyn-Mayer/ Shopkeeper/ 1060-4078-42”. Very light sun-fading to top edges of shoulders, else Fine as screen-worn. From the collection of The Judy Garland Museum, Grand Rapids, Minnesota. **$10,000 – $15,000**
652. Judy Garland’s Tony Award for Unique Contribution to Theatre 1951-1952. Judy Garland’s original “Antoinette Perry” (Tony) Award which she was presented by the American Theatre Wing for her “Unique Contribution to Theatre 1951-52” at a special ceremony at the Waldorf Astoria Hotel in New York, in commemoration of her smash 19-week run at the Palace Theatre. For some personal reason known only to herself, she had the Beverly Hills jeweler “Trabert & Hoeffer” mount the heavy, silver-plate 3” diameter coin-shaped award as the hinged lid of a .545 sterling silver reproduction of a ca. 1700 John Dassell original drinking cup. She reportedly kept the award on prominent display in her library throughout the remainder of her life, and it was acquired by the museum directly from her third husband, Sid Luft. Sterling slightly tarnished, else Fine. Apart from two Golden Globes and her juvenile Oscar, this is arguably the most appropriate and well-deserved award of her fascinating career. From the collection of The Judy Garland Museum, Grand Rapids, Minnesota. $30,000 – $50,000
653. Judy Garland’s personal scrapbook chronicling 1958-59 in photographs and newspaper clippings. De-accessioned from the Judy Garland Museum, Judy’s own personal full-folio scrapbook, containing original playbills for live performances, press reviews and notices, illustrated sheet music, numerous news clippings, plus several items dating all the way back to early 1940's like her wedding announcement in the press of marriage to Vincent Minnelli, which Judy likely tossed in herself for lack of a more appropriate “home” for them. Of special interest is Miss Garland’s personal printed “Ex Libris” bookplate inside front cover. Spine is separating though still intact, and many of the paste-downs show adhesive staining, though all remain legible and highly presentable. An exceptionally personal glimpse into this legendary performer’s life and career. From the collection of The Judy Garland Museum, Grand Rapids, Minnesota. **$2,000 – $3,000**

654. White fox coat and matching eggshell skirt worn by Judy Garland from the collection of designer Howard Shoup. Howard Shoup, whose costume design for film and television spanned over three decades, was a favorite of Judy Garland and she chose him to create the gowns for her eponymous television variety show in the 1960's; this ecru stretch-satin long-sleeve “flapper-style” sheath dress with matching H. Jablon Furriers off-white fox jacket is a classic example of his work. Acquired indirectly from his collection by the Judy Garland Museum, and was created specifically for Miss Garland, likely for use on the television show. Excellent original condition with only a few tiny stain spots in lower skirt hem. From the collection of The Judy Garland Museum, Grand Rapids, Minnesota. **$4,000 – $6,000**

655. Al Jolson “Edwin P. Christy” vest, pants and jacket designed by Royer from **Swanee River**. (TCF 1939) For one of Al Jolson’s best late-career performances, he portrays minstrel-show originator Edwin P. Christie in the biopic of songwriter Stephen Foster’s life. Designed by Royer, this rather flamboyant three-piece evening-symphony blue and grey houndstooth-checked suit is the perfect look for the character. Worn by Jolson in the bar scene when Don Ameche as Foster punches him for “stealing” his song “Oh! Susanna”. United Costumers labels inscribed “Al Jolson”; slight wear on right shoulder, else Fine as screen-worn. **$3,000 – $5,000**

656. James Stewart “Tom Destry, Jr.” jacket from **Destry Rides Again**. (Universal, 1939) Single-breasted salt & pepper wool twill jacket worn by James Stewart as “Tom Destry, Jr.” in the film responsible for resurrecting Marlene Dietrich’s box-office poison career, **Destry Rides Again**. This jacket is the principal element of Stewart’s wardrobe for the first 40 minutes of the film, from his arrival on the stagecoach, through breaking up the legendary “cat-fight” between Dietrich and Una Merkel. Bears internal United Costumers label typed “Jimmy Stewart 126 A”, and in Excellent condition, as screen-worn. **$1,500 – $2,500**
657. CLAUDE RAINS “DON JOSÉ ALVAREZ DE CORDOBA” CAPE AND BALLOON PANTS FROM THE SEA HAWK. (Warner Bros., 1940) Designed by Orry-Kelly for Claude Rains, who portrays the vicious Spanish Ambassador in Michael Curtiz’ swashbuckling tale of pirates and the high seas, The Sea Hawk. Rains in fact nearly steals the show from action star Errol Flynn. Worn separately by Rains both early and late in the film (he wears more elaborate royal-court versions through middle of the film). Cape bears Warner Bros. label, and pants Western Costume Co., both marked “Claude Rains”. satin inserts in pants are separating and waistband is somewhat dingy, and cape exhibits scattered minor stains. $2,000 – $3,000

658. COLUMBIA PICTURES METAL POST ROAD SIGN. It exhibits a patina indicative of its age and years spent outside showing some oxidation, scuffing and abrasion, slight bend at the left edge; otherwise, condition remains Very good. Four mounting holes for attachment to post. A wonderful studio relic and an impressive display piece. $400 – $600

659. JAMES STEWART “MARTIN BREITNER” JACKET FROM THE MORTAL STORM. (MGM, 1940) Heavy black-wool military-styled jacket with red piping, worn by James Stewart as a Nazi-resistor in The Mortal Storm, most notably as he volunteers to brave the elements and dark to lead a persecuted professor to safety across the Austrian border. Velour on collar is threadbare, though otherwise excellent condition, virtually as screen-worn. $800 – $1,200

660. LAURENCE OLIVIER “LORD HORATIO NELSON” 3-PIECE ROYAL NAVAL COSTUME FROM THAT HAMILTON WOMAN. (UA, 1941) 3-piece costume ensemble with long Navy jacket, cream vest, and one-armed shirt, designed by René Hubert, for Laurence Olivier in That Hamilton Woman. Royal Navy military jacket has different sleeve-lengths as well, for Olivier’s character later in the film after losing an arm in a sea battle (lengthened sleeve bears a red bow to signify the loss). Accompanied by three Warner Bros. COAs (shirt, vest and jacket) stating this costume was part of the United Costume inventory purchased ca. 1950 by Warner Bros. Generally Fine as screen-worn. $4,000 – $6,000
662. Marlene Dietrich “Lili” black ball-gown designed by René Hubert for *The Flame of New Orleans*, plus Mischa Auer’s caped tuxedo for the same scene. (Universal, 1941) Most of the story’s twists and turns in this period romantic comedy revolve around what Marlene Dietrich’s character “Lili” will wear next in her courtship of a wealthy aristocrat. Though her wedding dress ends up floating down the Mississippi river, without question the most spectacular of René Hubert’s gowns for Miss Dietrich is the one offered here. The camera follows it boxed, with much fuss and fanfare from the finest couture house in town, all the way into Lili’s boudoir, and on to the great ball scene, where her real (very un-aristocratic) identity is discovered by Mischa Auer, whose very formal satin-lined cape and navy wool tuxedo is also offered here in the same lot. The gown bears Hubert’s couture label, and is layered black silk tulle with integral corset, built-in padding, and crystal bead embroidery over lamé. All three pieces of Auer’s tuxedo bear internal United Costumers labels inscribed “Mischa Auer 127”. Many exceptional gowns were created for Dietrich during her golden age on screen, but few survived, and virtually none of them ever make it to the public market. Condition on both costumes is Very Fine, virtually as screen-worn. **$15,000 – $18,000**

663. Henry Wilcoxon and Miles Mander Royal Naval long jackets from *That Hamilton Woman*. (UA, 1941) Henry Wilcoxon “Captain Hardy” and Miles Mander “Lord Keith” Royal Naval uniform long jackets designed by René Hubert, for *That Hamilton Woman*. Midnight blue wool with cream wool and satin lining, fully decorated with gold bullion and Naval emblem buttons. Henry Wilcoxon’s character is the man closest to Lord Nelson and Lady Hamilton, and wears this highly decorated jacket for most of the last half of the film; Miles Mander wears his for just one principal scene near the middle of the film. Both bear United Costumers tags with actors’ names inscribed, and both are in Fine overall condition with only minor signs of ageing and use. **$400 – $600**
664. **Bob Hope elaborate wedding costume designed by Edith Head from *Road to Morocco*. (Paramount, 1942)** Legendary Paramount designer Edith Head is credited with 430 titles in her decades-long career. This Arabian sheik wedding ensemble is a classic example of her exemplary work, consisting of heavy gold-brocade caftan with elaborate paisley-pattern gold bullion embroidery, over dark gold brocade scalloped pants and off-white silk satin puff-sleeve and chest shirt, finished with pleated cummerbund. Worn by Bob Hope as “Orville Turkey Jackson” about to be married off to Dorothy Lamour. United Costumers labels marked variously “Bob Hope” and “wedding”. 670. **Hans Dreier’s 1945 Oscar for Best Art Direction for *Frenchman’s Creek***. (Paramount, 1944) A rare “wartime” Academy Award presented to one of Hollywood’s most acclaimed and respected art directors, Hans Dreier (1885–1966), for “Best Art Direction–Interior Decoration, Color” for the film *Frenchman’s Creek*, starring Joan Fontaine, Basil Rathbone and Nigel Bruce. The film was directed by Mitchell Leisen and was adapted from the Daphne Du Maurier novel. Dreier was born in Bremen, Germany and began his career in German film in 1919. He relocated to Hollywood in 1923 serving as set designer and art director for Famous Players-Lasky-Paramount and eventually became head of Paramount’s art department from 1928 to 1951, creating sets for 11 Cecil B. DeMille films. During his long career he made contributions to nearly 500 films and worked with numerous directors such as Josef von Sternberg, Ernst Lubitsch, Rouben Mamoulian, King Vidor, Billy Wilder and Cecil B DeMille. Considerable credit is accorded Dreier’s work for the lush elegance and soft gradations of tone that marked Paramount’s distinctive black-and-white period of the 1920s and 1930s. He proved equally adept at handling the demands of the lavish color epics and gloomy moods of film noir. He was nominated for 23 Academy Awards for art direction and won three times, for the film offered here, *Samson and Delilah* (1949) and *Sunset Boulevard* (1950). The Oscar bears a small metal plaque on the front “Academy First Award to Hans Dreier for Color Art Direction of ‘Frenchman’s Creek’” and another on the opposite side, “Academy of Motion Picture Arts and Sciences First Award 1945.” Measures 13 ¼ in. tall with a base measuring 5 in. diameter. 672. **Dorothy Lamour gold lamé gown designed by Jean Louis from Lulu Belle.** (Columbia, 1948) Exquisite long-train full gold lamé and bugle-bead specialty gown designed by Jean Louis for Dorothy Lamour in the title role of Lulu Belle. Worn by Lamour on stage while her character is performing her “Happy Days” musical revue, and due to Production Code issues of the late 1940’s, the transparent quality of the bodice in this revealing and sensuous gown required a sort of “jacket” be added (no longer present with this gown) to satisfy the censors. Gold in lamé has slightly tarnished in spots, but overall the costume remains virtually as screen-worn. Accompanied by an original production still of Lamour wearing the gown in its censored state. $1,000 – $1,500

678. **Treasure Island (1934) original unique screen-used prop vellum treasure map.** (MGM, 1934) Hand-drawn and colored prop “treasure map” on 25” x 27” genuine animal-skin vellum, folded, stained and distressed intentionally for period and plot authenticity. Salvaged by Jackie Cooper’s boy hero character “Jim” from the sea-chest of crusty pirate “Billy Bones”, memorably portrayed by Lionel Barrymore. This is not only the essential prop and driving plot device for the most rewarding filmed version of an oft-told tale, it is one of the truly great and immediately recognized film props from the golden age of Hollywood, created under the Art-direction of the legendary Cedric Gibbons. A fascinating detail in its execution are the red crosses which Jim points out, but being a black and white film, read only as gray to the film viewer. Map has been flattened for display, and shows chipping and nail-holes all around margins from handling as genuine vellum becomes brittle when dry (easily covered with matting), but interior remains unaffected and presents itself virtually as screen-used. From the family of 1930’s-50’s MGM director/producer Harry W. Loud, where it has lived and been loved since 1934. **$12,000 – $15,000**

679. **Martian ship from Zombies of the Stratosphere.** (Republic, 1952) Fuselage is constructed of wood with balsa wood fins, painted bright green with red accents and silver gun turret below. Measures 23 in. long x 5 in. in diameter. Designed by legendary sci-fi team Howard and Theodore Lydecker, it saw extensive duty for Republic serials, even retaining the mounting holes along the top for the flying sequences. It exhibits wear, scuffs and scrapes, with all but three (3) fins missing or replaced. Condition remains very good for its age and manner in which it was used. **$1,000 – $1,500**
680. Kathryn Grayson “Suzette Micheline” gown designed by Helen Rose from The Toast of New Orleans. (MGM, 1950) Delicate and quite elaborate long period gown designed by Helen Rose, constructed almost entirely of varying shades of transparent silk, lace, and embroidered floral appliqués. Worn by Kathryn Grayson as “Suzette Micheline”, a snooty opera singer visiting New Orleans, as she is courted by peasant-mannered Mario Lanza playing a “Cajun Caruso”. Green cummerbund is an original studio wardrobe piece and is remarkably close to, though not the screen-worn version, so is included for display purposes. Separations at skirt closures, and some tattering to margin of silk train, and entire gown has slightly darkened evenly with age. Internal label inscribed “1483 6818 Kathryn Grayson” and stamped “MGM WARDROBE.” $600 – $800

681. Doris Day “Marjorie Winfield” 2-piece turquoise period skirt and blouse designed by Marjorie Best from On Moonlight Bay. (Warner Bros., 1951) Early Doris Day vehicle adapted from Booth Tarkington’s “Penrod” stories of mischievous youth, and one of her most charming films of the period. Two-piece Artisan-blue wool pleated long skirt topped by a sheer silk-tulle blouse with integral satin bustier, designed by Marjorie Best and worn by Doris Day when her father prevents her from running off with Gordon MacRae. The brilliant and unique colors of this garment are truly breathtaking in 3-strip Technicolor on screen. Both pieces bear internal Warner Bros. tags inscribed “D. Day 5037-754”. Very little trace of aging or wear, virtually as screen-worn. $800 – $1,200

682. Judy Garland wig from Summer Stock. (MGM, 1950) This film marked Miss Garland’s final motion picture for M-G-M. This auburn/brown, 3/4 wig is hand-tied and is made of real human hair. Sewn inside the wig is the original “Metro-Goldwyn-Mayer” label reading, “624,” along with the original “Max Factor Hollywood” label reading, “F4738.” Both series of numbers correspond with the accompanying original M-G-M Wig Stock Record card which reads, “Stock No. 624, Original Player: Judy Garland. Description: Med. Brown 3/4 Fall. Prod. #1477. Handwritten in pencil is, “Summer Stock’ Walters [the film’s director] #624 F4738.” Originally purchased from the original 1970 MGM Auction and After Auction Sale. Lot also comes with the original storage box marked “624” in red ink as well as two photographs of Judy Garland wearing this wig. $3,000 – $5,000

683. Paulette Goddard “Molly McCormick” male drag dance costume from Pot o’ Gold. (UA, 1941) For one of the most audacious woman in male drag sequences during Code-enforced Hollywood (and easily rivals Marlene Dietrich’s drag sequence in pre-Code Morocco) Paulette Goddard wears this Latin male outfit to seduce the ladies in the “Broadway Caballero” musical number from Pot O’ Gold. Designed by Helen Rose, and consists of cream wool bolero jacket over midnight blue wool dance slacks, both of which bear United Costumers labels inscribed with performer’s name. Satin trim on collar is frayed, else Fine as screen-worn. $400 – $600
684. Rosemary Clooney “Calaveras Kate” Victorian-style showgirl gown designed by Edith Head from Red Garters. (Paramount, 1954) This largely overlooked and vastly under-appreciated musical western is a true gem of high camp played like a cartoon (early director Frank Tashlin had just moved from Porky Pig shorts) in the full spectrum imaginable of 3-strip Technicolor. Staged on a hyper-stylized, spare theater-type set (which earned an Oscar nomination for art and set design), Rosemary Clooney is never better on screen, period, than here in this Edith Head gown leading her Can-Can girls of the Red Dog Saloon in the title number, Red Garters. Constructed of heavy and quite durable oilcloth fabric in crimson and white, this elaborate two-piece gown with long train is a wonder to behold, both in person and on screen. Stamped inside “Paramount Women’s Wardrobe”. One small faint stain in skirt, else Very Fine as screen-worn. Does not come with petticoat. $3,000 – $5,000

685. Jean Simmons “Desirée Clary” period silk day-dress designed by René Hubert from Desirée. (TCF, 1954) Periwinkle raw silk long dress with integral off-white and crimson dotted-Swiss blouse, designed by René Hubert, and worn by Jean Simmons as Desirée in the Clary family shop when Marlon Brando is arrested while courting her. Internal label inscribed “1-27-7-8043 Jean Simmons A-725-15”. Faint tanning to top edge of blouse shoulders, and some sun-fading in the periwinkle of the silk. $800 – $1,200

686. Elizabeth Taylor “Louise Durant” orange velvet peignoir robe designed by Helen Rose from Rhapsody. (MGM, 1954) Elegant dressing robe of heavy peach silk with long train and frog closures designed by Helen Rose for Elizabeth Taylor in Rhapsody. Worn by Miss Taylor somewhat unbuttoned to reveal a surprising glimpse of cleavage, considering the Production Code in full effect at the time. Appears in the scene where she shows off her new piano (and other obvious assets) to the young handsome music conservatory student John Ericson, singing her favorite childhood lullaby to him. Internal label inscribed “1628-3099 ELIZ. TAYLOR”. Excellent condition throughout, virtually as screen-worn. $2,000 – $3,000
687. **Lana Turner “Samarra” gown and cape designed by Herschel McCoy from *The Prodigal***. (MGM, 1955) Lana Turner ably portrays the high priestess to a pagan god, in essence a “concubine for hire” for those wealthy enough to make the proper “offerings” in Richard Thorpe’s biblical epic *The Prodigal*. Two elaborate principal costume pieces here designed by Herschel McCoy are worn separately, though to great effect by Turner in her “priestess” duties. The exquisite transparent gold-lined silk robe with elaborate gold bullion, sequin, and jewel appliques is worn for Turner’s introduction, as she teaches a very young Sandra Descher (wearing an exact matching cape) a thing or two about the job duties when it is her turn one day soon. The gown, of soft-woven ecru silk with internal corset and exceptional beading and decoration on bust and torso, is worn when Turner seduces Edmund Purdom for the first time, with the intention of deceiving him out of his fortune. Internal label in gown inscribed “1638 4162 Lana Turner” and robe is marked simply “LANA TURNER”, and apart from minor faint stains and a few tiny holes, virtually as screen-worn. **$6,000 – $8,000**

688. **Grumman F9F-2 Panther filming miniature from *The Bridges at Toko-Ri***. (Paramount, 1954) Grumman F9F-2 Panther filming miniature used during William Holden “Lt. Harry Brubaker’s” thrilling landing sequence aboard the USS Savo Island. The plane is completely hand-painted and detailed and features the “Golden Dragon” squadron insignia on the nose. Constructed of fiberglass and features metal landing gear, rubber tires, a pilot head and shoulders. The cockpit is removable and the yellow plastic canopy appears to have been replaced. The wingspan measures 61 in., length is 62 in. and 19 in. tall at the tail. The miniature exhibits minor wear, with paint slightly dulled, front tire cracked and worn, but remains in Very good condition. Special shipping arrangements will apply. **$3,000 – $5,000**
689. **Royal Handmaiden costume designed by Irene Sharaff from *The King and I* on stage.** (TCF, 1956)
Two-piece heavy burgundy satin with green lining traditional Siamese Royal court costume worn by one of the Handmaidens assigned to Deborah Kerr by her employer, Yul Brynner as “King Mongkut” of Siam (now Thailand). Western Costume Co. label inside with faded performer assignment; in generally Fine condition overall, as screen-worn. $400 – $600

690. **Yul Brynner “King Mongkut” embroidered robe and wrap by Irene Sharaff from *The King and I* on stage.** (Rodgers and Hammerstein, 1951-54) Based upon extensive research, and primarily upon both the quality of material and construction and the early design of the “Brooks Costume Co.” label inside, this Yul Brynner *The King and I* costume is attributed to the original production on Broadway, which ran for three years and 1,246 performances. A two-piece costume, comprising: a three-quarter length robe of purple silk and red brocade embellished with bronze and gilt beadwork and braid, with corresponding harem-style trousers, the jacket with Brooks Costume Company, 1150 Sixth Ave., New York label inside inscribed “King” — made for Yul Brynner as “King Mongkut” of Siam in the Broadway production of *The King And I*. Brynner’s best-known role, he played “King Mongkut of Siam” in the Broadway production of Rodgers and Hammerstein’s musical *The King and I* 4,626 times onstage over the span of his career. He appeared in the original production and subsequent touring productions, as well as a 1977 Broadway revival, and another Broadway revival in 1985. He won an Academy Award for Best Actor for the role and is one of only seven people who have won both a Tony Award and an Academy Award for the same role. Please note, this same costume was previously incorrectly attributed to a “1960’s revival” with Brynner, which is impossible, as his first participation in a Broadway revival production of this play isn’t until the late 1970’s. Even more to the point, this exact costume had for years already been a prized possession of one of the first serious stage and film costume collectors, Mr. Robert Cahlman, who was the director of the Brooks Costume Company in New York, and the originator in 1959 of the first touring exhibition of stage and screen costumes entitled “Exits and Entrances”. There are separations in the purple silk around the shoulders, and general signs of use over hundreds if not thousands of performances, though overall generally intact and quite presentable considering its age and history. $8,000 – $12,000
691. **The Ten Commandments metal wine cup.** (Paramount, 1956) Stylized brass wine tumbler painted silver, used by Edward G. Robinson as “Dathan”, and other Hebrew celebrants during the orgy scene in *The Ten Commandments*, when Moses is away and Dathan convinces them to worship the golden calf idol. Rim is slightly dented from handling, and paint, which shone as polished silver on film, has dulled, else essentially as screen-used. $300 – $500

692. **Laurence Olivier military tunic from The Prince and the Showgirl.** (Warner Bros., 1957) An early 20th century style double-breasted military dress tunic worn by Laurence Olivier as “The Regent,” of crème colored wool with red velvet collar and cuffs, gold braid to the collar, sleeves decorated with intertwined braid in red, gold and black velvet panel at the back with brass buttons. Internal Warner Bros. label inscribed “Y. De Carlo 8815-835” and in Very Fine condition. $800 – $1,200
18-YEAR-OLD MARILYN MONROE AMAZING AUTOGRAPH LETTER SIGNED, "Norma Jeane", Four pages, blue-lined Octavo sheets, dated June 15, 1944. Penned at the top, and stricken-through, is the address "14668 Parthenia St, Van Nuys" (curiously, she never lived at that address). Written to Grace Goddard, Norma Jeane's legal guardian and 'mother' figure during the tumultuous years of her youth. (in full):

"Dearest Grace, 
I was so happy to hear from you. I was so thrilled to read your letter and learn of all that you have been doing lately. [Grace had recently moved to West Virginia] I will send you your picture very shortly now, I'm going down Saturday to find out more about it. Also will send you lots of snapshots at the same time I send you the picture. I found out that a 10" x 12" (that was the size you wanted wasn't it?) cost exactly $5.00. Jimmie has been gone for seven weeks and the first word I received from him was the day before my birthday. He sent a cable night letter by Western Union saying 'Darling, on your birthday, I send you a whole world of love'. I was simply thrilled to death to hear from him.

I have never really written and told you of Jimmies and my married life together. Of course I know that if it hadn't been for you we might not have ever been married and I know I owe you a lot for that fact alone, besides countless others. That is why I feel that I should let you know about us. I love Jimmie just more than anyone (in a different way I suppose than anyone) and I know I shall never be happy with anyone else as long as I live, and I know he feels the same towards me. So you see we are really very happy together that is of course, when we can be together. We both miss each other terribly. We will be married two years June 19th. And we really have had quite a happy life together. I am working 10 hrs. a day at Radioplane Co., at Metropolitain Airport. I am saving almost everything I earn (to help pay for our future home after the war.) The work isn't easy at all for I am on my feet all day and walking quite a bit. I was all set to get a Civil Service job with the Army, all my papers filled out and everything set to go, and then I found out I would be working with all Army fellows. I was over there one day, there are just too many wolves to be working with, there are enough there at Radioplane Co. with out a whole army full of them. The Personnel Officer said that he would hire me but that he wouldn't advise it for my own sake, so I am working 10 hrs. a day at Radioplane Co.

With much love, Norma Jeane"

Summer of 1944 was a fateful time for young Norma Jean Dougherty. Circa 1943-44, she landed her first job at Radioplane Co. (a defense contractor in Burbank, California), through the influence of her mother-in-law, Ethel. Her husband, Jim, had recently joined the U.S. Merchant Marine and shipped off to war just "seven weeks" previously. Although she here thanks Grace for the instrumental role she played in organizing and consenting to her marriage, it is known that she later harbored feelings of resentment towards Grace for taking off to West Virginia (in effect, abandoning Norma Jeane), and believed that her "surrogate mother" had arranged the marriage as a convenient way to get rid of her. Despite Norma Jeane gushing over her love for her husband, her marriage was soon to unravel. Just a few months later, Norma Jean met a man who would vault her to stardom: Army photographer David Conover. Conover had been tasked by his commanding officer (who was, interestingly enough, actor and future President Ronald Reagan) to photograph women factory workers who were helping with the war effort. Making the rounds at Radioplane he was naturally drawn to Norma Jeane, who, along with her stunning beauty and bubbly personality, seemed to have a certain "aura" around the camera. She soon appeared on the cover of Yank magazine, and the die was cast. Heeding the advice of Conover and Grace, she obtained a divorce from Dougherty (September 13, 1946), and began one of the most famous careers in Hollywood.

A wonderful letter, showing how Norma Jeane viewed her world and her future with Jim Dougherty just two years into their marriage — though her life would soon change forever. Numerous corrections throughout, and page one exhibits original ink-blot. Overall, in excellent condition. $40,000 – $60,000

From the personal effects of a relative of Marilyn Monroe (nee Norma Jeane Mortensen/Baker) to the owner of the image archive “Silver Screen” (now deceased), to the current owner, an original gelatin-silver ¾” x ¾” family snapshot of toddler Norma Jeane at the beach. She is playing with another toddler she calls “Donna” in the pencil notation attributed to Norma Jeane herself, “gidy up horsy” at the beach, Donna & me I’m the horse”; comparisons were carefully made to other writing from her teen years, and this is a confident match, so she could have made this notation anytime before leaving home at age 16. $800 – $1,200
717. Marilyn Monroe significant and unique collection of 16+ personally owned family photographs and negatives of Marilyn Monroe and her mother. A unique archive of 16+ original 2 ½ x 4 ¼ in. to 3 ½ in. x 4 ½ in. personal family photographs and negatives of Marilyn Monroe with her mother Gladys Pearl Baker (née Monroe) and presumably grandmother, as well as other family members and friends spanning toddler age through to adolescence. Her mother Gladys is pictured in several with a woman who is likely her best friend, Grace McKee, the woman that went on to become her guardian and ward of state. Marilyn is pictured in several as a toddler, as a teenager holding a baby on a bench, standing with Chico Marx on stage, as a young swimsuit model etc. Includes additional copy prints and negatives made from original photographs (originals not present). Approx. 30 items total. An incredible glimpse into Marilyn’s early family life and unique opportunity to acquire a rich trove of original material. $2,000 – $3,000

718. Marilyn Monroe (Norma Jeane) original photobooth snapshot self-portrait, Ca. 1940. From the personal effects of a relative of Marilyn Monroe (nee Norma Jeane Mortensen/ Baker) to the owner of the image archive “Silver Screen” (now deceased), to the current owner, a 1 ½” x 1 ¼” self-generated “photobooth” self-portrait, cut out of the original multi-shot strip by a teenage Norma Jeane and given to a family member. We have not heard of the survival of other such photos generated by[Marilyn] herself, though of course at least a few must have been generated at the time, so it is conceivable for this to be a unique artifact in the pantheon of Marilyn Monroe’s history. In any case, it is unique for this particular shot, as the photobooth technology only creates a single print of each exposure. Side margins are intact, and this particular image was trimmed out of the middle of a multi-shot strip, so no upper or lower margin is present; else, surprisingly Fine for such a small ephemeral object. $800 – $1,200
MARILYN MONROE’S PERSONAL ANNOTATED WORKING PROMPTBOOK-SCRIPT FOR THE SLEEPING PRINCE (AKA THE PRINCE AND THE SHOWGIRL). (Warner Bros., 1957) Clasp-bound in crimson paper covers, and intentionally printed in half-size (5” x 8”) for ease of use on set, especially considering the elaborate costumes required for this drawing-room comedy starring, and co-produced by, Marilyn Monroe and Laurence Olivier. This example is identified on the specially-printed titled front cover as “PERSONAL COPY OF MISS MONROE”. Many pages inside exhibit not only scene and dialogue notes attributed to Monroe’s own hand, but many personal thoughts and observations by her as well, namely “What am I doing here with this man/I can’t believe my eyes, ears/ watch him/’oh no’/this idiot/ Chanel #5/ I just think it’s a joke/ don’t take anyone else’s tone/affective memory/ heart breaking” plus at least one slightly naughty joke, “like a music box: a tinkle”, among other ‘notes to self’. Accounts from the time agree that Marilyn had more trouble working with Olivier than with any other male lead in her career. At least (31) of this small, character-dialogue promptbook-script’s (68) pages exhibit anywhere from one to numerous notations by Miss Monroe, making this one of the most intensely personal artifacts extant from her professional career. Covers are significantly tattered all around the margins, and front cover, together with first (2) pages, are torn 2/3 down from top near spine, else intact and complete as originally issued. $30,000 – $50,000
Charles K. Feldman (1904-1968) was one of the most powerful agents in Hollywood and had notable creative input as executive-producer on several important films, *Pittsburgh*, *Red River*, *A Streetcar Named Desire*, and notably, *The Seven Year Itch*. The archive begins with early correspondence regarding George Axelrod's screenplay being purchased by Feldman and negotiating with Billy Wilder to direct. Lew Wasserman was acting as agent for Wilder and numerous exchanges are present with drafts of agreements including a fascinating dialogue on Wilder having no interest in Tom Ewell or Walter George Axelrod's screenplay being purchased by Feldman and negotiating with Billy Wilder to direct. Lew Wasserman was acting as agent for Wilder the film's release. Interested parties are strongly encouraged to view this material in person.

A pair of Zanuck's personally hand-annotated scripts. One *Temporary Incomplete* with 11 pages of annotations with an interesting note during the scene Richard is scrutinizing the cover design for *Little Women*, where he pens, "? The Scarlet Letter – play off the Adultress later." Another *Final script"*? The Scarlet Letter – play off the Adultress later." Another Final script bears 24 pages of handwritten notations with suggestions for cutting the reading scene way down. Another Zanuck TLS to Charles Feldman, dated Sept. 20, 1954, advises against the "voice over" scenes and sends along his 10 page breakdown of differences between the play and the script and 12 pages of annotated dialogue with Zanuck's suggestions stapled to the margins on small strips of blue paper.

When principal filming began and just after Marilyn and DiMaggio's divorce, some exchanges become heated between Feldman and Zanuck, including a 2 pg. office memo from Oct. 22, 1954, "There have been tough days – immediately after the divorce proceedings, the 18-takes have only happened on rare occasions with the girl...for the last two weeks this girl has worked as hard as anyone I have known in my life. Incidentally I don't know how Kazan worked with you but I can tell you that on STREETCAR, it was a daily occurrence for us to have 25 to 30 takes with Brando and Vivien Leigh. This has not been happening on ITCH." Further correspondence relates to Wilder taking too long to film scenes and difficulties with Marilyn taking company time to rehearse. There is a strong concentration of material on the risqué nature of the publicity done for the film, specifically relating to large promotional billboards that featured the iconic billowing white dress scene. "They're replacing a big cardboard cutout of Marilyn outside Loew's Theatre in Times Square. It was showing Marilyn with her skirts blowing above her waist. Not good taste...Some papers refuse to accept wind blowing ad because of Kefauver investigation and pressure groups...this is a very delicate situation...sensational business so far at opening." Much difficulty arose with censors upon the film's release, including a complete rejection by the Irish Censor & Appeal Board stating that "this film is incapable of cutting without destroying its continuity. It is indecent and unfit for general exhibition." Even a telegram from Wilder to the president of the Catholic Legion of Decency states, "I do not have the reputation of having ever been connected with pictures of a lascivious character. Obviously, the picture deals humorously with a man's temptations but they are very human and utterly harmless. Am afraid that additional bleaching will make the picture disintegrate into an incomprehensible nothing."

All in all, a rich trove and fascinating glimpse into the project's inception, it's transformation from stage to screen, all the various legal wranglings between agents, producers, directors and other studio heads during filming, and finally the fallout over the overt sexuality that faced cinema goers after the film's release. Interested parties are strongly encouraged to view this material in person. **$30,000 – $50,000**

731. Marilyn Monroe and Joe DiMaggio wire photo from their wedding day. Gelatin-silver print, 7 in. x 9 in. UPI wire photo (not trimmed, this is correct size for this medium) dated 1/14/[1954] announcing the marriage by civil ceremony of Marilyn Monroe to Joe DiMaggio. Friends close to both reported later that Marilyn informed her studio press agent ahead of time, unbeknownst to Joe who wanted a quiet and very private event. This kind of discord likely contributed heavily to the marriage lasting a mere nine months. Wire photos tend to be much more ephemeral than studio publicity material, as they were the “fax” of the time for news organizations to spread images quickly, and tended to be discarded immediately. This example remains in exceptional condition for a print of its type. **$300 – $500**
732. **Marilyn Monroe’s platinum and diamond eternity wedding band given to her by Joe DiMaggio after their 1954 wedding.** A platinum eternity band set with 35 baguette-cut diamonds (one diamond missing just as it was at the Christie’s Personal Property of Marilyn Monroe sale in 1999), VS1 clarity with a total carat weight of 3.5 (when all diamonds were present), given to Marilyn Monroe by Joe DiMaggio on their wedding day on January 14, 1954. After Marilyn did some publicity photographs wearing a sexy short-skirted baseball outfit in the winter of 1951-1952, DiMaggio saw the pictures and learned that she was a rising Hollywood starlet and was determined to meet her as soon as possible. They were introduced at an Italian restaurant on Sunset Boulevard and DiMaggio was surprised to learn that she had never attended a baseball game and knew practically nothing about the game. For his part, DiMaggio was suspicious of Hollywood and its invented idolatry. Despite this, the couple had an immediate and palpable chemistry; Marilyn was drawn to this calm, handsome ex-ballplayer while DiMaggio was smitten by her considerable charm and a passionate romance was instantly ignited.

The two were married in an intimate civil ceremony at San Francisco City Hall, out of the spotlight, a rarity for both of them. DiMaggio’s friend Reno Barsocchini and his old San Francisco Seals manager, Francis Joseph “Lefty” O’Doul, together with O’Doul’s wife and the judge were the only people in attendance. Marilyn had no loved ones present. Standing beside Joe, holding three orchids, she promised to “love, honor and cherish.” When the orchids withered in her perspiring hands, she turned to Joe and asked that if she died before him, would he place flowers at her grave every week, like William Powell had done at the grave of Jean Harlow? Joe promised that he would. When the ceremony was completed, the newly married couple exited the courtroom to over 100 reporters, fans and autograph hounds. Unbeknownst to Joe, Marilyn had shared the news with studio publicity chief, Harry Brand. The newlyweds were photographed kissing and submitted to a barrage of questions including famously, “How many children did they plan?” “I’d like to have six,” Marilyn responded. “One,” said Joe.

The dreams of America’s favorite couple were short-lived as the couple’s relationship was strained from the outset. On September 15, 1954 during filming of the famous subway grate sequence of *The Seven Year Itch*, DiMaggio was urged by friend Walter Winchell to come view the spectacle that was taking place on Lexington Avenue. DiMaggio relented and witnessed the iconic scene of Marilyn astride the subway vent with white dress billowing upward. DiMaggio was furious and stormed off. Two weeks later, Marilyn filed a petition for divorce; the marriage lasting only nine months.

In February, 1961, Monroe was admitted to the Payne Whitney Psychiatric Clinic where she contacted DiMaggio. He secured her release and she spent some time with him in Florida where the couple reconciled. True to his promise, after her death, DiMaggio continued to send one half-dozen roses to her crypt three times a week for 20 years. Unlike Marilyn’s other husbands or others who knew her, DiMaggio refused to talk publicly about her, the woman he loved more than any other.

Provenance: Christie’s Personal Property of Marilyn Monroe, Lot 10, October 27-28, 1999 and sold for $772,500. **$300,000 – $500,000**
733. **Marilyn Monroe signature camisole top by Travilla from River of No Return.** (TCF, 1954) For Marilyn’s studio-imposed adventure in the Canadian wilderness, director Otto Preminger chose to bless film-goers with the joy of watching her, for a large part of the screen time, in this simple yet highly erotic camisole designed by Travilla. Complemented on screen by skin-tight blue jeans, and accented at one point with a good soaking in the river rapids, this little bit of cotton muslin with lace embroidery has become over the succeeding decades one of Marilyn’s most recognized, iconic, and exploited fashions. With interior label inscribed “1-81-2- 4739 A713-05 M. Monroe”. A few very minor stains, otherwise virtually identical to condition as worn on screen, including the off-white coloring, and the intentional rough-hewn bottom margin. A precious and immediately identified artifact from this great star’s career. **$40,000 – $60,000**
Marilyn Monroe 2-piece dance costume by Dorothy Jeakins from *Let’s Make Love*. (TCF, 1960) For Marilyn Monroe’s singing and dancing character “Amanda Dell” in *Let’s Make Love*, Dorothy Jeakins designed for her this sheer, sexy two-piece pink silk shirt/ black dance-brief combination, worn for rehearsal scenes in the stage musical set within the film. Both pieces bear internal TCF labels inscribed “F-13 M. Monroe” and apart from a few scattered minor to moderate stains in the shirt and minor separations in the brief, they remain essentially intact and presentable. With the long sleeves casually rolled up and shirt tucked into brief, this was a lovely and happy look for her in what was to be her penultimate film. $80,000 – $100,000
736. Marilyn Monroe personally owned portrait by Romeo Catozella after a *Modern Screen* magazine cover. Acrylic on canvas, 28 in. x 22 in. (incorrectly catalogued by Christie’s as oil) executed by artist and Marilyn Monroe fan Romeo Catozella of New York, and gifted to her. Based on a 1955 *Modern Screen* magazine cover photo portrait of Marilyn, and kept by her until her death in 1962. Includes an issue of the 1955 *Modern Screen* magazine. Provenance: Christie’s 1999 Personal Property of Marilyn Monroe, Lot 346, $23,000. **$10,000 – $15,000**
737. *Marilyn Monroe invitation to JFK birthday celebration with call sheet and program from her personal property.* From the Christie’s 1999 sale of the personal property of Marilyn Monroe, three items for one event which document one of the most significant personal moments for her. In chronological sequence, the first is the personal invitation from “New York’s Birthday Salute to the President” requesting her presence at Madison Square Garden on May 19, 1962 to celebrate President John F. Kennedy’s birthday gala party; the second is a 2pp mimeo call-sheet for the evening’s order of events, detailing Marilyn’s appearance at #35, “Marilyn Monroe and Stars”, which an unknown hand has doodled what might be a stage, and written in red grease pencil, with corrections in graphite, “Who do you have to be to be disappointment”—; the last is the official illustrated program for the birthday event with iconic portrait of Kennedy on cover, with red, white and blue patriotic design. All three items were the personal examples in Marilyn Monroe’s possession during the time of this historic event, for which she performed an extraordinarily sexy, breathy rendition of “Happy Birthday”to the President (even calling in sick to work at Fox in order to do so), and each shows extra folds and slight handling by her, presumably to secure inside a purse that night. Kennedy remarked on stage that he could retire from politics after such a performance; Peter Lawford introduced her as “the late Marilyn Monroe”, and sadly she would be gone to a mysterious death in just over two months. Provenance: Christie’s Personal Property of Marilyn Monroe, Lot 54, October 27-28, 1999 and sold for $129,000. **$40,000 – $60,000**
738. NUDE OIL PAINTING OF MARILYN MONROE BY EARL MORAN. Original colorful painting by Earl Moran of a young and nude Marilyn Monroe in a prone pose painted from life circa 1948-1949. Accomplished in oil on board measuring 23 ½ in. x 35 ½ in. Signed “Earl Moran” at the lower right. Matted and framed. Earl Moran (1893-1984) was the most important pin-up artist of the period. He studied with the legendary anatomist George Bridgman at the Art Students League in Manhattan, and after moving to Chicago in 1931, opened a small photograph and illustration studio. He submitted some paintings of models in bikinis to two calendar companies, Brown and Bigelow and Thomas D. Murphy Company, both of which purchased his work and launched his career. One year later he signed an exclusive contract with Brown and Bigelow and sold millions of calendars for the company over the next few years.

He moved to Hollywood in 1946 when a young starlet named Norma Jeane Dougherty was sent to his Sunset Boulevard studio by the Blue Book Agency. Over the next four years, Marilyn came by once a month for a two-hour modeling session. After Moran chose a costume, the models would assume dozens of poses while he peered through his camera’s 20-pound lens. He generally worked in pastels traced in charcoal from his print, but this is one of only a few oils he did and without a doubt his very best subject. The photograph he worked from for this sitting was taken by Moran’s wife, and shows Marilyn lying prone topless on cushions while wearing bikini briefs. As she became more comfortable during the session she removed the briefs and allowed Moran to complete the painting of her completely nude and adding a stylized colorful pillow-like base. Marilyn’s beaming smile is a testament to her comfort and natural demeanor while posing for Moran.

Of all the models he worked with he thought Monroe was the sexiest, “better than anyone else…She expressed just what I wanted.” They met for the last time on the set of There’s No Business Like Show Business (1954). Marilyn embraced Moran telling him she loved the way he made her legs look wonderful. Certainly no better endorsement for this fine painting. The consignor was a Moran pin-up model and a close friend of Earl Moran who gifted her the painting in the 1960s. $70,000 – $90,000

754. HOWARD TERPNING ORIGINAL FINAL-DRAFT ONE-SHEET POSTER ARTWORK FOR CLEOPATRA. (TCA, 1963) In late 1962 20th Century-Fox Studios commissioned well known studio artist Howard Terpning to create the promotional artwork for the upcoming epic Cleopatra, perhaps the most-hyped Hollywood film since 1939’s Gone With the Wind. This is the master painting for the standard “one-sheet” poster exhibited in virtually all the movie theaters featuring the film. Accomplished in acrylic on illustration board and measuring approx. 27 ½ in. x 31 ½ in., the painting depicts Elizabeth Taylor, the last great female star of the 20th Century, in all her regal glory as she sits upon a solid gold throne of Nubian cats holding the crook & flail of Osiris—the Pharaoh’s symbols of royalty, majesty and dominion over ancient Egypt. Flanking her on either side are Richard Burton as Marc Antony and Rex Harrison as Julius Caesar. This magnificent “Royal Portrait” depicts all three of these great Hollywood stars costumed in the regal state attire of their film characters. 20th Century Fox Studio's Cleopatra was at the time of release the most expensive motion picture ever made and Elizabeth Taylor Hollywood's highest paid star. Production costs on the production pushed the studio to the edge of bankruptcy and forced it to sell off much of its coveted back lot later to become Century City. Artist Howard Terpning went on to become one of the most famous painters of the American Southwest and is one of only 33 members inducted into the Cowboy Artists of America. His paintings of the Plains Indians have sold for over $1.5 million dollars and are held in museums and well known private collections in America and overseas. In May, 2011 Profiles in History sold the Howard Terpning Cleopatra “half-sheet” poster art for $126,500.00. A once in a lifetime opportunity to acquire one of the most important and iconic motion picture paintings of all time. Elizabeth Taylor’s beauty is captured at the zenith of her storied career. The lot is accompanied with a framed vintage Cleopatra one-sheet poster and film program depicting the art. In excellent condition; framed. $60,000 – $80,000
Elizabeth Taylor’s lavish studio—customized dressing room trailer for Cleopatra. (TCF, 1963) It is widely known that Twentieth Century Fox’s 1963 epic Cleopatra was both a troubled and devastatingly expensive production. The film is infamous for nearly bankrupting the studio with its budget swelling to $44 million (equivalent to $320 million in 2010 dollars). Star Elizabeth Taylor was awarded a record-setting contract of $1 million that rose to $7 million due to the delays of the production (equivalent to over $47 million today). The studio was in particular trouble when Taylor became very ill during the early filming and was rushed to the hospital where a life-saving tracheotomy had to be performed. The production was moved to Rome after six months as the English weather proved detrimental to her recovery, as well as being responsible for the constant deterioration of the costly sets required for the production. During the filming Elizabeth met Richard Burton and the two began a very public affair which made the headlines worldwide. To help Taylor remain focused and stay in character, Twentieth Century Fox spent a rumored $75,000 (in 1960s dollars!) to build a heavily customized 36-foot dressing room/trailer for the star, staying true to the theme of the Egyptian/Roman epic. The Aljo trailer is decorated with opulence, through the talent and expertise of the studio set construction crew. It features rose colored carpeting, hand-painted ceilings, hand-painted murals in the bedroom, detailed crown moldings, custom makeup dresser and vanity, half columns mounted on the walls and other columned furniture and decorative pieces. Silky curtains hang from a semicircular runner to separate the bedroom from the rest of the living area. This special hideaway was designed to make the star feel like the Queen of Egypt.

The provenance of this fabled trailer is fascinating. Millionaire financier and developer of the Watergate complex in Washington, DC, Nicolas Salgo, helped arrange financial backing for the film for the studio. Once the film wrapped, Salgo negotiated with Fox to keep Elizabeth Taylor’s dressing room trailer and had it parked at his ZX Ranch in Oregon from the 1960s through 1980. Friends visiting the ranch, the largest in Oregon, would request to stay in the Elizabeth Taylor/Richard Burton love nest—Hollywood’s version of the Lincoln Bedroom. Once Salgo sold the ranch, he transferred ownership to his neighbor from the adjacent ranch (the current owner and consignor) who owned The Lakeview Fantastic Museum where it became part of the museum exhibit. The trailer now resides as a guest house of his personal residence in Lake Tahoe, California.

The furniture, fixtures and curtains are all original. The other pieces currently decorating the dressing room, such as chairs, hand mirror, telephones, magazines, photographs, etc. are placed as a museum-like tribute to Elizabeth Taylor, Richard Burton and Cleopatra. The original round bed was removed over 40 years ago and replaced with a queen-sized bed. Some areas on the walls exhibit minor moisture damage which can be easily restored; otherwise, in very good condition with original curtains and main fixtures intact. Due to the size of the trailer, special transportation considerations must be arranged by the winning bidder. A wonderful and intimate Elizabeth Taylor piece, epitomizing the epic extravagance of Cleopatra—the last of the old guard Hollywood films. $50,000 – $75,000
756. **Elizabeth Taylor “Cleopatra” gold ceremonial dress from Cleopatra.** (TCF, 1963) Designed by Irene Sharaff and Renié for Elizabeth Taylor in the title role of Cleopatra. Intact and quite presentable overall. **$12,000 – $15,000**

757. **Egyptian General John Doucette “Achillas” costume from Cleopatra.** (TCF, 1963) Designed by Vittorio Nino Novoese for John Doucette, who portrays Egyptian General Achillas, head of Pharaoh Ptolemy XIII’s army in Cleopatra. Constructed authentically by “Casa D’Arte Firenze” of heavy leather with numerous pressed, cast, and stamped metallic ornaments and medallions. 759. Tony Randall complete wizard costume from The 7 Faces of Dr. Lao. (MGM, 1964) From what is arguably Tony Randall’s true signature role, playing eight different characters in The 7 Faces of Dr. Lao (the eighth is just an audience member at the circus). This complete seven-piece wizard costume is one of Randall’s most impressive incarnations in the film, as “Merlin” of Dr. Lao’s circus. Designed by Robert Fuca, and consisting of long burgundy silk robe with gold bullion and colored-stone embroidery; massive black velvet cape with intricate gold bullion and gold lamé decorations of alchemical symbols; two-tone felt wizard’s peaked hat with dangling star; two long pointed-toe leather slippers; a bright crimson-orange silk scarf; and a hanging leather magic pouch. An extraordinary ensemble from a truly iconic and memorable screen character for children of all ages. All elements show very minor signs of use and age including tarnishing of gold and some separation of lamé, but present themselves overall essentially as screen-worn. MGM wardrobe label inside robe, partially sewn over, indicates it was used earlier for a performer named “Aurica Ciproti” and re-purposed for Randall. $4,000 – $6,000

A tradition existed for some years at Warner Bros. Studio of welcoming dignitary and celebrity guests (like major stars on loan from other studios) with one of these commemorative “keys to the studio” in a publicity event for the benefit of promoting Warner’s largesse and standing in the industry. One such key was presented to Marilyn Monroe by Jack Warner when she filmed *The Prince and the Showgirl* with them, and that key was sold at her estate auction by Christie’s in 1999 for $32,200. Polished cast bronze, 11 in. x 4 in. and weighing 12.2 oz. **$2,000 – $3,000**

764. Planet of the Apes screen-worn background gorilla mask. (TCF 1968) In order to create a literal planetful of apes, John Chambers devised these simple but effective masks, worn in the background behind actors Roddy McDowall, Kim Hunter and Charlton Heston. Beyond the fact that this rubber background mask is still supple and has all its original paint and mohair hair, it also still retains the hairy back flap Chambers devised to ingeniously hide the cut in the back that enabled the actor to put the mask on in the first place - the flap just Velcroes over the slit and the mask is transformed into what appears to be a real ape head. $4,000 – $6,000

765. Orangutan costume from Planet of the Apes. (TCF 1968) Complete Orangutan costume consisting of a distinctive leather-trimmed tunic with zipper and hook closure, pants and the distinctive shoes shaped like splayed hands. Exhibits slight fading on tunic and pants. $6,000 – $8,000

768. **Planet of the Apes stunt billy club.** (TCF, 1968) Whenever the gorillas needed to get tough with astronaut Charlton Heston, they would typically bang him about the head with one of their billy clubs. Wooden clubs were a part of every gorilla costume, but this extremely rare stunt club, made of foam rubber expertly detailed to look like wood, was likely used only when it would interact with another actor—i.e., Heston or Linda Harrison. Measures 15 in. long and exhibits some flaking along the handle and head from production use. This is the only stunt club we've ever encountered. **$4,000 – $6,000**

**John Chambers**

The following 33 lots are from the estate of groundbreaking makeup effects legend John Chambers (1923–2001). Chambers’ amazing work is seen in such films and television shows as *Planet of the Apes* (1968), *The List of Adrian Messenger* (1963), *The Outer Limits* (1963), *The Munsters* (1964), *Lost in Space* (1965), *Mission Impossible* (1966), and *Star Trek: The Original Series* (Chambers created “Mr. Spock’s” trademark pointed Vulcan ears). Chambers began his career in the Army during World War II, where he served as a dental technician. It was in this capacity that he found himself gaining a great deal of knowledge of repairing more than teeth—he began creating new ears, noses and chins for veterans ravaged by war. This experience landed Chambers at NBC in 1953 with a job in makeup. Though he developed many of his makeup innovations in the 1950s and 1960s, they are still in use today. His skull caps, for instance, are a standard in the business. For his efforts in *Planet of the Apes*, Chambers received an honorary Academy Award at the 1969 Oscars ceremony, and throughout his career he received many other honors, most notably an Emmy and a star on the Hollywood Walk of Fame. John Chambers was also given the highest civilian award from the CIA for his help with numerous “Mission: Impossible-type” transformational disguises he devised for operatives in secret missions. Despite all of his accomplishments, it was Chambers’ charitable work helping injured veterans and firefighters and his work for the CIA that gave him his greatest satisfaction. John Chambers’ expertise as a craftsman and innovator inspired a whole generation of makeup artists and helped to bring the art of makeup effects into the limelight.

A relatively modern-day mystery, it featured a number of prominent Hollywood actors who were heavily disguised in make-up with their identities revealed at the end of the film. Elizabeth Taylor was offered a disguised role but turned it down because the make-up would be too uncomfortable. This plaster lifecast was done for this make-up test in Gstaad, Switzerland. The others are still owned by Universal Studios, and usually on display at the theme parks.

This particular car is one of two that were completely built for off road use. The DeLorean chassis was removed from the front and rear and replaced with high performance sand rail sections and suspension. The DeLorean engine and transaxle were replaced with a high performance VW engine and transaxle. The entire car had a custom roll cage built from the suspension up and into the interior. As well, the car was outfitted with a special electric brake device with a switch on the dash, allowing the front brakes to be held while the clutch was dropped so the rear tires would spin on screen.

After filming completed, the car sat on the backlot at Universal Studios Hollywood for about 14 years, with a short time on display at the Petersen Auto Museum in Los Angeles. In 2003 it was sold to a private party who then restored it to the condition as seen during the movie. During the restoration process, pieces that were removed from the car over time were replaced to bring the car back to its original filming appearance.

The car drives, however it is not street legal, as when the car was created for the movie they removed the electrical system for the brake lights, headlights, etc. Comes with a Universal Studios certificate of authenticity and an original signed Bill of Sale with the Vehicle Identification Number. $400,000 – $600,000

899. **Steve McQueen** “**Michael Delaney**” original hero Gulf driving suit from *Le Mans*. (Solar Productions/ Cinema Center Films, 1971) The original hero Hinchman Nomex racing suit worn by Steve McQueen as “Michael Delaney” in *Le Mans*, the most influential movie about racing ever made. The two-piece racing suit (jacket and pants) features a zipper and Velcro closure jacket with “Michael Delaney” stitched in blue thread above the right breast zipper pocket, iconic orange and blue Gulf racing stripes as well as Gulf patches on the breast and back. In addition there are United States flag, Hinchman Nomex, Heuer Chronograph and Firestone sponsor patches. It bears an internal Hinchman Indianapolis label.

When principal filming of *Le Mans* was completed, Solar Productions donated this suit to the British newspaper, *The Observer* for a special Le Mans-themed contest in 1971. By answering 3 Le Mans history questions correctly, 12 year-old Timothy Davies of Wolverhampton, England was chosen as the winner and presented with the suit by racing driver Richard “Dickie” Attwood, winner of the 1970 Le Mans race and driver of the Porsche 917K Gulf car during driving sequences in the film.

Filmed on location in Le Mans, France, the film’s spellbinding cinematography provides a thrilling glimpse of the sights and sounds of Porsche 917s and Ferrari 512s, locked in fierce competition for outright victory. It featured footage from the actual 1970 24 Hours of Le Mans race and remains popular with racing enthusiasts today as it accurately depicted the era with lots of racing and minimal dialogue. The film featured numerous top-level racing drivers of the day for the driving sequences including Derek Bell, Vic Elford, Jacky Ickx, Brian Redman, Jo Siffert and many others.

The suit is in excellent condition overall exhibiting only slight yellowing at the jacket collar and light smudges from production use at the sleeves. Accompanied by a letter of provenance from Timothy Davies, whose collection the suit remained until recently, as well as a binder of provenance materials, including copies of the original *Observer* questionnaire, copies of the young Timothy Davies wearing the suit, copies of contemporary newspaper clippings of the story, etc.

Steve McQueen’s legacy as “the King of Cool” has made his former vehicles, personal property and film memorabilia incredibly sought after. On August 19, 2011 the Porsche 911S driven by McQueen during the opening sequences of *Le Mans* sold for an astounding $1,375,000 and in 2009 his personal Rolex Submariner watch sold at auction for a world-record $234,000. Without question, one of the pinnacles of motorsport memorabilia and the Holy Grail of racing film costumes. **$200,000 – $300,000**

Housed in two large 3-ring binders are (110+) black & white portrait and publicity stills, most 8 x 10; (10+) 8 x 10 camera negatives; (11) color stills; (6) 35mm contact sheets; a complete, 4pp double-column driver’s list; and mountains of the aforementioned press releases, memos, receipts, etc. This is without question the one definitive comprehensive archive of the entire production process for one of the most significant films of the decade, as well as the most highly regarded and authentic film on this special subject. Of special note is the fact that the original owner of this material, unit publicist Vincent Tubbs, was an instrumental force in the civil-rights movement in America, beginning in college with the National Negro Newspaper Week, followed by becoming the leading “lynching” journalist in the 1930’s, then one of the only black war-correspondents in WWII, followed by *Jet Magazine*, and leading to his election in 1967 as the first African-American head of a motion picture guild. Contents vary slightly in condition, but majority is near-pristine, in a most welcome state of preservation. Of special note is the inclusion here of shots of the Porsche 911 driven by McQueen while off the racetrack, which just fetched well over $1 Million at the auction in Pebble Beach. Though many are loose in their original cardboard mounts, they appear fresh and beautifully preserved, and will make brilliant color prints. 905. **Le Mans** hand-made 1:43 scale race car models for production: Gulf/ Porsche 917, Ferrari 512S, and Porsche 908. (Solar Productions/ Cinema Center Films, 1971) This group of (3) unique authentic scale-model racing cars were commissioned by *Le Mans* propmaster Don Nunley for use in planning shot arrangement and angles, both during the race itself, and the special re-creations of racing sequences. Each is painstakingly hand-made from a small block of fir with only the use of hand tools and no polymers. “Creation R.D. Manou/ Marmande” inscribed on bottom of each translates as Raymond Dauffaure from Marmande (in the Southwest of France) whose small studio was in Manou near Le Mans. Dauffaure specialized in unique commissions of authentic limited editions, fabricating as much of each car as possible himself, usually sourcing only the wheels and tires from other toys. His work spans two decades from 1958 to 1978, and is highly treasured by automotive and racing collectors worldwide. The #20 Gulf/ Porsche 917 represented Steve McQueen’s car, #29 Porsche 908 is the Solar Productions camera car (actually entered in the race), and #8 Ferrari 512S Long Wheelbase was bought by Solar and used in the film. These three gems represent a triumvirate “holy grail” for both scale-model and auto racing enthusiasts. **$4,000 – $6,000**

911. **Kenneth “Von Dutch” Howard unique hand-painted jacket from 1958.** From The Art of Design (pub. Tornado Design, 2006), “In 1958, 14-year old Eddie Moberg brought a brand new sweatshirt to Dutch for custom airbrushing. The next day he wore it to school, blew students’ minds, and then packed it away in a drawer.” Moberg remembers paying “seven or eight bucks” for the work, and that Von Dutch was busy playing with a Thompson submachine gun when he arrived to pick up this treasure. Though Von Dutch painted unique designs on thousands of surfaces over the years, being credited as the father of both Hot Rod culture and “Low Brow” art, historians know of only one other jacket painted by him, and that was his own, with his signature “Flying Eyeball” logo. Jacket is a “Hercules Outerwear by Sears, Styled and Made in California” which is hand-airbrushed on frontside with a bloodthirsty vampire bat, 20 in. wingspan, specifically laid out around the jacket’s own pattern; and on backside a custom racing car in the shape of a pregnant female form of riveted sheet-metal, containing a maniacal driver (who suspiciously resembles Von Dutch at the time), with title “Sheet Metal Womb” and his characteristic signature, dated ’58. The jacket is well-documented and authenticated, and appears in the aforementioned The Art of Design, as well as being exhibited in Kustom Culture at the Laguna Art Museum in 1993, just after the passing of Von Dutch. Currently housed in a custom, 2-sided oak-framed Plexiglas display, special shipping arrangements required. **$6,000 – $8,000**
912. **Gene Wilder signature “Willy Wonka” hat from Willy Wonka and the Chocolate Factory.** (Warner Bros., 1971) From the collection of director Mel Stuart and with a letter of authenticity from him, comes this genuine copper-mine colored wool-felt top hat designed by Helen Colvig for Gene Wilder in the title role, and one of the greatest actor performances on screen, *Willy Wonka and the Chocolate Factory*. Worn throughout the entire film by Wilder, being arguably the single most distinctive and memorable piece in his entire wardrobe ensemble. In fact, the image of this special hat and Wilder’s character in this film has become a symbolic icon in recent years for the child in all of us. Director Mel Stuart relates in the LOA how the hat was stashed away in his garage immediately after filming in 1971, and largely forgotten, until his son unearthed it many years later, making it available here. Band inside is dry and cracked, and brim has three small tears at edges, though overall it remains strong of shape and nicely presentable. **$20,000 – $30,000**

The production wanted a white power cord for contrast on-screen. The real black power cord was hidden in Olivier’s sleeve while a vestigial white cord was added for effect. Comes with a LOA from assistant property master Guy Bushman and his original 4th draft rehearsal script from the film, including Paramount covers, with shooting schedule and pages of original handwritten breakdown notes by Bushman, including an entry “asbl Dentist Tools…Hand Drill – Good one.” The Dremel is in excellent operable condition. 948. Rare fully animatronic puppet from *Howard the Duck.* (Universal, 1986) This is the only fully animatronic “Howard the Duck” puppet created for the film adaptation of Steve Gerber’s comic book. Lucas’ adaptation of the comic book placed less emphasis on the satirical storytelling in order to highlight the special effects of Industrial Light & Magic. The film’s advanced stop-motion animatronic sequences were difficult to shoot due to the number of puppeteers required to operate the different parts of the body and director Willard Huyck continually reshot scenes as the technology improved. This impressively detailed fully animatronic puppet is constructed of a ball-and-socket aluminum armature covered in foam latex, the torso, arms and head are completely covered in white duck feathers. It features an internal breathing mechanism, multiple servos as well as hand paddles to actuate the mouth and eye movements. Howard stands a full 42 in. tall. Michael Keaton Hero Batsuit from Batman Returns. (Warner Bros., 1992) Tim Burton’s 1989 Batman and its blockbuster sequel, Batman Returns, not only reinvented the modern superhero, it also changed Hollywood’s perception of what a caped crusader looked like. Comedic actor Michael Keaton may not have had the ideal Batman body type—no matter once costume designer Bob Ringwood got done with his inspired take on the Dark Knight. Batman represented the first time ever that a superhero costume was envisioned as more than just a fancy set of tights. Instead, Ringwood chose to accent Keaton’s physique with armored pieces molded in foam latex attached to a spandex body suit. Although somewhat crude, this suit represents a grand experiment, which has now paved the way for all successive Batman film costumes, and influenced an entire generation of superheroes. This screen used costume is the much-improved Batman Returns version, and includes the original latex cape replete with sleeves for the armature that made the scalloped cloak extend into a Bat-like silhouette as the Dark Knight crashed through a skylight in one of the most spectacular entrances in movie history. The Batbelt is from an original production mold, the boots are vintage Nike Air IIs with added boot tops and leather boot armor, the replica gloves sport urethane wrist armor. The Birth of Star Trek: Gene Roddenberry Typed Letter Signed.

“Dear Alden: Just to get it on paper while fresh in my mind, here are my notes on the meeting you and I attended with Oscar Catz and Herbert Solow at Desilu Studios: The purpose of the meeting was to determine if Oscar Catz and/or Desilu would be interested in negotiating an arrangement of script payment, royalties, ownership and etc. under which I would write and deliver to them television pilots for the 1965-1966 season.

We had already delivered to them a detailed series prospectus for a one-hour science fiction show titled ‘Star Trek’, which Oscar Catz had read previously to the meeting. He declared the studio was interested in the project, in fact was somewhat enthusiastic about it potential as a prime-time television series.”

Roddenberry goes on to write at length about two other series proposals he has ready to submit including a period drama set in turn of the 20th century London titled ‘Piccadilly,’ and a cliff-hanger western series also he has ready to submit including a period drama set in turn of the

“I would write and deliver to them television pilots for the 1965-1966 season.

The point of all this, Alden, is that I am finding myself required to come up with inventions and designs far beyond what we earlier thought necessary and far beyond what any show creator-producer should be expected to provide. I absolutely am not content to see Desilu and others getting up with inventions and designs far beyond what any of us conceived necessary when we set up the original contract. The point of this all is that I am not at all happy with these provisions what any of us conceived necessary when we set up the original contract.

Roddenberry’s reputation as a futurist and visionary began to grow as the series continued and the present letter represents a milestone in his mentioning the birth of two of the most quintessential and revered devices in Trek lore: the phaser and the tricorder. Also evident is the frustration of being the chief conceptualist during the show’s earliest stage. Original binder holes at the top; otherwise, Fine. $3,000 – $5,000

Gene Roddenberry Typed Letter Signed.

“Dear Alden: Have just completed sketching out for our art people a rather unique three-stage phaser hand weapon-pistol-rifle, one convertible into another. Not only do they meet STAR TREK’s dramatic requirements but also they are adaptable for the toy market in which each device when added to the other does something different, new lighting effects plus new sounds plus new sightung potential. The latter is a periscope-sight utilizing a simple concave mirror and ground glass, which lets the hand phaser be aimed via crosshairs on the ground glass. When it becomes a part of the pistol, another concave mirror creates “close up” aiming on the ground glass. It has everything THE MAN FROM U.N.C.L.E. gun has, plus many new features.

Have also invented a “tricorder” device for our female Yeoman, again basically for dramatic uses on our show but also with female child’s toy potential, a device which acts sort of as a portable secretary-recording-photographic unit capable of taking down any information the Captain wishes at any time he is away from his bridge. Also have spent a considerable amount of time working with our costumer, improving the basic design – items which also have considerable sales potential. And without deprecating the work of any of our talented people involved, these are all items on which I have had to come up with the basic conception.

The point of this all, Alden, is that I am finding myself required to come up with inventions and designs far beyond what we earlier thought necessary and far beyond what any show creator-producer should be expected to provide. I absolutely am not content to see Desilu and others getting up with inventions and designs far beyond what we earlier thought necessary and far beyond what any of us conceived necessary when we set up the original contract.

The point of all this is that I am not at all happy with these provisions in this contract. They are one-sided, unfair, and each day become more demonstrably so. I have mentioned this to Herb Solow. Cordially, Gene R.”

With the introduction of the Star Trek TV series, a veritable phenomenon was unleashed upon the public, numbering physicists, engineers, housewives, senators, children and intellectuals among its devotees. Roddenberry’s reputation as a futurist and visionary began to grow as the series continued and the present letter represents a milestone in his mentioning the birth of two of the most quintessential and revered devices in Trek lore: the phaser and the tricorder. Farmer contacted David Middleton, the construction storeman for The Empire Strikes Back at Pinewood Studios, who released one of the original Darth Vader costumes used in the film in order to make the master molds and patterns necessary to create exact replicas of the costume for the film’s premieres in select major markets. This is one of the surviving costumes from the handful of examples that were produced by N.J. Farmer Associates LTD and used for the release of both The Empire Strikes Back and, three years later, Return of the Jedi. The costume is complete, featuring the following components comprising one of the greatest all-time villains in cinema history: signature fiberglass dome and facemask, fiberglass shoulder armor, pair of fiberglass greaves (shin guards), chest box wired for sequenced lighting (including leather straps), leather belt with machined aluminum buckle, pair of illuminating belt boxes, leather vest, cotton jerkin with leather sleeves, leather pants, leather codpiece, outer and inner cloaks, leather gloves and faux leather boots. The garments feature interior “N.J. Farmer Associates LTD” labels. The costume is beautifully detailed and all fiberglass components are painted and polished to a very high standard, just as the screen-used costume. One could never expect to acquire a complete screen-used Darth Vader, so this is a rare opportunity for a collector to obtain a precise, production-authorized replica. Comes with a certificate of authenticity from N.J. Farmer. Electronics have not been tested. The costume exhibits minor chipping on the right greave near the knee; otherwise, in very fine condition. $40,000 – $60,000
1100. **Yoda on-set rehearsal puppet from *Star Wars: Episode V – The Empire Strikes Back***. (TCF, 1980) Yoda puppet used as a prototype on set while the real puppet was being built over a period of several months and also, more importantly, to give Frank Oz a chance to develop the character of Yoda. Establishing a realistic movement, with believable body characteristics was important in developing the character to its full potential. Frank Oz wished to have as much time as required with the puppet in order to experiment with it. The puppet also served as a lighting double to the actual Yoda puppet on set. Constructed of polyfoam head with clear-coated eyes, limbs and body are polyfoam over sewn cotton stuffed with buckwheat. Measures approx. 32 in. long. The rough woven costume was taken from the original sketches of Yoda before it was decided he should wear a Jedi robe. Exhibits slight loss of foam at the arms, but remains in remarkable condition given its age and intended use. Accompanied by a LOA from Wendy Froud (credited as Wendy Midener), who worked under Stuart Freeborn as Yoda sculptor and puppeteer, and operated Yoda’s cables during filming. A fantastic artifact that heavily contributed to the creation of one of the most beloved and revered characters in film history. **$6,000 – $8,000**

1109. Complete NASA Gemini Program G-2C spacesuit, helmet, gloves and boots. This is a very rare early Gemini Program G-2C spacesuit, helmet and gloves with G-5C boots (type of boots used on Gemini 7 mission) and used for testing during the brief 2nd phase of the U.S. Space program – Gemini. The suit was worn by Mitchell B. Kanowski, Chief Warrant Officer and specialist in high altitude parachute testing. Kanowski was one of the five “Air Jumpers” brought into the program to test the emergency escape system incorporated into the Gemini capsules. One of NASA’s unsung heroes, he willingly risked his life testing this spacesuit, jumping multiple times, the highest from a distance of 33,000 feet in an uncontrolled free fall.

All five Air Jumpers and the Gemini astronauts traveled to the David C. Clark Company in Massachusetts where each Gemini suit was custom tailored for each individual. It bears an internal label “SUIT HIGH ALTITUDE/FULL PRESSURE/G2C-4/SIZE KANOWSKI/DATE OF MFG. 8-2-63.” It bears the original NASA red/white/blue extended vector patch on the left breast and Velcro-attached leather tag on the right breast. The original U.S. flag patch on the left shoulder was torn, and was replaced by The Kansas Cosmosphere with a correct identical one from that era. The boots have sewn-in labels that read “BOOT RIGHT/PRESSURE SUIT ASSEMBLY/NASA DESIGNATION gb-5c-9/MFG. DAVID CLARK COMPANY INC./P/N A-2482-2 SERIAL NO. 509/SIZE BORMAN OCT. 1965.” Left boot is the same except: “BOOT LEFT” and “P/N A2482-1.” Glove labels read: “GLOVE, SPACE SUIT/NASA DESIGNATION GG-2C-1/DAVID CLARK CO. INC./P/N ACS 1003 SER. NO. 116/SIZE CONRAD DEC. 13.” The boots were made for Astronaut Frank Borman, Command Pilot of the Gemini 7 Mission and the gloves were made for Astronaut Charles “Pete” Conrad, Jr., Pilot of the Gemini 5 Mission and Command Pilot of the Gemini 11 Mission and later third person to walk on the Moon during the Apollo 12 mission.

Following its use in the Gemini test program, the suit was re-assembled by NASA to create a display for ROTC military recruiters. Made of 100% actual Gemini parts that were used in test situations, the suit is virtually complete, with all external parts intact as assembled by NASA. The condition of the spacesuit is very good overall with no visible signs of deterioration. The outer layer is somewhat yellowed from U/V exposure at high altitude which has slightly discolored the Nomex Nylon material. The interior Nylon liner is in very good condition and the internal rubber bladder for the body is present. The anodized aluminum is in excellent condition, exhibiting no corrosion that is typically found along the aluminum glove wrist and suit neck rings. All closures and connections are in sound, working condition.

The Gemini G-2C spacesuit underwent some restoration by The Kansas Cosmosphere, the world’s leading space artifact restoration facility and the only facility designated by the Smithsonian Institution to restore flown U.S. spacesuits and craft. The restoration was overseen by F. James Remar, Vice President of Museum Operations in October and November, 2005. A preservation mannequin was fabricated and inserted in the suit at the time of the restoration. The mannequin was fabricated with a stainless steel frame and ethafoam and polyester batting for padding. The mannequin can be used for both display and storage and includes a vintage plaster mannequin head. While a myriad of Russian space suits have come on the market over the years, varying in rarity, age, condition and historical importance, this is the only complete NASA Gemini spacesuit available to private collectors that we are aware of. All space-flown suits become the property of the The Smithsonian if NASA decides it has no further use for them. While it is true that this suit did not fly in space, the test suits were an instrumental part of the Gemini program, and it is only available to private collectors because it did not fly in space. A unique opportunity to acquire an original Gemini test spacesuit and certainly worthy of inclusion as the centerpiece of any museum or personal space memorabilia collection. Includes complete documentation of provenance and researched history of the suit as well as a full list of the restoration process. $150,000 – $250,000
On August 19, 1982, Soviet cosmonaut Svetlana Savitskaya became the second woman to travel in space during the Soyuz T-7 mission. She served two tours of duty on the Salyut 7 space station and on her second, on July 25, 1984, became the first woman to perform a space walk conducting experiments. The walk lasted 3.58 hours and was part of the Soyuz T-12 mission. This Sokol-KV-2 suit was worn by Savitskaya upon re-entry into Earth's atmosphere following her historic Soyuz T-12 mission, being her last.

The Sokol-KV-2 crew rescue suit was first worn in the Soyuz T-2 spacecraft on 5 June, 1980, and is still worn by Russian crews today during launch and descent. Each suit is connected to an on-board life support system which supplies oxygen, electrical power, suit ventilation and water for the cooling garment worn underneath. It is considered part of the Soyuz life support system. Each suit is tailor-made to fit individual crew members and is constructed of two layers: an internal and external. The internal part is made of an elastic-type material and keeps the suit pressurized. The external layer is made of a flame-resistant fabric called “Lavsan” or “Dacron”. The suit, including the helmet and boots, is integrated; only the gloves are removable and attach by means of blue anodized aluminum wrist couplings. The polycarbonate visor can open on hinges mounted near the ears and seals with an anodized aluminum clavicle flange when closed; the hood or “soft helmet” folds when the visor is raised. The wearer climbs into the suit via the zippered front opening; into the legs first, then arms and head. The suit is then sealed by means of the “appendix”, flaps of cloth bound up by rubber bands. The wearer is fitted with biomedical sensors next to his skin. The blue anodized aluminum knob on the front is a pressure regulator and there is a suit pressure gauge mounted on the left wrist. There are four connections to the suit: an electrical cable for transmitting biomedical data; another cable for communications; a ventilation tube and an oxygen tube. The suit weighs around 22 lbs. and is intended to be worn for up to 30 hours in a pressurized environment or two hours in a vacuum.

Savitskaya was twice awarded the Hero of the Soviet Union title. She was also a test and sports pilot – starting from 1974 she set 18 international world records on MiG aircraft and three records in team parachute jumping. She won first place at the 6th FAI World Aerobatic Championship in 1970. Savitskaya retired in 1993 from the Russian Air Force with the rank of Major.

On May 5, 2011, Bonhams, NY sold a Sokol spacesuit worn by Alexei Leonov during the Apollo-Soyuz Test Project for $242,000. A once in a lifetime opportunity to acquire a spacesuit from one of the true heroes of aerospace who will forever be listed in the record books of human history. Suit is in excellent condition. $200,000 – $300,000

BY EITHER REGISTERING TO BID OR PLACING A BID, THE BIDDER ACCEPTS THESE CONDITIONS OF SALE AND ENTERS INTO A LEGALLY BINDING, ENFORCEABLE AGREEMENT WITH PROFILES IN HISTORY.

The following terms and conditions constitute the sole terms and conditions under which Profiles in History ("Profiles") will offer for sale and sell the property described in the Catalog. These Conditions of Sale constitute a binding agreement between the Bidder and Profiles with respect to the auction. By bidding at auction, whether in person, through an agent or representative, by telephone, facsimile, on-line, absentee bid, or by any other form of bid or by any other means, the Bidder acknowledges the thorough reading and understanding of all of these Conditions of Sale, all descriptions of items in the Catalog, and all matters incorporated herein by reference, and agrees to be fully bound thereby.

NO BID MAY BE PLACED IN ANY MANNER UNLESS THE BIDDER HAS FULLY REVIEWED AND AGREES TO ALL OF THE "CONDITIONS OF SALE" EITHER PRINTED IN THE CATALOG OR, ON-LINE, AS WELL AS THE TERMS OF THE REGISTRATION FORM. THE BIDDER ACKNOWLEDGES AND AGREES TO MAKE ALL PAYMENTS TO PROFILES AND WARRANTS TO PROFILES THAT HE OR SHE HAS FULLY REVIEWED AND AGREES TO BE BOUND BY ALL OF THESE "CONDITIONS OF SALE" AND THE TERMS OF THE REGISTRATION FORM. WITHOUT SUCH REPRESENTATION, WARRANTY AND AGREEMENT, PROFILES WOULD NOT PERMIT THE BIDDER TO BID.

Bidder and Profiles agree that any agreements between the Bidder and Profiles including but not limited to these Conditions of Sale are entered into in Los Angeles County, California, which is where the agreements are to be performed and the auction to take place, no matter where Bidder is situated and no matter by what means or where Bidder was informed of the auction and regardless of whether catalogs, materials, or other communications were received by Bidder in another location. Both Profiles and the Bidder agree that any disputes under these Conditions of Sale, the subject matter hereof, the entering into, or any aspect of the auction, shall be exclusively governed by California law, and that any and all claims or actions shall be brought and maintained only in Los Angeles County, California in a State or Federal Court to the exclusion of any other jurisdiction in the event of any dispute specifically including third party claims and cross-claims brought by either Profiles or Bidder, and that absent such agreement, Profiles would not permit Bidder to bid hereunder. Any violation of the terms of this Paragraph shall entitle the affected party to reasonable attorney fees and litigation costs in addition to all other available remedies, all of which remain reserved. The parties agree that Profiles shall be entitled to present these Conditions of Sale to a court in any jurisdiction other than set forth in this paragraph as conclusive evidence of the parties' agreement, and the parties further agree that the court shall immediately dismiss any action filed in such jurisdiction. Notwithstanding any other provision herein, the prevailing party in any claim, dispute or litigation between the parties shall be entitled to an award of reasonable attorney fees and costs of litigation.

Unless otherwise set forth in the Catalog, all property will be offered by Profiles solely as agent for the seller or consignor of the property ("Consignor") and not on its own behalf.

Profiles is in compliance, to the fullest extent possible, with California procedures regarding the bonding of auctioneers.

1. Final Bid Price, Purchase Price and Payment. The term, “Final Bid Price” means the amount of the highest bid acknowledged and acceptable to Profiles. The term, “Purchase Price” means the sum of (1) the Final Bid Price; (2) a premium payable by the successful Bidder (also referred to throughout these Conditions of Sale as “Buyer”) equal to twenty-three percent (23%) of the Final Bid Price [discounted to twenty percent (20%) of the Final Bid Price if paid in full in cash or by valid check, or a 15% discount to qualified Profiles internet bidders]; (3) applicable taxes (including California and local sales tax and/or compensating use tax based upon the purchase price unless exempted by law and/or where Buyer presents an original, valid resale certificate with a copy for Profiles’ records from the California State Board of Equalization); (4) shipping; (5) applicable insurance; if requested if乙方er and agreed upon by Profiles. Profiles may accept current and valid VISA, MasterCard, Discover and American Express credit or debit cards for payment but under the express condition that any property purchased by credit or debit card shall not be refundable, returnable, or interchangeable, and that no credit to Buyer’s credit or debit card account will be issued under any circumstances. The last sentence constitutes Profiles’ “official policy” regarding returns, refunds, and exchanges where credit where card or debit cards are used for payment. The Bidder will be required to immediately pay in full or on credit card authorize will or prior to pick up or delivery. Full payment must be made unless and until full payment has actually been received by Profiles, i.e., check has fully cleared or credit or debit card funds fully obtained.

Profiles has been authorized by the seller or consignor to reserve the right to reserve in the event of a dispute between bidders or if the auctioneer has doubt as to the validity of any bid, to advance the bidding at its absolute discretion and to determine the successful bidder in the event of a dispute between bidders, to continue the bidding or to reoffer and relot the lot in question. In the event of a dispute after the sale, Profiles’ record of final sale shall be conclusive. The auctioneer also may reject any bid and withdraw the lot from sale if the auctioneer decides either that any opening bid is below the reserve (see paragraph 5 below) of the lot or article or that an advance is insufficient. Unless otherwise announced by the auctioneer at the time of sale, no lots may be divided for the purpose of sale.

5. Reserves. Lots may be subject to a reserve which is the confidential minimum price below which the lot will not be sold. Although the auctioneer may open the bidding on any lot below the reserve by placing a bid on behalf of the seller, Profiles reserves the right to protect the reserve by bidding through the auctioneer and continuing to bid on behalf of the seller up to the reserve amount either through consecutive bids or by placing bids in response to other bidders. Consignors may not bid on their own lots or property. If the consignor is indebted to or has a monetary guarantee from Profiles in connection with a lot, Profiles may have an interest in an offered lot and the proceeds therefrom apart from Profiles’ commissions, and Profiles may bid thereon to protect such interest. In such instance, Profiles is entitled to its standard commission rate when a lot is “bought-in” to protect its interest.

6. Risk and Responsibility. Agency. The buyer shall, on delivery, assume all risk of loss or damage to any property purchased by Buyer as principal, and Profiles shall be indemnified and held harmless from any claim, demand or expense arising from any cause. Seller or consignor’s property. Profiles is entitled to its standard commission rate when a lot is “bought-in” to protect its interest.
discretion, deems necessary or appropriate to preserve and protect Profiles’ rights and remedies. Should Profiles resell the property, the original defaulting buyer shall be liable for the payment of any deficiency in the purchase price and all costs and expenses associated therewith, including but not limited to any court- or auction-related expenses, reasonable attorney fees and court costs, commissions, incidental damages and any other charges due hereunder which were not collected or collectable.

In the event that such buyer is the successful bidder on more than one lot and pays less than the purchase price for the total lots purchased, Profiles shall apply the payment received to such lot or lots that Profiles, in its sole discretion, deems appropriate. If Profiles does not exercise such discretion, the lots to which the payment shall be applied will be in descending order from the highest purchase price to the lowest.***

Any buyer failing to comply with these Conditions of Sale shall be deemed to have granted Profiles a security interest in, and Profiles may acquire, by collateralpurchase, such buyer's obligations to Profiles, any property in Profiles’ possession owned by such buyer. Profiles shall have the benefit of all rights of a secured party under the Uniform Commercial Code (U.C.C.) as adopted by the state of California.***

10. Warranties. Profiles does not provide any warranties to Bidders or Buyers, whether express or implied, beyond those expressly provided for in these Conditions of Sale. All property and lots are sold “as is” and “where is.” By way of illustration, but not limitation, neither Profiles nor the consignor makes any representation or warranty, expressed or implied, as to merchantability or fitness for intended use, condition of the property (including any condition report), correctness of description, origin, measurement, quality, rarity, importance, exhibition, relevance, attribution, source, provenance, date, medium, condition, culture, genuineness, value, or period of the property.

Additionally, neither Profiles nor the consignor makes any representation or warranty, expressed or implied, as to whether the Buyer acquires rights in copyright or other intellectual property (including exhibition or reproduction rights) or whether the property is subject to any limitations such as ‘droit moral’ (moral rights) or other rights affecting works of art. Bidder/Buyer acknowledges and agrees that if the property embodies any copyright, trademark, or other intellectual property; by the purchase of such property, Buyer/Bidder is not acquiring any interest in any copyright, trademark or other intellectual property that may be embodied or reflected in such property, but is acquiring only such physical embodiment and/or reflection. Buyer/Bidder shall make no representation or warranty as to title. All descriptions, photographs, illustrations, and terminology including but not limited to words describing condition (including any condition reports requested by Bidder), authorship, period, culture, source, origin, copy, provenance, authentication, exhibition, and relevance, used in the catalog, bill of sale, invoice, or anywhere else, represent a good faith effort made by Profiles to fairly represent the lots and property offered for sale as to origin, date, condition, and other information contained therein; they are statements of opinion only. They are not representations or warranties and Bidder agrees and acknowledges that he or she shall not rely on them in determining whether or not to bid or for what price. Price estimates (which are determined well in advance of the auction and are therefore subject to revision) and condition reports are provided solely as a convenience to Bidders and are not intended nor shall they be relied on by Bidders as statements, representations or warranties of actual value or predictions of final bid prices. Bidders are accorded the opportunity to inspect the lots and to otherwise satisfy themselves as to the nature and sufficiency of each lot prior to bidding, and Profiles urges Bidders to avail themselves accordingly. Lots and property are not returnable to Profiles for any reason except under Buyer’s limited Remedies set forth in Section 13 below and under the express terms and conditions of Section 13.

11. Limitation of Damages. In the event that Profiles is prevented for any reason from delivering any property to Buyer or Buyer is otherwise dissatisfied with the performance of Profiles, the liability, if any, of Profiles, shall be limited, to and shall not exceed, the amount actually paid for the property by Buyer. In no event shall Profiles be liable for incidental, special, indirect, exemplary or consequential damages of any kind, including but not limited to loss of profit, value of investment or opportunity cost.

12. Unauthorized Statements. Under no circumstances is any employee, agent or representative of Profiles authorized by Profiles to modify, amend, waive or contract any of these Terms and Conditions, any term or condition set forth on the Registration Form, any warranty or limitation or exclusion of warranty, any term or condition in either the Registration Form or these Terms and Conditions regarding payment requirements, including but not limited to due date, payment constitutes payment in full, or any other term or condition contained in any documents issued by Profiles unless such modification, amendment, waiver or contradiction is contained in a writing signed by all parties. Any statements, oral or written, made by employees, agents or representatives of Profiles to Bidder, including statements regarding specific lots, even if such employee, agent or representative represents that such statement is authorized, unless reduced to a writing signed by all parties, are statements of personal opinion only and are not binding on Profiles, and under no circumstances shall be relied on by Bidder as a statement, representation or warranty of Profiles.

13. Buyer’s Remedies. This section sets forth the sole and exclusive remedies of Buyer in conformity with Sections 10 (“Warranties”) and 11 (“Limitation of Damages”) herein, and is expressly in lieu of any other rights or remedies which might be available to Buyer by law. The Buyer hereby accepts the benefit of the consignor's warranty of title and any other representations and warranties made by the consignor for the Buyer's benefit. In the event that Buyer proves to Profiles’ satisfaction that the property sold was not what was described and/or represented, Profiles shall have the right to reclaim the lot or lots, and will be entitled to retain the price paid and all other amounts paid to Profiles – this remedy is in addition to any other rights Buyer may have under the law. The Buyer hereby accepts the benefit of the consignor’s warranty of title and any other representations and warranties made by the consignor for the Buyer's benefit. The rights and remedies provided herein are for the original Buyer only and they may not be assigned or relied upon by any transferee or assignee under any circumstances. Lots containing ten or more items are not returnable under any circumstances. The exercise of rights under this Section 13 must be, at all, within thirty (30) days of the date of sale.***

14. Profiles’ Additional Services. For Buyers who do not remove purchased property from Profiles’ premises, Profiles, in its sole discretion and solely as a service and accommodation to Buyers, may arrange to have purchased lots packed, insured and forwarded at the sole request, expense and risk of Buyer. Profiles assumes no and disclaims all responsibility and liability for acts or omissions in such packing or shipping by Profiles or other packers and carriers, whether or not recommended by Profiles. Profiles assumes no and disclaims all responsibility and liability for damage to frames, glass or other breakable items. Where Profiles arranges and bills for such services via invoice or credit card, Profiles will include an administration charge.****

15. Headings. Headings are for convenience only and shall not be used to interpret the substantive sections to which they refer.

16. Entire Agreement. These Conditions of Sale constitute the entire agreement between the parties together with the terms and conditions contained in the Registration Form. They may not be amended, modified or superseded except in a signed writing executed by all parties. No oral or written statement by anyone employed by Profiles or acting as agent or representative of Profiles may amend, modify, waive or supersede the terms herein unless such amendment, waiver or modification is contained in a writing signed by all parties. If any part of these Conditions of Sale are for any reason deemed invalid or unenforceable, the remaining portions shall remain fully enforceable without regard to the invalid or unenforceable provisions.

Section 9. 2nd paragraph. Profiles’ Remedies: In the event that such buyer is the successful bidder on more than one lot and pays less than the purchase price for the total lots purchased, Profiles shall apply the payment received to such lot or lots that Profiles, in its sole discretion, deems appropriate. If Profiles does not exercise such discretion, the lots to which the payment shall be applied will be in descending order from the highest purchase price to the lowest. Notwithstanding the foregoing two sentences, if the lots which the price was paid, were consigned by Consignor and one or more other parties (including, without limitation, Profiles), Profiles shall apply the payment pro-rata among Consignor and such other parties.

Section 9. 3rd paragraph. Profiles’ Remedies: Any buyer failing to comply with these Conditions of Sale shall be deemed to have granted Profiles and Consignor a security interest in, and Profiles and Consignor may retain as collateral such security for such buyer's obligations to Profiles and Consignor , any property in Profiles’ possession owned by such buyer Profiles and Consignor shall have the benefit of all rights of a secured party under the Uniform Commercial Code (U.C.C.) as adopted by the state of California.

Section 13. Buyer’s Remedies. This section sets forth the sole and exclusive remedies of Buyer in conformity with Sections 10 (“Warranties”) and 11 (“Limitation of Damages”) herein, and is expressly in lieu of any other rights or remedies which might be available to Buyer by law. The Buyer hereby accepts the benefit of the consignor’s warranty of title and any other representations and warranties made by the consignor for the Buyer's benefit. In the event that Buyer proves to Profiles’ satisfaction that the property sold was not what was described and/or represented, Profiles shall have the right to reclaim the lot or lots, and will be entitled to retain the price paid and all other amounts paid to Profiles – this remedy is in addition to any other rights Buyer may have under the law. The Buyer hereby accepts the benefit of the consignor’s warranty of title and any other representations and warranties made by the consignor for the Buyer's benefit. The rights and remedies provided herein are for the original Buyer only and they may not be assigned or relied upon by any transferee or assignee under any circumstances. Lots containing ten or more items are not returnable under any circumstances. The exercise of rights under this Section 13 must be, if at all, within thirty (30) days of the date of sale.

AUCTION GENERAL GUIDELINES

CONDITIONS OF SALE

Before you bid, you must read the Conditions of Sale, immediately preceding these pages. They represent a contract between Profiles and you, and they contain important terms and conditions such as jurisdiction, payment terms, warranties and remedies. The Conditions of Sale are controlling over these general guidelines in the event of any conflicts between their respective terms.

ESTIMATE PRICES

In addition to descriptive information, each entry in the catalog includes a price range which reflects opinion as to the price expected at auction. These are based upon various factors including prices recently paid at auction for comparable property, condition, rarity, quality, history, provenance. Estimates are prepared well in advance of the sale and subject to revision. Estimates do not include the buyer's premium or sales tax (see under separate heading). See Paragraph 10 of the Conditions of Sale for important restrictions as to reliance on estimated prices.

WWW.PROFILESINHISTORY.COM
The reserve is the minimum price the seller is willing to accept and below which a lot will not be sold. This amount is confidential and will not exceed the low pre-sale estimate.

**Owned or Guaranteed Property**

Profiles in History generally offers property consigned by others for sale at public auction; occasionally, lots are offered that are the property of Profiles in History.

**Buyer’s Premium and Sales Tax**

The actual purchase price will be the sum of the final bid price plus the buyer’s premium of 23% of the hammer price (discounted to 20% when full payment is made in cash or by valid check); or twenty-three percent (23%) if bid on and won through internet bidding. California sales tax shall automatically be added to the purchase price unless exempted.

**Before the Auction**

You may attend pre-sale viewing for all of our auctions at no charge. All property to be auctioned is usually on view for several days prior to the sale. You are encouraged to examine lots thoroughly. You may also request condition reports (see below). Profiles in History’s staff are available at viewings and by appointment.

**Hours of Business**

Profiles in History is open from 8 a.m. to 5 p.m. on weekdays. The viewing schedule for the auction is published in the front of the auction catalog.

**Condition Reports**

If you wish to obtain additional information on a particular lot, or cannot appear at the viewing, Profiles in History may provide, upon request, a condition report. We remind prospective buyers that descriptions of property are not warranted and that each lot is sold “as is” in accordance with the terms of the limited warranty. Condition reports, as other descriptions of property, are not warranted; they are only provided as a service to interested clients. Neither Profiles in History nor the consignor make any express or implied representation or warranty concerning the condition of any lot offered for sale; any information furnished does not modify or negate the limited warranty contained in the Conditions of Sale. See Paragraph 10 of the Conditions of Sale for important restrictions as to reliance on condition reports.

**Registration**

If you are planning to bid at auction, you will need to register with us. Please arrive 30 or 45 minutes before the sale to complete bidder registration and to receive a numbered paddle to identify you if you are the successful bidder. If you are a new client, or if you have not made a recent purchase at Profiles in History, you may be asked to supply bank and/or other credit references when you register. To avoid any delay in the release of your purchases, we suggest that you pre-arrange check or credit approval. If so, please contact Profiles in History at (310) 859-7701 or by fax at (310) 859-3842.

You must acknowledge having read your agreement with all of the Conditions of Sale prior to your registration and prior to your bidding on any lot.

**The Auction**

All auctions are open to registered bidders only. You must register to bid or otherwise participate.

**Bidding**

Bidding is auctioned in consecutive numerical order, as it appears in the catalog. The auctioneer will accept bids from those present in the salesroom or absentee bidders participating by telephone, internet or by written bid left with Profiles in History in advance of the auction. The auctioneer may also execute bids on behalf of the consignor to protect the reserve, either by entering bids in response to salesroom, telephone or absentee bidders. Under no circumstances will the auctioneer place any bid on behalf of the consignor at or above the reserve. The auctioneer will not specifically identify bids placed on behalf of the consignor to protect the reserve.

**Absentee Bids**

If you cannot attend an auction, it is possible to bid by other means. The most common is the absentee bid, sometimes called an “order bid.” Absentee bids are written instructions from you directing Profiles in History to bid for you on one or more lots up to a maximum amount you specify for each lot. Profiles in History staff will execute your absentee bid as reasonably as possible, taking into account the reserve price and other bids. There is no charge for this service. If identical bids are submitted by two or more parties, the first bid received by Profiles in History will take preference. The auctioneer may execute bids for absentee bidders directly from the podium, clearly identifying these as order bids. Absentee Bid Forms are available in the back of every auction catalog and also may be obtained at any Profiles in History location. See Conditions of Sale and Registration Form for absentee bid details.

**Telephone Bids**

It is also possible to bid by telephone if you cannot attend an auction. Arrangements should be confirmed at least one day in advance of the sale with Profiles in History at (310) 859-7701. Profiles in History staff will execute telephone bids from designated areas in the salesroom. See Conditions of Sale and Registration Form for telephone bid details.

**Internet Bids**

Profiles in History is pleased to offer live Internet bidding at www.profilesinhistory.com. To ensure proper registration, those Bidders intending to bid via the Internet must visit this site and register accordingly at least one full day prior to the actual auction. Please be aware that there is a minimum 3-second delay in the audio and visual feeds, which may confuse some bidders. If you have questions about this feature, please call Profiles in History for assistance.

**Condition Reports**

Profiles in History may not physically keep up with the pace of the auction. In order to help avoid disappointment, Profiles recommends placing a realistic absentee bid now. Occasionally the auctioneer may eliminate or reject an internet live bid, and the auctioneer may also reopen a lot after the close of the internet live bidding (typically but not always because a floor bid or a telephone bid was missed), and your bid may be rejected if you were shown to be the winning bidder. By bidding online, you acknowledge and agree that Profiles in History may award the lot to another bidder at its sole discretion. Clients must register with Profiles in History at www.profilesinhistory.com. To ensure proper registration, those Bidders intending to bid via the Internet must visit this site and register accordingly at least one full day prior to the actual auction. Please be aware that there is a minimum 3-second delay in the audio and visual feeds, which may confuse some bidders. If you have questions about this feature, please call Profiles in History for assistance.

Profiles in History will discuss with you a suggested reserve price and conditions are controlling over these general guidelines.

We are always happy to assist you. For more information please contact us at (310) 859-7701. Property usually arrives at Profiles in History at least three months before the sale in order to allow time to research, catalog and photograph the items. Prior to the auction your property is generally stored at Profiles in History’s facilities.

**Deposit of Property to Profiles in History**

Profiles in History will not accept property unless a deposit of thirty percent (30%) of the hammer price has been paid in full by check, money order or credit card, we will also include an administration charge.

**Unsold Lots**

You are expected to pay for your purchases in full within seven calendar days of the sale or five calendar days from the invoice date, whichever is later, and to remove the property you have bought by that date.

**Shipping**

For shipping information, please contact Profiles in History at (310) 859-7701. **Sales Results**

Interested clients may obtain sale results for specific lots at least three business days after the auction by calling Profiles in History at (310) 859-7701.

**THE SELLER**

**Auction Estimate**

If you are considering selling your property, you can bring items to our California Hillside salesroom by appointment only. If a visit is not practical, you may instead send a clear photograph together with dimensions and any other pertinent information you may have. Profiles in History cannot be responsible or liable in any case for damage or loss to photographs or other information sent.

**Consignment Agreement**

If you decide to sell your property at auction, the procedures are simple and you should find Profiles in History staff helpful to you throughout the process. After discussions with our staff you will receive a contract (Consignment Agreement) to sign, setting forth terms and fees for services we can provide, such as insurance, shipping and catalog illustrations. For all categories, Profiles in History’s standard consignor commission rates are fifteen percent (15%) of the final bid price. Profiles in History generally charges a minimum commission of $100 for each lot sold. Profiles in History will discuss with you a suggested reserve price and our recommendations for pre-sale estimates for each piece of property you consign for sale. The terms and conditions contained in the actual Consignment Agreement will govern our respective rights and obligations; those terms and conditions are controlling over these general guidelines.

**Delivering Property to Profiles in History**

After you have consigned property to us for sale, you can either bring your property to Profiles in History yourself, arrange with your own shipper to deliver it to us or Profiles in History can arrange for it to be shipped through their shipping department. We are always happy to assist you. For more information please contact us at (310) 859-7701. Property usually arrives at Profiles in History at least three months before the sale in order to allow time to research, catalog and photograph the items. Prior to the auction your property is generally stored at Profiles in History’s facilities.

**Pre-Auction Notification**

Several weeks before the scheduled sale, along with thousands of Profiles in History’s worldwide subscribers, you should be receiving a copy of the sale catalog in which your property is offered.

**Unsold Lots**

If a lot does not reach the reserve, it is bought-in. In other words, it remains unsold and is returned to the consignor. The auctioneer will not specifically identify bids placed on behalf of the consignor to protect the reserve.
**Photographs, Illustrations and Screen Shots:**

Unless otherwise explicitly set forth in the catalog description for an individual item, all photographs, illustrations, and screen shots are furnished solely for reference purposes and not as a statement, representation or warranty that the image depicted is the exact item offered. Due to the fact that multiple props, costumes, and other items are customarily made for and used on or off screen in a motion picture or other program, Profiles cannot and does not represent or warrant that the specific item depicted in the photograph, illustration or screen shot is the very same item offered at auction.

**Trademarks:**

In the catalog descriptions, Profiles takes steps to identify and provide provenance for an item offered at auction. In many cases, the items offered were used in or in conjunction with motion pictures or other programs and is furnished in order to fully identify and describe the item offered at auction, including photographs, illustrations, and screen shots. Profiles in no way claims any connection to or relationship with the producers of the motion picture or other program. In all cases, the use of the titles or other elements of a motion picture or other program is for informational purposes only.

**Copyrights:**

Unless otherwise set forth with respect to an item offered, the item offered at auction is a one-of-a-kind original piece, and Profiles makes no statement, representation or warranty concerning the copyright of such item. Depiction of the item in the catalog and other auction promotions is purely for informational and reference purposes regarding the offering of the item at auction. Unless otherwise set forth with respect to an item offered, Profiles makes no statement, representation or warranty concerning the successful bidder’s right to copy, reproduce or adapt for any purpose any item offered at auction.

**IMPORTANT NOTE TO PROSPECTIVE BIDDERS AND DISCLAIMER:** Please note that all items in this catalog are sold in “as is” condition. We do our best to properly describe all materials herein, but normal wear and tear is common due to the fragile nature of the items including their age and use in film and TV productions. We are not responsible for a zipper not working, a piece missing from a prop, etc. Tears or alterations to the fabric or original design of a costume, or broken/missing pieces to a prop are to be expected. While many of the props, costumes and other memorabilia are currently displayable in their screen-used condition, these items may require some restoration to be returned to their pre-production state. Many of the items featured have been modified and altered for subsequent productions and may differ from the original production usage.

The term “working prop” denotes that the prop was originally made to do something unlike a static prop. This does not mean that the prop works today, although in many circumstances it may be possible to have the prop restored to its original configuration.

Archive of John Wayne Personal Correspondence Spanning the Richest Period of the Actor’s Career with Films Such as The Spoilers, Pittsburgh, The Fighting Seabees, Angel and the Badman, Red River, Wake of the Red Witch, The Fighting Kentuckian, Sands of Iwo Jima, Island in the Sky, Hondo, The High and the Mighty, The Searchers, Jet Pilot, The Alamo, The Longest Day, In Harm’s Way and Many Others. Extensive archive of John Wayne personal correspondence representing over 25 years, 1941-1966, and spanning the richest period of the actor’s career with films such as The Spoilers (1942), Pittsburgh (1942), The Fighting Seabees, Angel and the Badman, Red River (1948), Wake of the Red Witch, The Fighting Kentuckian, Sands of Iwo Jima, Island in the Sky, Hondo (1953), The High and the Mighty, The Searchers (1956), Jet Pilot, The Alamo (1960), The Longest Day, In Harm’s Way and many others. The archive contains significant correspondence and consultations, with 350+ individual pieces including (1) John Wayne 2 pg. autograph letter signed, (4) autograph notes signed, (6) typed letters signed, (1) signed promissory note to Charles K. Feldman, (4) signed agreements, extensive collections of copies of legal documents, inter-office memos, and telegrams; the majority being intimate exchanges with his agent, Charles K. Feldman, as well as letters to and from Darryl F. Zanuck, Howard Hawks, Howard Hughes, Spyros Skouras, studio and department heads and many others. Charles K. Feldman (1904-1968) was Wayne’s long-time agent and one of the most powerful agents in Hollywood. He had notable creative input as executive-producer on several important films, Pittsburgh, Red River, A Streetcar Named Desire, The Seven Year Itch, and others. The frank and, at times, highly personal nature of this correspondence is testament to the long, intimate friendship and complete trust Wayne had in Feldman. Many letters run to several pages of intricate details on management issues, whether a role is suitable or not, payment and royalties, etc. The archive begins in late 1941. At this time, Wayne was ending a frustrating 5-year contract with Leo Morrison and just had a taste of box office success after appearing in John Ford’s Stagecoach. It was his encounter with star Marlene Dietrich however, newly acquired by Charles Feldman’s agency, which set his sights higher. Dietrich was attempting to revamp her career after being dubbed “box office poison,” dismissing the forced exoticism and taking on different roles in robust American scenarios. Wayne ceased paying commissions to Morrison in late July, 1941, and the archive starts with a signed 4 pg. deposition from John Wayne, dated Sept. 25, 1941, in the case Leo Morrison, Inc. v. Feldman and Dietrich, et al. as well as his 5 pg. signed statement to SAG framing the reasons for Morrison’s dismissal. Interestingly, an unsigned file copy, submitted to SAG, of Marlene Dietrich’s response to the accusations that she personally influenced Wayne’s decision to dismiss Morrison and accept Feldman’s representation is included. It culminates in an historic 8 pg. signed agreement, signed by John Wayne, both as “Duke Morrison” and “John Wayne,” as well as Marlene Dietrich as “Mary Magdalene Sieber,” whereby Wayne agrees to pay Morrison commissions solely on his Republic contract.

1950s: 3 pg. Typed Letter Signed, Nov. 4, 1955, from John Wayne to Feldman regarding the possibility of purchasing beleaguered RKO studio for $15 million. A fascinating exchange of long and heated letters from John Wayne to Howard Hughes venting his anger about delays in filming The Conqueror: “...you have caused me a huge financial loss and a great loss of prestige at a point in my life and in my career when I can afford neither…$20,000 – $30,000
It must surely be apparent to you that this is unjust and unfair and you have no moral or legal right to impose on me to this extent.”

July 16, 1959: Strongly worded 2 pg. letter from Feldman to Wayne stating Skouras displeased with the role of “Cota,” who was initially to be played by John Wayne, “Here is why I very much want you to play the role of Brigadier General Norman Cota. Ultimately the role went to Robert Mitchum, Zanuck closes with “This may sound like a lot of crap, but I feel this can be an important motion picture, probably one of the most important films ever made.”

Together with a collection of Dec. 1961 telegram exchanges between Darryl Zanuck and Feldman, as well as Zanuck and Skouras regarding obtaining Wayne in the role of “Lt. Col. Benjamin Vandervoort.” William Holden (in addition to Charlton Heston) was strongly considered for the role and this interesting dialogue is noteworthy for Zanuck determined to get Wayne in the film. Zanuck paid dearly to have Wayne in the picture. Condition is generally Very good or better; with slight signs of handling, tiny chips and creases. A rich trove of information and fascinating glimpse into the behind-the-scenes stories, his process of carefully selecting roles and scripts, and most evident, the leeway provided by the artistic control granted in his contracts that shaped Wayne’s early career and persona. The present material should be considered a view into the birth of a cultural icon and ascension to the top of the box office. Interested parties are strongly encouraged to view this material in person. $20,000 – $30,000

(MGM, 1944) A very young (and undersized for her age) Elizabeth Taylor spent several months gaining weight and strength (including “chest enlargement exercises”) to make herself marketable for this strenuous equestrian role, her first starring appearance at just age 11. Arguably best card in the set, depicting Taylor posing as a male jockey in the racing silks recently auctioned by this auction house in the first Debbie Reynolds costume sale. **$200 – $300**

Referred to in the trade as a “stock” design because it depicts just a performer (in this case silent comedienne Mabel Normand) rather than a specific film, so it can be displayed for any of the performer’s various titles. Likely from the period 1915 to 1920 based upon the Art Nouveau design and execution, and this being Normand’s height of popularity. Condition is Good only, with folds and tears, though essentially intact and complete. **$200 – $300**

249. **Gilda** original near-mint linen-backed Style ‘B’ one-sheet poster. (Columbia, 1946) Long considered one of the single greatest U.S. film posters of all time, not only for the Film Noir and Femme Fatale genres, but across the spectrum of design and execution in the world of American film publicity. It’s no small bonus that this exceptional and very sexy design also represents one of the truly great titles in the American Film Noir canon. Only a handful of this rare and desirable style have ever surfaced and changed hands in the history of film poster collecting, and at least a few of them had significant condition issues, i.e. trimmed borders, masonite-mounted, or color fading. This example suffered from none of these, having shown only minor normal age and handling for a poster of its vintage, and the original color saturation here is breathtaking. Only traces of retouching to folds and a clean internal tear are detectible in this archivally linen-backed treasure which presents itself now as virtually perfect, making this one of, if not the, finest examples extant of a legendary poster classic. Very Fine to Near Mint. **$30,000 – $50,000**
250. **Ride the Pink Horse** original U.S. 3-sheet poster for the 1947 Film Noir classic. Rivals *Lady in the Lake* as Robert Montgomery’s finest film work, and features remarkable turns by character Thomas Gomez and ingénue Wanda Hendrix. Normal wear and chipping at folds for a large un-restored poster of this age. Very Good. $200 – $300

253. **Easter Parade** original U.S. half-sheet poster. (MGM, 1948) 22” x 28” U.S. style ‘B’ half-sheet poster on archival paper backing. Nicely designed and arranged combination of artwork and photo portraits make this one of the most pleasing original posters for this significant musical starring Judy Garland and Fred Astaire. Never folded before backing, so there is a minimum of retouching to this Fine example. $300 – $500

254. **The Red Shoes** French 1-panel “Grande-Format” on linen. 257. **Lady from Shanghai Original U.S. One-Sheet Poster on Linen.**
(Columbia, 1947) Arguably the most deliriously sensual, moody, confusing, and ultimately rewarding film directed by Orson Welles, and the only one he made with Rita Hayworth during their brief tempestuous marriage. Whether she went blonde for the role, or just for him is anyone’s guess at this point, but it was a remarkable look for her, and quite a shock to her traditional fans. This highly sexualized design (considering the power of the Production Code at this time), both for image and for its seductive caption, is without question the only other truly great Rita Hayworth U.S. poster to rival the legendary ‘B’ style Gilda one-sheet, offered elsewhere in this same auction. This is a lovely example of this scarce poster, showing only minimal retouching to minor fold and junction wear, Very Fine. $8,000 – $10,000
258. **The Man from Planet X** near-mint original U.S. insert poster. (United Artists, 1951)

336. **My Fair Lady** original U.S. three-sheet poster on linen. (Warner Bros., 1964) 41” x 79” U.S. three-sheet poster for one of the best-loved films starring Audrey Hepburn. Winner of eight Oscars, including Best Picture, Actor, and Director. Art by Bob Peak on this large-format poster is similar, though definitively superior to the much more common one-sheet size. This example was essentially unused and has not been retouched, though trace fold wear from storage and handling prior to backing remains, consequently Very Good to Fine. $600 – $800

337. **Dr. Zhivago** original U.S. “Roadshow” three-sheet poster on linen. Director David Lean was a master of epic filmmaking, and this is widely considered to be his masterpiece. General light wear and handling has been neatly addressed with moderate retouching in the linen-backing process; Fine. $300 – $500

338. **James Bond Collection of (4) Window-Card Posters for the First Four 007 Films**. Condition varies (Dr. No has writing on back and minor staining; Goldfinger has playdate written in crudely) though none are trimmed or horizontally folded, so generally Very Good to Fine. $300 – $500

339. **Dr. No** folded Near-Mint original U.S. one-sheet poster. (UA, 1962) 27” x 41” folded U.S. one-sheet poster in extraordinary original unrestored condition, for the first film in the legendary string of titles inspired by the British spy novels of Ian Fleming. Due to immediate overwhelming popularity, the films which starred Sean Connery as James Bond enjoyed longer than normal theatrical runs, and consequently the posters for them are generally quite used and abused, with this, and the other ones we offer elsewhere in this catalog being welcome exceptions. Minute corner pinholes, else Near Mint. $600 – $800
340. **Goldfinger** 1-sheet poster. 342. **From Russia With Love** folded Near-Mint original U.S. one-sheet poster. (UA, 1964) 27” x 41” folded U.S. one-sheet poster in extraordinary original unrestored condition, for the second entry in the James Bond series of films from the novels of Ian Fleming. (UA, 1967) 27” x 41” folded U.S. one-sheet poster, special “Teaser Style A”, in extraordinary original unrestored condition, for the fifth entry in the James Bond series of films from the novels of Ian Fleming. Near Mint. $300 – $500

(MGM, 1966) 27” x 41” U.S. one-sheet poster on linen for one of the great films to cover the Formula-racing scene from an international perspective. 348. *Bullitt* original Italian fotobusta set of (8). (Warner Bros., 1968) Set of (8) Italian fotobusta posters, 18” x 28” each, all conserved on linen. Co-produced by Warners/7 Arts and Steve McQueen’s Solar productions. Though already a thoroughly fulfilling detective drama in its own right, *Bullitt* is even more significant for presenting what became the definitive movie “car-chase” sequence, and the one which all imitators sought to emulate. Material depicting the chase is virtually non-existent, perhaps on purpose to retain suspense prior to viewing. In any case, the one fotobusta here of the 1968 Dodge Charger mid-flight ranks as one of the great moments in action-film history. McQueen is well represented in other shots, though this set actually covers the entire breadth of the film’s finest points. All are generally Fine with minor to moderate retouching; we have not previously seen this set all together in one grouping. $1,000 – $1,500

This unusual format poster historically receives more abusive display than traditional sizes, and this example, though not perfect, was never folded and is surprisingly well-preserved on linen, with moderate retouching to general handling throughout. $800 – $1,200

Since the invention of the cinematograph in the 1890s, simple title cards were used to introduce and close silent film presentations in order to identify the film, studio and the production company involved as well as register copyright. In the early short films the first examples of title sequences were quite literally a series of title cards shown at the beginning of the film. With the advent of sound the sequence was typically accompanied by a musical prelude. As cinema’s title sequences grew longer to accommodate larger cast and crew, we begin to see the involvement of graphic design in generating strong graphics-led sequences such as those by Saul Bass and Maurice Binder. Completely handwritten in pencil by Greta Garbo, it commences with an itinerary entry covering her travels from Berlin to Constantinople and back to Berlin. After the success of her first starring role, *Gösta Berlings saga* (1924), she traveled to Turkey with her mentor, the director Mauritz Stiller to commence filming of *Odalisken från Smolna* but the film company went bankrupt. Stranded for several weeks Garbo left Turkey January 20 and returned to Berlin on January 23, 1925. Louis B. Mayer was in Europe overseeing budget and schedule difficulties of *Ben-Hur* and also scouting talent. Mayer was impressed with Garbo’s performance and was intent on making her a star. He signed Stiller and Garbo to MGM contracts the day after her return to Berlin. February 16-18 entries pertain to her sitting with the photographer Alexander Binder in Berlin and filming G. W. Pabst’s *The Joyless Street* over four grueling weeks in February and March. On March 31 she signs her name, “Greta Garbo,” and this is the only entry until June 23. On June 25 she leaves Göteborg with Stiller aboard the Drottingholm bound for New York, “Teil Göteborg, Drottingholm tier Amerika.” They arrive on July 6 and stayed in New York through July and August. As Stiller continued to renegotiate his contract with MGM, the entry for August 26 states, “Kontaktet med Metro-Goldwyn Mayer,” and on August 30 they left via train for California. This section of the book contains the most numerous daily entries as she passes through Chicago, Minnesota, Banff and Lake Louise, Vancouver (where Stiller’s brothers lived), through San Francisco and finally her arrival in Los Angeles on September 10, and documents her historic first appointment at MGM studios on September 11, “Hollywood, Kontaktet, Culver City – Metro. 500 dolars” Sporadic entries occur through the rest of the year with her signature again above the October 4 date. Pabst’s name appears in the addresses at rear with Sofar-Film production company. An incredible artifact documenting the birth of Garbo’s storied career. 587. **Vintage oversize portrait of Bela Lugosi in his Hollywood study, ca. 1930.** Silver-bromide 11”x 14” double-weight custom matte print, being a contemplative portrait of Bela Lugosi contemporaneous with his role in *Dracula*, in the study of his Hollywood home, replete with the infamous nude painting of Clara Bow which Lugosi kept close at hand until his dying day. This photograph is from Lugosi’s estate, and passed down to his heir. Excellent condition with virtually no trace of handling or age. **$1,000 – $1,500**

588. **Vintage profile portrait of Bela Lugosi, ca. 1930.** Silver-bromide 8”x 10” double-weight custom matte print, being a stern profile portrait of Bela Lugosi ca. 1930. Print is of an exceptional photographic quality for its lighting and sharpness of grain. Excellent original condition; from Lugosi’s estate, and passed down to his heir. **$600 – $800**
589. **Bela Lugosi signature “Count Dracula” screen-worn cape from *Dracula*.** (Universal, 1931) This signature cape embodies the preeminent horror figure on film—Dracula. No other character has further perpetuated the legend of the vampire. Indeed, Dracula is the major character in more films than almost any other. When one hears the name “Dracula,” it is difficult to imagine anyone but Bela Lugosi wearing his signature mode of dress—white tie with tails and a cape—which he wore in the 1931 Universal Pictures classic *Dracula*. Lugosi rose to instant fame with his portrayal of Dracula, a part he had been playing on stage since 1927. His interpretation of the suave and sophisticated nobleman, with hypnotic stare and cultured Hungarian accent, made the character appealing to the ladies while terrifying to the audience when the monster beneath is revealed. The cape being offered was consigned to Profiles in History by none other than Bela Lugosi, Jr. The provenance of the cape as the screen-worn cape from *Dracula* (Universal, 1931) is based on the following history provided by Bela Jr. and on inspection of the cape. Prior to his death in 1956, Bela Lugosi gave the cape to his wife of 20 years, Lillian Lugosi, and the mother of Bela Jr., telling her that it was the cape from the 1931 film version of *Dracula*. He instructed Lillian to keep the cape for Bela Jr. Upon Lugosi’s death in 1956, the family decided that he should be buried in his Dracula costume. Given Bela Lugosi’s wish that his son should have the cape used in the 1931 film, the family dressed the body in a lighter weight version of the cape he used when making personal appearances. Lillian retained the original 1931 cape and left it, along with her other possessions, to Bela Jr. upon her death in 1981. It has remained in his possession continuously since. The black, full-length heavy wool cape features a high collar with interior metal band (to retain its shape) with gray silk lining. It exhibits an interior “United Costumers, Inc., Manufacturers” label with faint “Bela Lugosi” handwritten in ink. Designed to give Bela the freedom to open the cape like the wings of a bat and envelope his prey, the cape is impressively large, measuring a full 9 1/2 feet in diameter when laid flat, occupying approximately 320 degrees of a complete circle, and weighs a full 6 pounds, 4 oz. Condition of the black outer wool is excellent (Bela kept it stored in a cedar closet); fabric behind collar is in need of minor repair (metal support band is partially exposed) and the fragile silk within the interior of the cape exhibits moderate tearing in areas. Without question, this is the greatest single horror garment in cinema history. **$1,200,000 – $2,000,000**
590. **Dracula** near-mint unrestored original Jumbo lobby-card from Bela Lugosi’s own collection. (Universal, 1931) 14” x 17” original release Jumbo lobby-card depicting Bela Lugosi as Count Dracula, surrounding Helen Chandler with his signature cape, about to anoint her with his very special “kiss”. This is not only one of the most vital and essential images to perfectly distill the true nature of the film, in virtually mint, totally unrestored condition, it was also for decades, possibly even from the beginning, the property of Bela Lugosi and passed down to his heir where it has resided to this day. Remnant trace of scrapbook adhesive on verso margins, and very faint and insignificant handling lines and background crease are the only signs this extraordinary artifact was ever touched. Colors are rich and totally unfaded (the jumbo set was printed with softer colors intentionally than the 11 x 14 set). We are not aware of another example of this remarkable scene coming to auction previously, let alone an original poster item of this caliber from Lugosi’s own collection. Authenticity is beyond question on this exceptional piece. Very Fine to Near Mint. **$20,000 – $30,000**
591. **Vintage oversize portrait of Bela Lugosi full figure in white linen suit, ca. 1930.** Silver-bromide 11”x 14” double-weight custom matte print, being a standing portrait of Bela Lugosi in white linen suit with hat and cigar, and a mischievous “Mona Lisa” smile. From Lugosi’s estate, and passed down to his heir. Excellent condition with virtually no trace of handling or age. $1,000 – $1,500

592. **Bela Lugosi personal wingtip shoes.** Bela Lugosi was known for his fine sense of style and impeccable dress. These black and white wingtip shoes bear “Alan McAfee Ltd., London” maker’s stamp in gilt. The soles exhibit wear from regular use and the uppers remain in excellent condition. These specific shoes are seen being worn by Bela in a number of personal Lugosi family photographs taken in the 1930s. Included is a copy of a photograph taken at the Hollywood Athletic Club showing Bela wearing these shoes. $1,000 – $1,500

593. **Collection of (16) Bela Lugosi portrait stills from his estate and family’s collection.** Mix of original and reprint portrait stills, primarily head-shots in 8”x 10” size, all from either the estate or family of Bela Lugosi. In 1933 Bela married 22-year-old Lillian Arch, the daughter of Hungarian immigrants. They had a son, Bela G. Lugosi, in 1938. From Lillian’s estate, and passed down to Bela Jr. Very Fine condition. **$2,000 – $3,000**

**FROM THE ESTATE OF WILLIS O’BRIEN**

The following 13 lots are from the estate of legendary visual effects genius Willis O’Brien (1886-1962). It was O’Brien who pioneered the technique of stop motion animation, making a physically manipulated object appear to move on its own. A former newspaper cartoonist and sculptor, O’Brien began making short films in 1914. O’Brien’s first Hollywood feature was *The Lost World* (1925). Although his 1931 film *Creation* was never completed, it led to his most famous work, animating the dinosaurs and the famous giant ape in *King Kong* (1933), and its sequel *Son of Kong* (1933). He was chief technician for the epic *The Last Days of Pompeii* (1935) and on the film *Mighty Joe Young* (1949) O’Brien won an Academy Award for Best Visual Effects in 1950. Other notable O’Brien films are *The Animal World* (1956), *The Black Scorpion* (1957) and *The Giant Behemoth* (1959).

602. **King Kong original production photo of Kong with effects art by Willis O’Brien.** (RKO, 1933) Vintage silver-bromide print, 5” x 7” of Kong entering native village, which Willis O’Brien has art-enhanced to illustrate natives running in fear. This type of continuity print was referred to by the special effects artists as a “throwaway” due to its ephemeral nature in the creative process, and is consequently a genuine rarity, especially considering not only the artistic addition in the hand of effects master O’Brien, but the fact that this is from his personal archive as well. Center crease and age-toning to emulsion leave this Good to Very Good overall. **$2,000 – $3,000**

603. **Mighty Joe Young miniature bottles and glasses (12) from the nightclub effects scenes.** (RKO, 1949) Retained by Willis O’Brien and treasured by him for decades following the production of his second-most famous film, Mighty Joe Young, are these (12) miniature clear glass and plastic whiskey and wine bottles (some with labels), and drinking glasses of various shapes. Seen in the film during the effects shots of Mighty Joe’s rampage through the nightclub. Height ranges from ½” to 1 ½” and condition is generally excellent. **$3,000 – $5,000**
605. **Original final approval maquette of Kong's head from *King Kong***. (RKO, 1933) From the personal archive of Willis O'Brien, revered among special-effects artists and directors of effects films as arguably the most influential creator of techniques which ruled the world of film effects for decades, until digital design displaced them. This hand-sculpted and intricate detail-painted plaster maquette head is truly the genesis of "Kong," and was the first model of what Obie wanted Kong to look like. All other models and maquettes of Kong were based off this one. Measures 1 ¾" x 2", with aggressive expression for animator's reference during production. Almost certainly sculpted by Marcel Delgado, who was responsible for most of the hands-on physical construction of the original Kong figures. Surprisingly well-preserved, having been lovingly cared for by Willis O'Brien throughout his life after *King Kong*. **$8,000 – $12,000**
606. *Mighty Joe Young* original early concept art by *Willis O'Brien*. (Unproduced, ca. 1950) Pencil, pen & ink, and gouache on 15” x 20” illustration board (mounted to 20” x 24” board for preservation) image size 11” x 18”, executed by Willis O’Brien ca. 1950, and from his personal archive. From a story in “Arizona Highways” magazine which O’Brien’s wife Darlyne took notice of, concerning an Indian legend of a giant prehistoric bear which comes out of hibernation every hundred years or so. O’Brien prepared a number of concept designs to promote financing of the film, but was unsuccessful in achieving production. Illustrated in Steve Archer’s biography “Willis O’Brien/ Special Effects Genius”. Traces of handling, else Very Fine. *$6,000 – $8,000*

(Unproduced, 1960-62) During extended periods of unemployment, Willis O’Brien continuously created and developed various ideas for fantastic film subjects, hoping to sell them to studios. To be titled *King Kong vs. Frankenstein*, this was one which he put quite a lot of work into, only to see his concepts stolen by Toho for their *King Kong vs. Godzilla*. Pencil, pen & ink, and gouache on 15” x 20” illustration board (mounted to 20” x 24” board for preservation) image size 9 ½” x 15”, executed by Willis O’Brien ca. 1960, and from his personal archive. 616. No Lot
The following three lots are from the collection of Kenneth Strickfaden (1896-1984), innovative genius of illusionary special effects who created some of the most unforgettable images in the fantasy genre of motion pictures. It was Strickfaden who created Dr. Frankenstein’s laboratory with his flaming Tesla coils, reflectors, spinning rotary discs and wooden insulators, setting the standard for all mad-scientist labs to come. Following Strickfaden’s great success in *Frankenstein* (1931), he created the science fiction apparatus in more than 100 motion picture films and television programs, including *The Mask of Fu Manchu*, *The Bride of Frankenstein*, *The Phantom Empire*, *Flash Gordon*, *Son of Frankenstein*, *The Wizard of Oz*, and television’s *The Munsters*. The skilled technician, known around Hollywood’s back lots as “Mr. Electric,” once doubled for Boris Karloff in a dangerous scene and was nearly electrocuted. A science teacher at heart, Strickfaden started making personal appearances in the 1930s featuring his beloved creations. “Kenstrick’s Space Age Science Show” was both informative and entertaining and proved a tremendous hit with audiences. Despite his age and failing health, Strickfaden enthusiastically continued his one-man shows until his death at the age of 87.

617. **KENNETH STRICKFADEN “NEBULARIUM” LAB DEVICE FROM FRANKENSTEIN, THE BRIDE OF FRANKENSTEIN AND OTHER FILMS.** (Universal, 1931; 1935) Named the “Nebularium” by Kenneth Strickfaden, this is a primary piece of laboratory equipment from *Frankenstein*. This device is a parabolic mirror (an actual piece of scientific equipment made by Bausch & Lomb) measuring 25 ½ in. diameter with a custom steel bracket frame and rounded steel housing in rear. Not only an impressive visual piece, the Nebularium was also used to create dramatic shadow effects when light was bounced off its concave mirror, essentially magnifying the shadow of anything it strikes. The shadow images of Frankenstein’s Monster in the Universal series were virtually always created with the use of the Nebularium. In *Frankenstein*, this key piece is situated very near the head of the lifeless corpse that Dr. Frankenstein revives. The parabolic mirror exhibits de-silvering in spots, but is in good overall condition. The first major prop offered from the *Frankenstein* lab, the Nebularium is a fantastic, prominent lab prop and visual effect device from the classic *Frankenstein*--the film that set the standard for all mad-scientist laboratories to come. Accompanying the Nebularium are a set of wooden insulators from Strickfaden’s collection used and re-purposed for film, television and live appearance productions throughout his storied career. $40,000 – $60,000
618. KENNETH STRICKFADEN special electronic effects main switchboard used in FRANKENSTEIN, THE BRIDE OF FRANKENSTEIN and many other films. (Universal, 1931) This is special electrical effects wizard Kenneth Strickfaden’s masterboard used to control various pieces of electrical equipment from 1930 to his retirement. The board is covered with knife switches, two variac rheostat potentiometers and two lightning screen controls. Measuring 59 in. x 26 in. x 24 in., the board is mounted on a steel frame and was built in 1929 and used on virtually all of the films in which Strickfaden contributed special effects, including Just Imagine (1930), Frankenstein (1931), The Mask of Fu Manchu (1932), The Bride of Frankenstein (1934), Flash Gordon (1936), Son of Frankenstein (1939), and many others. This switchboard made a screen appearance in the TV show The Munsters in the season two episode, “Just Another Pretty Face” (1965). A fantastic hands-on piece of equipment used in every Strickfaden project throughout his storied career. $8,000 – $12,000

619. KENNETH STRICKFADEN “DIGITAL DISPUTOR” laboratory device from YOUNG FRANKENSTEIN. (TCF, 1974) Kenneth Strickfaden humorously named this device the “Digital Disputor” which was a prominent piece of equipment used in the Frankenstein laboratory Gene Wilder’s character inherited from his famous grandfather. It is a wooden and steel drum with firing electrodes on the face. The back of the drum contains the controls: a motor On/Off switch, motor speed rheostat, On/Off arc switches and a bank of fuses. Mounted on a turned glass insulator base, the piece stands 35 in. tall with the drum being 21 ½ in. diameter. In addition to Young Frankenstein, the Digital Disputor can also be seen in Dracula vs. Frankenstein (1971) and was a key piece in Strickfaden’s traveling science shows. Untested. $8,000 – $12,000
620. **Chico Marx “Baravelli” charcoal-grey tail-coat from Horse Feathers.** (Paramount, 1932) Chico was the dead-pan, hard-gambling, piano-playing member of the classic comedy team “The Marx Brothers”, which in their early films with Paramount included four (of the actual five) brothers. Worn by him as “Baravelli” in Horse Feathers (a wild romp through a college campus), for a chaotic wedding scene. Also, according to Western Costume label inside, this same tail-coat may have been used later by Charlie (Chuck) Chaplin. In a Fine state of preservation, virtually as screen-worn. **$4,000 – $6,000**

621. **Jean Parker “Beth” plaid period dress designed by Walter Plunkett from Little Women.** (RKO, 1933) Conservative, Civil-War period-styled wool plaid long dress with black embroidered trim and self belt, designed by Walter Plunkett for Jean Parker as “Beth” in George Cukor’s 1933 version of Little Women. 622. **Shield from the 1934 Cleopatra.** (Paramount, 1934, 1935) Heavy hammered-metal oval shield with leather grip-strap, and raised pattern decorations and Ottoman moons, with a matte black baked enamel coating (very chipped and abraded from many swords in many epic films). Used in Cecil B. DeMille’s 1934 Cleopatra, and numerous other Roman and Biblical films through the 1950’s. Surface rust, chipping, and dents from screen-use. **$600 – $800**

Boris Karloff is put to good use here as Gravelle, an amnesiac Opera star recently escaped from an asylum. The screen-worn cape offered here, professionally mounted on a realistic life-size figure of Karloff's character with replica ancillary costume elements, comes into play when he impersonates another character in the Opera in order to exact his revenge. Fine condition virtually as screen-worn, with internal United Costumers label marked “Boris Karloff”. **$20,000 – $25,000**

Designed by Royer for Alice Faye as “Belle Fawcett” from In Old Chicago, and worn to great effect in her boudoir preparing for bed, only to be accosted by Tyrone Power, long frustrated by her rejections, who forces her to the floor for their first kiss. Peignor is also humorously worn first by Faye’s highly stereotyped African-American maid (Madame Sul-Te-Wan), playing “mistress of the household” in secret. Condition is quite exceptional considering the fragile nature of its construction and its 74-year age. $2,500 – $3,500

632. Gary Cooper “Marco Polo” tunic from The Adventures of Marco Polo. (MGM, 1938) Period-styled suede-leather tunic with raised decoration and large brass buttons (two of which are replaced with similar type) designed by Omar Kiam for Gary Cooper, playing the title role in The Adventures of Marco Polo. Leather is worn through along both shoulder top edges, though otherwise relatively intact and presentable. Internal United Costumers tag inscribed with unreadable name, which is likely a re-purposing, as this tunic is positively screen-matched to Cooper in this film. $1,000 – $1,500

633. Bette Davis “Julie” period jacket from Jezebel. (Warner Bros., 1938) Short period jacket of black nylon with lace collar, and five silk bows along the front over an inset of matching checkerboard silk. 634. Roy Rogers shirt from Billy the Kid Returns. (Republic, 1938) Medium grey wool felt Western-styled lace-up shirt, worn by Roy Rogers in one of his earliest roles, a double part playing bad-guy Billy the Kid (shot down by Pat Garrett early on while wearing this shirt) and a lookalike good-guy cowboy. Even while playing a limited bad-guy role, the Billy character is portrayed as a sort of “Robin Hood” to the homesteaders. Internal United Costumers tag inscribed “Roy Rogers”. Fine condition virtually as screen-worn, with just a few tiny moth holes. $300 – $500
635. **LONGBOW FROM *THE ADVENTURES OF ROBIN HOOD***. (Warner Bros., 1938) Curved walnut longbow with notched tips, decorated suede grip and knotted and looped string. Measures 78 in. long. *The Adventures of Robin Hood* was shot at Warner Bros. studio in Burbank as well as on location in the San Fernando Valley and Bidwell Park in Chico, California. The film’s attention to detail is evident in the craftsmanship of this bow that is identical in construction to the one held by Flynn in production stills from the film. The present owner inherited this bow, as well as the arrow Lot 636, from his father, who was one of the location scouts responsible for finding suitable Sherwood Forest-like terrain. This lot and the next were on loan to the Warner Bros. Museum in Burbank from 1995 to 1997 as well as the Academy of Motion Picture Arts and Sciences. Slight loss of veneer and wear to grip, the string is not original to the bow and the restoration was overseen by the Warner Bros. Museum. **$15,000 – $20,000**

636. **ARROW SIGNED BY THE CAST AND CREW OF *THE ADVENTURES OF ROBIN HOOD***. (Warner Bros., 1938) Wooden arrow with faux flint arrowhead and feathers at tail. Measures 34 ½ in. long. This item, a companion piece to the previous lot, was presented to the current owner’s father for his assistance in scouting locations for the Sherwood Forest scenes in the film. Signed by cast and crew members including Errol Flynn, Olivia de Havilland, William Keighley, Alan Hale, Una O’Connor, Doc McDermott, Don Turner, Al Gordon, Vic Johnson, Gil Perkins, Ned O. Nair, Roy Clark, Colin Campbell, Al Alleborn, Tony Gaudio, Frank Gaudio, Sailor Vincent, Larry Dolgent, Patric Knowles, Jimmie Stone and Harry Aubrandey. From 1995 to 1997 the arrow was on loan to the Warner Bros. Museum in Burbank. Slight fading to some signatures, loss of feathers; otherwise Fine. **$10,000 – $15,000**
637. **Judy Garland “Dorothy Gale” solid blue cotton test dress with blue and white gingham apron by Adrian from The Wizard of Oz.** (M-G-M, 1939) This costume was worn by Judy Garland as Dorothy Gale and was tested during the October 31, 1938 wardrobe tests after George Cukor had replaced Richard Thorpe as director for the film. Producer Mervyn LeRoy fired Thorpe after viewing the “rushes” of the first two weeks of filming, being completely dissatisfied with the direction the film was taking. Cukor started by making the much needed changes to Judy Garland’s hair, makeup and Dorothy costume. He wanted to “simplify” Judy’s appearance to better represent a Kansas farm girl. Costume designer Gilbert Adrian created an entirely new costume which was based on the original drawings of Dorothy as found in the original book, *The Wonderful Wizard of Oz*, by L. Frank Baum. It was during this period that Cukor instructed Judy Garland to remember that she was portraying a Kansas farm girl and that she would only need to be herself to be convincing and believable. Under Thorpe’s direction her performance was, at best, “over the top” and “too fanciful.” The outfit consists of a solid blue cotton fabric (the exact same fabric used in the original Richard Thorpe test costume). Sewn directly to the dress is an off-white, light cotton blouse with blue rick-rack trim (the exact blouse design that would later appear on the final screen-used Dorothy costume). The dress closes in the back with several small snaps and a hook and eye closure at the waist. Interior handwritten label reads, “Judy Garland 4208.” Also attached is an M-G-M cleaning tag. Worn over the dress is the original blue and white cotton gingham apron with blue rick-rack trim detailing. The apron has two front pockets and closes in the back with three large original buttons. The apron has an interior handwritten label reading, “Judy Garland 4461,” and it also features an M-G-M cleaning tag. After making adjustments and revisions to Garland’s Ruby Slippers, hair, makeup, costume and performance, Cukor decided to depart from the film and was replaced by Victor Fleming. Originally acquired from 1970 MGM Auction and After Auction Sale. A key piece in the development of Dorothy Gale in *The Wizard of Oz*. Included are two 8 in. x 10 in. photographs of Judy Garland wearing this costume. **$60,000 – $80,000**
638. **Judy Garland screen-used “Dorothy Gale” blue and white gingham pinafore dress from The Wizard of Oz.** (MGM, 1939) Designed by Adrian, this is the signature blue and white gingham pinafore dress worn by Judy Garland as “Dorothy” in *The Wizard of Oz*. The dress features hook and eye bodice closure with snap closure on the skirt. Interior bias label handwritten, “Judy Garland 4228”. Includes a hidden pocket on the right seam of the skirt. The bottom 6 1/8 in. of material was trimmed from the bottom of the dress for repurposing in another production. The dress has been expertly returned to screen appearance with hand-dyed fabric to match the original. One of the most instantly recognizable costumes in the history of cinema and a cornerstone of any *Wizard of Oz* collection.

$200,000 – $300,000
1. The pair purchased for $15,000 on Sunday, May 17, 1970 at the MGM Auction by an anonymous buyer and later donated to The Smithsonian in 1979. The condition of these slippers is poor, relative to the other known pairs. The leather soles are painted red, with orange felt adhered to the front foundation, suggesting they were worn in the dancing sequences and while skipping down the yellow brick road. Being on perpetual display and part of the United States archives, this pair will never reach the market.

2. The pair belonging to collector Michael Shaw, who obtained them from Kent Warner in 1970. These slippers are in very good condition and exhibit leather soles covered in orange felt. These slippers were stolen in 2005 from the Judy Garland Museum in Grand Rapids, Minnesota. whereabouts unknown; recovery unlikely.

3. The pair of Ruby Slippers won as a prize by Roberta Bauman in 1940 for a national “Name the Ten Best Movies of 1939” contest. These slippers feature red painted leather soles with orange felt glued to the front foundation. Their condition is worn with sequins missing. In black ink, the word “Double” is handwritten on the white kid lining of each shoe; meaning these slippers were the second or third pair made for use in the production, in case the first pair became damaged. “Double” does not represent “stand-in” according to several M-G-M costumers familiar with the studio’s practice of labeling wardrobe. Certainly, stand-ins were present and wore Ruby Slippers for lighting and blocking purposes; however, there is no evidence, whatsoever, to support that any pair of Ruby Slippers was worn exclusively by any stand-in. Further, there is substantial evidence that Judy Garland wore several different pairs of Ruby Slippers during the six months of filming at M-G-M. These slippers were sold at public auction through Christie’s East on June 21, 1988 for $165,000, and were later resold by Christie’s East on May 24, 2000 for $666,000.

4. The present pair, to be auctioned by Profiles in History on December 16, 2011, are Kent Warner’s prized size 5B slippers. They are marked on the inside lining, “#7 Judy Garland” and the leather soles are painted red on the bottom. The lack of felt, in addition to light, circular scuffs evident on the soles indicate their use in the extra-close-up or “insert” shots when Judy Garland taps her heels together at the film’s climax. The condition of these Ruby Slippers is excellent, further supporting the notion that these were used for the close-up “insert” shots and then boxed to maintain their condition. These Ruby Slippers were sold by Christie’s East on October 1, 1981 for $12,000 and were later sold privately by Christie’s East in 1988 for $165,000. The current owner has placed these slippers twice on loan to the Smithsonian while their pair was traveling abroad. In addition, these Ruby Slippers were the cornerstone of a Library of Congress exhibition in 2000 entitled, “The Wizard of Oz: an American Fairy Tale,” celebrating the centennial of the publication of America’s most beloved home-grown fairy tale. They were also on exhibit at the National Portrait Gallery from August 1996 through July 1997.

Note: A pair of test slippers with curled toes, referred to as the Arabian slippers, do not appear in the film yet are seen in test shots with Judy Garland taken in October, 1938. This pair belonged to actress Debbie Reynolds and were recently sold for $612,000 in the Debbie Reynolds Auction held by Profiles in History on June 18, 2011.
The Ruby Slippers
641. Original Munchkin Soldier Jacket from The Wizard of Oz. (MGM, 1939) Adrian-designed Munchkin Soldier jacket with lengthy coattails, fashioned of bright yellow and green wool felt and ornamented with gold bullion on the chest, shoulders, sleeves and on the rear of the collar. Interior “Metro-Goldwyn-Mayer” label with handwritten “38.” The costume personifies the painstaking attention to detail employed during the production of The Wizard of Oz. In Very fine condition. $15,000 – $20,000
642. **Original Winkie Guard spear including metal spearhead and original wooden staff.** (MGM, 1939) Cast metal spearhead which was wielded by the Winkies, the Wicked Witch’s ominous guards. Reminiscent of Adrian’s costume designs for the production, it is quite likely that the prop department created the spearhead based on Adrian’s design. Spearhead measures 30 in. long and includes the original wooden staff measuring 97 ½ in. long. Staff exhibits scuffs, otherwise, very good condition overall. An incredible artifact and instantly recognizable prop from the film. **$30,000 – $50,000**

643. **Judy Garland/ Frances Gumm double-signed “Over the Rainbow” sheet music.** In 1967, a very young Kevin Bradigan went to work for his favorite personality in the entire world, Judy Garland. He made a special effort to find an example of the sheet music for “Over the Rainbow” which lacked graphics, so it could more visibly be autographed by her to him. When she performed the requested signing for her new assistant, she accidently spilled a little coffee on the aforementioned, not easily replaced sheet music, and to make amends for her error, signed her birth name, Frances Gumm as well, which is an extremely scarce autograph in its own right. Kevin Bradigan went on to acting off-off-Broadway with members of Andy Warhol’s Factory such as Mary Woronov and Taylor Mead. Accompanied by facsimile photos of Bradigan with Garland, and of other signed items for comparison. Sheet music is complete with minor edge chipping and slight darkening of front cover. **$3,000 – $5,000**
The Cowardly Lion
644. **Bert Lahr** screen-worn "Cowardly Lion" costume from *The Wizard of Oz*. (MGM, 1939) Designed by the legendary Gilbert Adrian, this costume (67 in. tall on base) is constructed out of an African lion skin with unique markings and hair patterns that are as individual as a fingerprint. While it is one of two Lion costumes known to have been made for and used in the production, it is specifically attributed to having been worn by actor Bert Lahr in some of the most memorable scenes of *The Wizard of Oz*, including when the Cowardly Lion first meets Dorothy on the Yellow Brick Road and sings "If I Only Had the Nerve" as well as when he later sings his trademark, "If I Were King of the Forest" in the Emerald City. James Comisar, a noted specialist in preserving top-tier cultural materials, supervised the preservation effort: “We knew only the best would be appropriate when caring for an icon as indelible as the Cowardly Lion, so we assembled a team of experts who conserved the costume at the Los Angeles County Museum of Art. Herbert Lahr, the son of actor Bert Lahr, had a strong resemblance to his dad and allowed us to mold his face because the Cowardly Lion’s original foam rubber make-up appliances did not survive.” Optical-quality glass eyes that capture a faint sparkle of the Yellow Brick Road were also created and metal whiskers and acrylic teeth add further realism to a newly sculpted head; a wig and flowing mane were created using Italian human hair, and thousands of hair strands were painstakingly hand-tied into a Max Factor foundation in the same manner used by MGM Studios in the 1930s; and a contemporary pair of the Cowardly Lion’s footwear was meticulously rendered out of lion hide and toned by art conservators to match the screen-used pair. William Stillman, a well-respected Oz historian who has co-authored numerous books on the film, states in a letter that this costume is authentic wardrobe worn by Lahr in *The Wizard of Oz*, and a full-page photograph of this conserved costume appears in his book, *The Wizardry of Oz – The Artistry and Magic of the 1939 MGM Classic*. This costume has also been the focus of documentaries produced by The Learning Channel, The History Channel, and has appeared on *The Oprah Winfrey Show*; and in recent years it has been in the possession of a renowned cultural archive that has maintained it to the highest standards. The Cowardly Lion costume is now presented in front of a painted canvas backdrop of the rolling hillsides that lead up to the Emerald City that was created by Disney artists as a freestanding installation, and the mounted costume and environmental elements are housed in museum-quality shipping crates. According to the American Film Institute, *The Wizard of Oz* is the #1 fantasy genre motion picture of all time, and the Cowardly Lion certainly stands as Hollywood’s most regal and enduring icon of courage. **$2,000,000 – $3,000,000**
645. **The Wizard of Oz** vintage clothbound book signed to Jack Haley’s son by virtually entire cast and crew including Judy Garland and Toto. (MGM, 1939) A well read and much loved copy of the 5th edition, 2nd state early 1930’s clothbound printing of The Wizard of Oz, ex-libris Jack Haley Jr., with his bookplate inside front cover. His father Jack Haley, who so memorably portrayed the Tin Man in the film, brought this copy to the set and had the following sign it for his son, who was 5 years old at the time: cast members Judy Garland, Frank Morgan, Jack Haley, Ray Bolger, Bert Lahr, Margaret Hamilton, Billie Burke, Toto (footprint, with trainer Jack Weatherwax signature); stand-ins Bobbie Koshay, Harry Masters, Frank Remsden, and Francine (?) O’Hanlon; and crew members producer Mervyn LeRoy, director Victor Fleming, Al Shenberg, Keith Weeks, Harold Rossen, Harry Edwards, Gavin Burns, Ray Ramsey, Allen Davey, A. W. Brown, Wm. Cannon, Jack Leonard, Pop Arnold, and 15 others. Front endpaper, which contains the primary signatures, also has detailed pencil drawings of the principal characters linking them to their signatures. All in all, a highly personal, remarkable, and most certainly unique artifact from what many film lovers consider to be the greatest film of all time. Front cover and several of the 8 color plates are wavy and lightly dampstained, and signed pages exhibit scattered foxing; all corners are bumped and abraded, a well-used copy, still Good to Very Good. Together with Jack Haley Jr’s personal copy of “The Land of Oz”, being a 1930’s popular edition of the sequel to the above mentioned book. From the estate of Jack Haley, Jr. **$40,000 – $60,000**
ITEMS FROM THE JUDY GARLAND MUSEUM

The Judy Garland Museum is selling nine lots (Lots 646-654) to help fund the Children’s Discovery Museum in Grand Rapids, Minnesota. Proceeds will benefit low income children in all of rural northern Minnesota who generally do not have access to out-of-the-classroom learning enrichment programs found in metro areas.

646. JUDY GARLAND’S PERSONAL MUSIC ARRANGEMENT MANUSCRIPT ARCHIVE, INCLUDING “OVER THE RAINBOW”. Three sets of full orchestral autograph manuscript musical arrangements created for Judy Garland, and from her personal property. All are primarily calligraphic-pen longhand originals, with some mimeo pages (yet even these have pencil-corrections in arranger’s hand). Titles include her legendary signature tune “Over the Rainbow”, plus “Almost Like Being in Love”, and “Garden Medley”. Accordion-folded in varying lengths (“Garden Medley” is over 1 ½” thick) and representing a wide variety of instruments for each song. An exceptional archive of very personal artifacts from Judy Garland’s professional career. From the collection of The Judy Garland Museum, Grand Rapids, Minnesota.

$15,000 – $20,000

647. JUDY GARLAND’S ORIGINAL 1933 VAUDEVILLE WORK PERMIT. Judy Garland’s original Division of Labor Statistics and Law Enforcement Theatrical Permit #238 (under her original name “Frances Gumm”) to perform her vaudeville act in San Francisco from 8/2/1933 to 8/8/1933, and for which she had to lie about her age, declaring herself to be 11 instead of her actual age of 10. Her Los Angeles area address is listed as “1207 Cedar St., Lancaster”. Measures approx. 8 ½” x 11”. From the collection of The Judy Garland Museum, Grand Rapids, Minnesota.

$2,000 – $3,000

648. JUDY GARLAND’S PERSONAL COPY OF AN ORIGINAL THE WIZARD OF OZ DECCA RECORD ALBUM SET. (MGM, 1939) The first issue of a cast-recording soundtrack album for this great film is in the form of a 78 RPM 4-disc set in illustrated opening covers. This example was Judy Garland’s personal copy and is attributed as having been in her possession since approx. the time of the film’s release. One disc is missing (as is almost always the case with these lacquered-acetate, highly breakable early recordings) though thankfully the missing disc is the least important of the 4, being “Munchkinland Part I & II”. This is the only release we are aware of which contains the deleted musical number “The Jitterbug” as the album was prepared and distributed while filming was still wrapping up. Discs are in relatively nice condition for their media, with some original shine remaining, and only normal wear and handling, and appear to remain playable. Spine is nearly completely separated though still entirely present, and illustrated covers are worn at edges though quite presentable overall. A charming and perfectly appropriate artifact from the collection of this unique artist’s personal and professional life. From the collection of The Judy Garland Museum, Grand Rapids, Minnesota.

$800 – $1,200
649. The Wizard of Oz Munchkinland resident top-coat designed by Adrian. (MGM, 1939) Worn by a resident of Munchkinland (one of the tallest judging from the size, though styled to hang to the floor), this heavy green wool-felt coat is trimmed in orange and yellow felt and studded with large circular silver buttons, and the inside of the coat is fully lined with pale green linen. Studio tag inside collar reads “Metro-Goldwyn-Mayer/ Robinson/ 1060-40-46½”. (There is a Munchkin actress with last name “Robinson” so this could conceivably be for her). According to Jay Scarfone and William Stillman in their Wizardry of Oz, “Adrian determined to maximize the slight stature of Oz’s smallest actors by elaborating their proportions with voluminous sleeves, huge vests, and oversized jackets”. Scattered minor moth holes, and top edges of both shoulders and outside length of left sleeve are somewhat sun-faded, though can be re-dyed if desired. From the collection of The Judy Garland Museum, Grand Rapids, Minnesota. $20,000 – $30,000

650. The Wizard of Oz Emerald City resident vest designed by Adrian. (MGM, 1939) Worn by a resident of the Emerald City, especially visible as Dorothy and friends enter through the gates the first time. This green and ivory wool felt, linen-lined vest bears internal studio tag “Metro-Goldwyn-Mayer/ Shopkeeper/ 1060-4078-42”. Very light sun-fading to top edges of shoulders, else Fine as screen-worn. From the collection of The Judy Garland Museum, Grand Rapids, Minnesota. $10,000 – $15,000
652. Judy Garland’s Tony Award for Unique Contribution to Theatre 1951-1952. Judy Garland’s original “Antoinette Perry” (Tony) Award which she was presented by the American Theatre Wing for her “Unique Contribution to Theatre 1951-52” at a special ceremony at the Waldorf Astoria Hotel in New York, in commemoration of her smash 19-week run at the Palace Theatre. For some personal reason known only to herself, she had the Beverly Hills jeweler “Trabert & Hoeffer” mount the heavy, silver-plate 3" diameter coin-shaped award as the hinged lid of a .545 sterling silver reproduction of a ca. 1700 John Dixwell original drinking cup. She reportedly kept the award on prominent display in her library throughout the remainder of her life, and it was acquired by the museum directly from her third husband, Sid Luft. Sterling slightly tarnished, else Fine. Apart from two Golden Globes and her juvenile Oscar, this is arguably the most appropriate and well-deserved award of her fascinating career. From the collection of The Judy Garland Museum, Grand Rapids, Minnesota. $30,000 – $50,000
653. **Judy Garland**’s personal scrapbook chronicling 1958-59 in photographs and newspaper clippings. De-accessioned from the Judy Garland Museum, Judy’s own personal full-folio scrapbook, containing original playbills for live performances, press reviews and notices, illustrated sheet music, numerous news clippings, plus several items dating all the way back to early 1940’s like her wedding announcement in the press of marriage to Vincent Minnelli, which Judy likely tossed in herself for lack of a more appropriate “home” for them. Of special interest is Miss Garland’s personal printed “Ex Libris” bookplate inside front cover. Spine is separating though still intact, and many of the paste-downs show adhesive staining, though all remain legible and highly presentable. An exceptionally personal glimpse into this legendary performer’s life and career. From the collection of The Judy Garland Museum, Grand Rapids, Minnesota. **$2,000 – $3,000**

654. **White Fox coat and matching eggshell skirt worn by Judy Garland** from the collection of designer Howard Shoup. Howard Shoup, whose costume design for film and television spanned over three decades, was a favorite of Judy Garland and she chose him to create the gowns for her eponymous television variety show in the 1960’s; this ecru stretch-satin long-sleeve “flapper-style” sheath dress with matching H. Jablon Furriers off-white fox jacket is a classic example of his work. Acquired indirectly from his collection by the Judy Garland Museum, and was created specifically for Miss Garland, likely for use on the television show. Excellent original condition with only a few tiny stain spots in lower skirt hem. From the collection of The Judy Garland Museum, Grand Rapids, Minnesota. **$4,000 – $6,000**

655. **Al Jolson “Edwin P. Christy” vest, pants and jacket designed by Royer from *Swanee River***. (TCF 1939) For one of Al Jolson’s best late-career performances, he portrays minstrel-show originator Edwin P. Christie in the biopic of songwriter Stephen Foster’s life. Designed by Royer, this rather flamboyant three-piece evening-symphony blue and grey houndstooth-checked suit is the perfect look for the character. Worn by Jolson in the bar scene when Don Ameche as Foster punches him for “stealing” his song “Oh! Susanna”. United Costumers labels inscribed “Al Jolson”; slight wear on right shoulder, else Fine as screen-worn. **$3,000 – $5,000**

656. **James Stewart “Tom Destry, Jr.” jacket from *Destry Rides Again***. (Universal, 1939) Single-breasted salt & pepper wool twill jacket worn by James Stewart as “Tom Destry, Jr.” in the film responsible for resurrecting Marlene Dietrich’s box-office poison career, *Destry Rides Again*. This jacket is the principal element of Stewart’s wardrobe for the first 40 minutes of the film, from his arrival on the stagecoach, through breaking up the legendary “cat-fight” between Dietrich and Una Merkel. Bears internal United Costumers label typed “Jimmy Stewart 126 A”, and in Excellent condition, as screen-worn. **$1,500 – $2,500**
658. Columbia Pictures metal post road sign. Circa 1940s metal post road sign featuring the Columbia Pictures Corporation logo, Columbia, the feminine personification of America holding a torch aloft and wrapped in the American flag. Painted in gold, black and white and measuring 19 in. square. It exhibits a patina indicative of its age and years spent outside showing some oxidation, scuffing and abrasion, slight bend at the left edge; otherwise, condition remains Very good. Four mounting holes for attachment to post. A wonderful studio relic and an impressive display piece. $400 – $600

657. Claude Rains “Don José Alvarez de Cordoba” cape and balloon pants from The Sea Hawk. (Warner Bros., 1940) Designed by Orry-Kelly for Claude Rains, who portrays the vicious Spanish Ambassador in Michael Curtiz’ swashbuckling tale of pirates and the high seas, The Sea Hawk. Rains in fact nearly steals the show from action star Errol Flynn. Worn separately by Rains both early and late in the film (he wears more elaborate royal-court versions through middle of the film). Cape bears Warner Bros. label, and pants Western Costume Co., both marked “Claude Rains”. Satin inserts in pants are separating and waistband is somewhat dingy, and cape exhibits scattered minor stains. $2,000 – $3,000

659. James Stewart “Martin Breitner” jacket from The Mortal Storm. (MGM, 1940) Heavy black-wool military-styled jacket with red piping, worn by James Stewart as a Nazi-resistor in The Mortal Storm, most notably as he volunteers to brave the elements and dark to lead a persecuted professor to safety across the Austrian border. 660. Laurence Olivier “Lord Horatio Nelson” 3-piece Royal Naval costume from That Hamilton Woman. (UA, 1941) 3-piece costume ensemble with long Navy jacket, cream vest, and one-armed shirt, designed by René Hubert, for Laurence Olivier in That Hamilton Woman. Royal Navy military jacket has different sleeve-lengths as well, for Olivier’s character later in the film after losing an arm in a sea battle (lengthened sleeve bears a red bow to signify the loss). Accompanied by three Warner Bros. COAs (shirt, vest and jacket) stating this costume was part of the United Costume inventory purchased ca. 1950 by Warner Bros. Generally Fine as screen-worn. $4,000 – $6,000
662. **Marlene Dietrich “Lili” black ball-gown designed by René Hubert for The Flame of New Orleans, plus Mischa Auer’s caped tuxedo for the same scene.** (Universal, 1941) Most of the story’s twists and turns in this period romantic comedy revolve around what Marlene Dietrich’s character “Lili” will wear next in her courtship of a wealthy aristocrat. Though her wedding dress ends up floating down the Mississippi river, without question the most spectacular of René Hubert’s gowns for Miss Dietrich is the one offered here. The camera follows it boxed, with much fuss and fanfare from the finest couture house in town, all the way into Lili’s boudoir, and on to the great ball scene, where her real (very un-aristocratic) identity is discovered by Mischa Auer, whose very formal satin-lined cape and navy wool tuxedo is also offered here in the same lot. The gown bears Hubert’s couture label, and is layered black silk tulle with integral corset, built-in padding, and crystal bead embroidery over lamé. All three pieces of Auer’s tuxedo bear internal United Costumers labels inscribed “Mischa Auer 127”. Many exceptional gowns were created for Dietrich during her golden age on screen, but few survived, and virtually none of them ever make it to the public market. Midnight blue wool with cream wool and satin lining, fully decorated with gold bullion and Naval emblem buttons. Henry Wilcoxon’s character is the man closest to Lord Nelson and Lady Hamilton, and wears this highly decorated jacket for most of the last half of the film; Miles Mander wears his for just one principal scene near the middle of the film. Both bear United Costumers tags with actors’ names inscribed, and both are in Fine overall condition with only minor signs of ageing and use. **$400 – $600**
664. **Bob Hope elaborate wedding costume designed by Edith Head from Road to Morocco.** (Paramount, 1942) Legendary Paramount designer Edith Head is credited with 430 titles in her decades-long career. This Arabian sheik wedding ensemble is a classic example of her exemplary work, consisting of heavy gold-brocade caftan with elaborate paisley-pattern gold bullion embroidery, over dark gold brocade scalloped pants and off-white silk satin puff-sleeve and chest shirt, finished with pleated cummerbund. Worn by Bob Hope as “Orville Turkey Jackson” about to be married off to Dorothy Lamour. United Costumers labels marked variously “Bob Hope” and “wedding”. All elements are Excellent with only traces of age or use, virtually as screen-worn. $3,000 – $5,000

665. **Saru “Mowgli’s” knife from Jungle Book.** (Alexander Korda Films, 1942) One of the most important plot lines of the 1942 film, Jungle Book, involves Saru “Mowgli’s” quest to obtain a “tooth” with which to fight Shere Khan. This knife features a steel blade and composite hilt with brass detail and housed in a snakeskin-covered scabbard. It was worn around the actor’s neck by the attached leather straps and is seen prominently throughout the final sequences of the film as well as promotional material. Blade exhibits slight oxidation, small crack to hilt and likely repainted. Condition remains very good overall. From the estate of Sabu. $3,000 – $5,000

Both bear Western Costume Co. labels with performers’ names inscribed, and apart from cuffs on black jacket let out, both are in Fine condition with few signs of age or use. $4,000 – $6,000

He was one of the most influential advertising creative men of the 20th Century and his creations continue to populate the global brand-advertising world. Tennant created “Tony the Tiger” and “Snap, Crackle and Pop” for Kellog’s, “Pop’n Fresh” the Pillsbury Doughboy, the “Marlboro Man” for Philip Morris as well as the United Airlines slogan, “Fly the Friendly Skies.” The following three lots were on exhibit at the Warner Bros. Museum until Don’s death in 2001.

670. **HANS DREIER’S 1945 OSCAR FOR BEST ART DIRECTION FOR FRENCHMAN’S CREEK.** (Paramount, 1944) A rare “wartime” Academy Award presented to one of Hollywood’s most acclaimed and respected art directors, Hans Dreier (1885-1966), for “Best Art Direction–Interior Decoration, Color” for the film *Frenchman’s Creek*, starring Joan Fontaine, Basil Rathbone and Nigel Bruce. The film was directed by Mitchell Leisen and was adapted from the Daphne Du Maurier novel. Dreier was born in Bremen, Germany and began his career in German film in 1919. He relocated to Hollywood in 1923 serving as set designer and art director for Famous Players-Lasky-Paramount and eventually became head of Paramount’s art department from 1928 to 1951, creating sets for 11 Cecil B. DeMille films. During his long career he made contributions to nearly 500 films and worked with numerous directors such as Josef von Sternberg, Ernst Lubitsch, Rouben Mamoulian, King Vidor, Billy Wilder and Cecil B DeMille. Considerable credit is accorded Dreier’s work for the lush elegance and soft gradations of tone that marked Paramount’s distinctive black-and-white period of the 1920s and 1930s. He proved equally adept at handling the demands of the lavish color epics and gloomy moods of film noir. He was nominated for 23 Academy Awards for art direction and won three times, for the film offered here, *Samson and Delilah* (1949) and *Sunset Boulevard* (1950). The Oscar bears a small metal plaque on the front “Academy First Award to Hans Dreier for Color Art Direction of ‘Frenchmans Creek’” and another on the opposite side, “Academy of Motion Picture Arts and Sciences First Award 1945.” Measures 13 ¼ in. tall with a base measuring 5 in. diameter. 672. **Dorothy Lamour gold lamé gown designed by Jean Louis from Lulu Belle.** (Columbia, 1948) Exquisite long-train full gold lamé and bugle-bead specialty gown designed by Jean Louis for Dorothy Lamour in the title role of Lulu Belle. Worn by Lamour on stage while her character is performing her “Happy Days” musical revue, and due to Production Code issues of the late 1940’s, the transparent quality of the bodice in this revealing and sensuous gown required a sort of “jacket” be added (no longer present with this gown) to satisfy the censors. Gold in lamé has slightly tarnished in spots, but overall the costume remains virtually as screen-worn. Accompanied by an original production still of Lamour wearing the gown in its censored state. $1,000 – $1,500

678. **Treasure Island (1934) original unique screen-used prop vellum treasure map.** (MGM, 1934) Hand-drawn and colored prop “treasure map” on 25” x 27” genuine animal-skin vellum, folded, stained and distressed intentionally for period and plot authenticity. Salvaged by Jackie Cooper’s boy hero character “Jim” from the sea-chest of crusty pirate “Billy Bones”, memorably portrayed by Lionel Barrymore. This is not only the essential prop and driving plot device for the most rewarding filmed version of an oft-told tale, it is one of the truly great and immediately recognized film props from the golden age of Hollywood, created under the Art-direction of the legendary Cedric Gibbons. A fascinating detail in its execution are the red crosses which Jim points out, but being a black and white film, read only as gray to the film viewer. Map has been flattened for display, and shows chipping and nail-holes all around margins from handling as genuine vellum becomes brittle when dry (easily covered with matting), but interior remains unaffected and presents itself virtually as screen-used. From the family of 1930’s-50’s MGM director/producer Harry W. Loud, where it has lived and been loved since 1934. **$12,000 – $15,000**

679. **Martian ship from Zombies of the Stratosphere.** (Republic, 1952) Fuselage is constructed of wood with balsa wood fins, painted bright green with red accents and silver gun turret below. Measures 23 in. long x 5 in. in diameter. Designed by legendary sci-fi team Howard and Theodore Lydecker, it saw extensive duty for Republic serials, even retaining the mounting holes along the top for the flying sequences. It exhibits wear, scuffs and scrapes, with all but three (3) fins missing or replaced. Condition remains very good for its age and manner in which it was used. **$1,000 – $1,500**
680. Kathryn Grayson “Suzette Micheline” gown designed by Helen Rose from The Toast of New Orleans. (MGM, 1950) Delicate and quite elaborate long period gown designed by Helen Rose, constructed almost entirely of varying shades of transparent silk, lace, and embroidered floral appliqués. Worn by Kathryn Grayson as “Suzette Micheline”, a snooty opera singer visiting New Orleans, as she is courted by peasant-mannered Mario Lanza playing a “Cajun Caruso”. Green cummerbund is an original studio wardrobe piece and is remarkably close to, though not the screen-worn version, so is included for display purposes. Separations at skirt closures, and some tattering to margin of silk train, and entire gown has slightly darkened evenly with age. Internal label inscribed “1483 6818 Kathryn Grayson” and stamped “MGM WARDROBE.” $600 – $800

681. Doris Day “Marjorie Winfield” 2-piece turquoise period skirt and blouse designed by Marjorie Best from On Moonlight Bay. (Warner Bros., 1951) Early Doris Day vehicle adapted from Booth Tarkington’s “Penrod” stories of mischievous youth, and one of her most charming films of the period. Two-piece Artisan-blue wool pleated long skirt topped by a sheer silk-tulle blouse with integral satin bustier, designed by Marjorie Best and worn by Doris Day when her father prevents her from running off with Gordon MacRae. The brilliant and unique colors of this garment are truly breathtaking in 3-strip Technicolor on screen. Both pieces bear internal Warner Bros. tags inscribed “D. Day 5037-754”. Very little trace of aging or wear, virtually as screen-worn. $800 – $1,200

682. Judy Garland wig from Summer Stock. (MGM, 1950) This film marked Miss Garland’s final motion picture for M-G-M. This auburn/brown, 3/4 wig is hand-tied and is made of real human hair. Sewn inside the wig is the original “Metro-Goldwyn-Mayer” label reading, “624,” along with the original “Max Factor Hollywood” label reading, “F4738.” Both series of numbers correspond with the accompanying original M-G-M Wig Stock Record card which reads, “Stock No. 624, Original Player: Judy Garland. Description: Med. Brown 3/4 Fall. Prod. #1477. Handwritten in pencil is, “Summer Stock’ Walters [the film’s director] #624 F4738.” Originally purchased from the original 1970 MGM Auction and After Auction Sale. Lot also comes with the original storage box marked “624” in red ink as well as two photographs of Judy Garland wearing this wig. $3,000 – $5,000

683. Paulette Goddard “Molly McCorkle” male drag dance costume from Pot O’ Gold. (UA, 1941) For one of the most audacious woman in male drag sequences during Code-enforced Hollywood (and easily rivals Marlene Dietrich’s drag sequence in pre-Code Morocco) Paulette Goddard wears this Latin male outfit to seduce the ladies in the “Broadway Caballero” musical number from Pot O’ Gold. Designed by Helen Rose, and consists of cream wool bolero jacket over midnight blue wool dance slacks, both of which bear United Costumers labels inscribed with performer’s name. Satin trim on collar is frayed, else Fine as screen-worn. $400 – $600
684. **Rosemary Clooney “Calaveras Kate” Victorian-style showgirl gown designed by Edith Head from Red Garters.** (Paramount, 1954) This largely overlooked and vastly under-appreciated musical western is a true gem of high camp played like a cartoon (early director Frank Tashlin had just moved from Porky Pig shorts) in the full spectrum imaginable of 3-strip Technicolor. Staged on a hyper-stylized, spare theater-type set (which earned an Oscar nomination for art and set design), Rosemary Clooney is never better on screen, period, than here in this Edith Head gown leading her Can-Can girls of the Red Dog Saloon in the title number, *Red Garters*. Constructed of heavy and quite durable oilcloth fabric in crimson and white, this elaborate two-piece gown with long train is a wonder to behold, both in person and on screen. Stamped inside “Paramount Women’s Wardrobe”. One small faint stain in skirt, else Very Fine as screen-worn. Does not come with petticoat. **$3,000 – $5,000**

685. **Jean Simmons “Desirée Clary” period silk day-dress designed by René Hubert from Desirée.** (TCF, 1954) Periwinkle raw silk long dress with integral off-white and crimson dotted-Swiss blouse, designed by René Hubert, and worn by Jean Simmons as Desirée in the Clary family shop when Marlon Brando is arrested while courting her. Internal label inscribed “1-27-7-8043 Jean Simmons A-725-15”. Faint tanning to top edge of blouse shoulders, and some sun-fading in the periwinkle of the silk. **$800 – $1,200**

686. **Elizabeth Taylor “Louise Durant” orange velvet peignoir robe designed by Helen Rose from Rhapsody.** (MGM, 1954) Elegant dressing robe of heavy peach silk with long train and frog closures designed by Helen Rose for Elizabeth Taylor in *Rhapsody*. Worn by Miss Taylor somewhat unbuttoned to reveal a surprising glimpse of cleavage, considering the Production Code in full effect at the time. Appears in the scene where she shows off her new piano (and other obvious assets) to the young handsome music conservatory student John Ericson, singing her favorite childhood lullaby to him. Internal label inscribed “1628-3099 ELIZ. TAYLOR”. Excellent condition throughout, virtually as screen-worn. **$2,000 – $3,000**
687. **Lana Turner “Samarra” gown and cape designed by Herschel McCoy from *The Prodigal*.** (MGM, 1955) Lana Turner ably portrays the high priestess to a pagan god, in essence a “concubine for hire” for those wealthy enough to make the proper “offerings” in Richard Thorpe’s biblical epic *The Prodigal*. Two elaborate principal costume pieces here designed by Herschel McCoy are worn separately, though to great effect by Turner in her “priestess” duties. The exquisite transparent gold-lined silk robe with elaborate gold bullion, sequin, and jewel appliqués is worn for Turner’s introduction, as she teaches a very young Sandra Descher (wearing an exact matching cape) a thing or two about the job duties when it is her turn one day soon. The gown, of soft-woven ecru silk with internal corset and exceptional beading and decoration on bust and torso, is worn when Turner seduces Edmund Purdom for the first time, with the intention of deceiving him out of his fortune. Internal label in gown inscribed “1658 4162 Lana Turner” and robe is marked simply “LANA TURNER”, and apart from minor faint stains and a few tiny holes, virtually as screen-worn. $6,000 – $8,000

688. **Grumman F9F-2 Panther filming miniature from *The Bridges at Toko-Ri*.** (Paramount, 1954) Grumman F9F-2 Panther filming miniature used during William Holden “Lt. Harry Brubaker’s” thrilling landing sequence aboard the USS Savo Island. The plane is completely hand-painted and detailed and features the “Golden Dragon” squadron insignia on the nose. Constructed of fiberglass and features metal landing gear, rubber tires, a pilot head and shoulders. The cockpit is removable and the yellow plastic canopy appears to have been replaced. The wingspan measures 61 in., length is 62 in. and 19 in. tall at the tail. The miniature exhibits minor wear, with paint slightly dulled, front tire cracked and worn, but remains in Very good condition. Special shipping arrangements will apply. $3,000 – $5,000
690. YUL BRYNNER “KING MONGKUT” EMBROIDERED ROBE AND WRAP BY IRENE SHARAFF FROM THE KING AND I ON STAGE. (Rodgers and Hammerstein, 1951-54) Based upon extensive research, and primarily upon both the quality of material and construction and the early design of the “Brooks Costume Co.” label inside, this Yul Brynner The King and I costume is attributed to the original production on Broadway, which ran for three years and 1,246 performances. A two-piece costume, comprising: a three-quarter length robe of purple silk and red brocade embellished with bronze and gilt beadwork and braid, with corresponding harem-style trousers, the jacket with Brooks Costume Company, 1150 Sixth Ave., New York label inside inscribed “King” — made for Yul Brynner as “King Mongkut” of Siam in the Broadway production of The King And I. Brynner’s best-known role, he played “King Mongkut of Siam” in the Broadway production of Rodgers and Hammerstein’s musical The King and I 4,626 times onstage over the span of his career. He appeared in the original production and subsequent touring productions, as well as a 1977 Broadway revival, and another Broadway revival in 1985. He won an Academy Award for Best Actor for the role and is one of only seven people who have won both a Tony Award and an Academy Award for the same role. Please note, this same costume was previously incorrectly attributed to a “1960’s revival” with Brynner, which is impossible, as his first participation in a Broadway revival production of this play isn’t until the late 1970’s. Even more to the point, this exact costume had for years already been a prized possession of one of the first serious stage and film costume collectors, Mr. Robert Cahlman, who was the director of the Brooks Costume Company in New York, and the originator in 1959 of the first touring exhibition of stage and screen costumes entitled “Exits and Entrances”. There are separations in the purple silk around the shoulders, and general signs of use over hundreds if not thousands of performances, though overall generally intact and quite presentable considering its age and history. $8,000 – $12,000

689. ROYAL HANDMAIDEN COSTUME DESIGNED BY IRENE SHARAFF FROM THE KING AND I. (TCF, 1956) Two-piece heavy burgundy satin with green lining traditional Siamese Royal court costume worn by one of the Handmaidens assigned to Deborah Kerr by her employer, Yul Brynner as “King Mongkut” of Siam (now Thailand). Western Costume Co. label inside with faded performer assignation; in generally Fine condition overall, as screen-worn. $400 – $600

Robinson as “Dathan”, and other Hebrew celebrants during the orgy scene in *The Ten Commandments*, when Moses is away and Dathan convinces them to worship the golden calf idol. Rim is slightly dented from handling, and paint, which shone as polished silver on film, has dulled, else essentially as screen-used. **$300 – $500**

(Warner Bros., 1957) An early 20th century style double-breasted military dress tunic worn by Laurence Olivier as “The Regent” of crème colored wool with red velvet collar and cuffs, gold braid to the collar, sleeves decorated with intertwined braid in red, gold and black velvet panel at the back with brass buttons. (Warner Bros., 1957) Eggshell silk and lace nightgown with baby blue self-belt tie, designed by Marjorie Best for Yvonne DeCarlo in *Band of Angels*, the unofficial sequel to *Gone With the Wind*. 694. 18-YEAR-OLD MARYLIN MONROE amazing autograph letter signed, “Norma Jeane”, Four pages, blue-lined Octavo sheets, dated June 15, 1944. Penned at the top, and stricken-through, is the address “14668 Parthenia St, Van Nuys” (curiously, she never lived at that address). Written to Grace Goddard, Norma Jeane’s legal guardian and ‘mother’ figure during the tumultuous years of her youth. (in full):

  Dearest Grace,
  I was so happy to hear from you. I was so thrilled to read your letter and learn of all that you have been doing lately. [Grace had recently moved to West Virginia] I will send you your picture very shortly now, I’m going down Saturday to find out more about it. Also will send you lots of snapshots at the same time I send you the picture. I found out that a 10″ x 12″ (that was the size you wanted wasn’t it?) cost exactly $5.00. Jimmie has been gone for seven weeks and the first word I received from him was the day before my birthday. He sent a cable night letter by Western Union saying ‘Darling, on your birthday, I send you a whole world of love’. I was simply thrilled to death to hear from him.

  I have never really written and told you of Jimmies and my married life together. Of course I know that if it hadn’t been for you we might not have ever been married and I know I owe you a lot for that fact alone, besides countless others. That is why I feel that I should let you know about us. I love Jimmie just more than anyone (in a different way I suppose than anyone) and I know I shall never be happy with anyone else as long as I live, and I know he feels the same towards me. So you see we are really very happy together that is of course, when we can be together. We both miss each other terribly. We will be married two years June 1946. And we really have had quite a happy life together. I am working 10 hrs. a day at Radioplane Co., at Metropolitan Airport. I am saving almost everything I earn (to help pay for our future home after the war). The work isn’t easy at all for I am on my feet all day and walking quite a bit. I was all set to get a Civil Service job with the Army, all my papers filled out and everything set to go, and then I found out I would be working with all Army fellows. I was over there one day, and the Personal Officer said that he wouldn’t advise it for my own sake. I am going to try and get back at Radioplane Co. pretty soon. I am so thrilled that he wouldn’t advise it for my own sake. I am back at Radioplane Co., and I believe that I shall never be as happy as I was before we were married. But I am very happy now.

  I hope you are happy too. I know you are. And I know you are all set to get married. Jimmie has been gone for seven weeks and the first word I received from him was the day before my birthday. He sent a cable night letter by Western Union saying ‘Darling, on your birthday, I send you a whole world of love’. I was simply thrilled to death to hear from him.

  With much love, Norma Jeane

Summer of 1944 was a fateful time for young Norma Jeane Dougherty. Circa 1943-44, she landed her first job at Radioplane Co. (a defense contractor in Burbank, California), through the influence of her mother-in-law, Ethel. Her husband, Jim, had recently joined the U.S. Merchant Marine and shipped off to war just “seven weeks” previously. Although she here thanks Grace for the instrumental role she played in organizing and consenting to her marriage, it is known that she later harbored feelings of resentment towards Grace for taking off to West Virginia (in effect, abandoning Norma Jeane), and believed that her “surrogate mother” had arranged the marriage as a convenient way to get rid of her. Despite Norma Jeane gushing over her love for her husband, her marriage was soon to unravel. Just a few months later, Norma Jeane met a man who would vault her to stardom: Army photographer David Conover. Conover had been tasked by his commanding officer (who was, interestingly enough, actor and future President Ronald Reagan) to photograph women factory workers who were helping with the war effort. Making the rounds at Radioplane he was naturally drawn to Norma Jeane, who, along with her stunning beauty and bubbly personality, seemed to have a certain “aura” around the camera. She soon appeared on the cover of Yank magazine, and the die was cast. Heeding the advice of Conover and Grace, she obtained a divorce from Dougherty (September 13, 1946), and began one of the most famous careers in Hollywood. A wonderful letter, showing how Norma Jeane viewed her world and her future with Jim Dougherty just two years into their marriage — though her life would soon change forever. Numerous corrections throughout, and page one exhibits original ink-blot. Overall, in excellent condition. $40,000 – $60,000

716. **Marilyn Monroe (Norma Jeane) original family photograph age 2, with her later notation on verso**. From the personal effects of a relative of Marilyn Monroe (nee Norma Jeane Mortensen/Baker) to the owner of the image archive “Silver Screen” (now deceased), to the current owner, an original gelatin-silver 3¾” x 4¾” family snapshot of toddler Norma Jeane at the beach. She is playing with another toddler she calls “Donna” in the pencil notation attributed to Norma Jeane herself, “gidy up horsy” at the beach, Donna & me I’m the horse”; comparisons were carefully made to other writing from her teen years, and this is a confident match, so she could have made this notation anytime before leaving home at age 16. **$800 – $1,200**
717. **Marilyn Monroe Significant and Unique Collection of 16+ Personally Owned Family Photographs and Negatives of Marilyn Monroe and Her Mother.** A unique archive of 16+ original 2 ½ x 4 ¼ in. to 3 ½ in. x 4 ½ in. personal family photographs and negatives of Marilyn Monroe with her mother Gladys Pearl Baker (née Monroe) and presumably grandmother, as well as other family members and friends spanning toddler age through to adolescence. Her mother Gladys is pictured in several with a woman who is likely her best friend, Grace McKee, the woman that went on to become her guardian and ward of state. Marilyn is pictured in several as a toddler, as a teenager holding a baby on a bench, standing with Chico Marx on stage, as a young swimsuit model etc. Includes additional copy prints and negatives made from original photographs (originals not present). Approx. 30 items total. An incredible glimpse into Marilyn’s early family life and unique opportunity to acquire a rich trove of original material. **$2,000 – $3,000**

718. **Marilyn Monroe (Norma Jeane) Original Photobooth Snapshot Self-Portrait, Ca. 1940.** From the personal effects of a relative of Marilyn Monroe (née Norma Jeane Mortensen/ Baker) to the owner of the image archive “Silver Screen” (now deceased), to the current owner, a 1 ½” x 1 ¼” self-generated “photobooth” self-portrait, cut out of the original multi-shot strip by a teenage Norma Jeane and given to a family member. We have not heard of the survival of other such photos generated by[Marilyn] herself, though of course at least a few must have been generated at the time, so it is conceivable for this to be a unique artifact in the pantheon of Marilyn Monroe’s history. In any case, it is unique for this particular shot, as the photobooth technology only creates a single print of each exposure. Side margins are intact, and this particular image was trimmed out of the middle of a multi-shot strip, so no upper or lower margin is present; else, surprisingly Fine for such a small ephemeral object. **$800 – $1,200**
MARILYN MONROE’s personal annotated working promptbook-script for *The Sleeping Prince* (aka *The Prince and the Showgirl*). (Warner Bros., 1957) Clasp-bound in crimson paper covers, and intentionally printed in half-size (5” x 8”) for ease of use on set, especially considering the elaborate costumes required for this drawing-room comedy starring, and co-produced by, Marilyn Monroe and Laurence Olivier. This example is identified on the specially-printed titled front cover as “PERSONAL COPY OF MISS MONROE”. Many pages inside exhibit not only scene and dialogue notes attributed to Monroe’s own hand, but many personal thoughts and observations by her as well, namely “What am I doing here with this man/I can’t believe my eyes, ears/ watch him/ oh no/ this idiot/ Chanel #5/ I just think it’s a joke/ don’t take anyone else’s tone/ affective memory/ heart breaking” plus at least one slightly naughty joke, “like a music box: a tinkle”, among other ‘notes to self’. Accounts from the time agree that Marilyn had more trouble working with Olivier than with any other male lead in her career. At least (31) of this small, character-dialogue promptbook-script’s (68) pages exhibit anywhere from one to numerous notations by Miss Monroe, making this one of the most intensely personal artifacts extant from her professional career. Covers are significantly tattered all around the margins, and front cover, together with first (2) pages, are torn 2/3 down from top near spine, else intact and complete as originally issued. **$30,000 – $50,000**

720. MARILYN MONROE EXTENSIVE ARCHIVE OF PRODUCTION AND PUBLICITY MATERIAL
THE SEVEN YEAR ITCH. (TCF, 1955) Extensive archive of production and publicity
materials representing all facets of the film, The Seven Year Itch. The archive contains significant
correspondence and consultations, with 1,000+ individual pieces including Billy Wilder’s 5
pg. contract signed three (3) times and dated June 1st, 1954, author George Axelrod’s 10 pg.
contract signed, Billy Wilder’s signed payment agreement, copy of producer Charles Feldman’s
letter sent to “Mr. and Mrs. Joe DiMaggio” framing the reasons he, the director and the studio want Marilyn in the film, confidential correspondence between Wilder and Zanuck with
heated exchanges at times, a pair of scripts bearing numerous annotations in Darryl Zanuck’s
hand, together with extensive collections of copies of legal documents, inter-office memos, and
telegrams, intimate exchanges between Zaunck and Charles K. Feldman, as well as other correspondence to and from Harry Sokolov, Irving Cohen, Irving “Swifty” Lazar, Spyros Skouras,
and many other studio heads.

FROM

Charles K. Feldman (1904-1968) was one of the most powerful agents in Hollywood and had notable creative input as executive-producer on several
important films, Pittsburgh, Red River, A Streetcar Named Desire, and notably, The Seven Year Itch. The archive begins with early correspondence regarding
George Axelrod’s screenplay being purchased by Feldman and negotiating with Billy Wilder to direct. Lew Wasserman was acting as agent for Wilder
and numerous exchanges are present with drafts of agreements including a fascinating dialogue on Wilder having no interest in Tom Ewell or Walter
Mathau as the lead, but instead he wanted Jamest Stewart, Gary Cooper or William Holden. Wilder’s 5 pg. contract is present, dated June 1st, 1954,
signed three (3) times and initialed five (5) times, as well as his signed payment agreement dated November 23, 1954.
An official secretarial copy of a fantastic 5 pg. letter, dated May 17, 1954, from Feldman to “Mr. and Mrs. Joe DiMaggio” frames the reasons that he,
director Billy Wilder and Twentieth Century-Fox want Marilyn Monroe in the film, “When all of us met, you, Marilyn, expressed a repeated and
definite desire to appear in THE SEVEN YEAR ITCH. I bought the play for over $250,000 and as I would not sell it today for a million dollars, it
is conceivable…this film could show profits in the millions – for everyone believes it will be a tremendous hit!” Other copies of typed letters sent
to Wilder from Zanuck about the lead male role, “If I had read the script at the time we were casting…I would never have recommended Holden
or anybody else except Ewell. I didn’t quite understand at the time but in re-reading I believe that Holden would have been as big an error as Gary
Cooper. That is a great play…but I tell you…it would not be fifty percent of the picture it will be with Marilyn Monroe. She is an absolute must
for this story…nothing would make up for her personality in this subject.”
A pair of Zanuck’s personally hand-annotated scripts. One Temporary Incomplete with 11 pages of annotations with an interesting note during the
scene Richard is scrutinizing the cover design for Little Women, where he pens, “? The Scarlet Letter – play off the Adultress later.” Another Final script
bears 24 pages of handwritten notations with suggestions for cutting the reading scene way down. Another Zanuck TLS to Charles Feldman, dated
Sept. 20, 1954, advises against the “voice over” scenes and sends along his 10 page breakdown of differences between the play and the script and 12
pages of annotated dialogue with Zanuck’s suggestions stapled to the margins on small strips of blue paper.
When principal filming began and just after Marilyn and DiMaggio’s divorce, some exchanges become heated between Feldman and Zanuck, including a 2 pg. office memo from Oct. 22, 1954, “There have been tough days – immediately after the divorce proceedings, the 18-takes have only happened on rare occasions with the girl…for the last two weeks this girl has worked as hard as anyone I have known in my life. Incidentally I don’t
know how Kazan worked with you but I can tell you that on STREETCAR, it was a daily occurrence for us to have 25 to 30 takes with Brando
and Vivien Leigh. This has not been happening on ITCH.” Further correspondence relates to Wilder taking too long to film scenes and difficulties
with Marilyn taking company time to rehearse. There is a strong concentration of material on the risqué nature of the publicity done for the film,
specifically relating to large promotional billboards that featured the iconic billowing white dress scene, “They’re replacing a big cardboard cutout of
Marilyn outside Loew’s Theatre in Times Square. It was showing Marilyn with her skirts blowing above her waist. Not good taste…Some papers
refuse to accept wind blowing ad because of Kefauver investigation and pressure groups…this is a very delicate situation…sensational business so far
at opening.” Much difficulty arose with censors upon the film’s release, including a complete rejection by the Irish Censor & Appeal Board stating
that “this film is incapable of cutting without destroying its continuity. It is indecent and unfit for general exhibition.” Even a telegram from Wilder
to the president of the Catholic Legion of Decency states, “I do not have the reputation of having ever been connected with pictures of a lascivious
character. Obviously, the picture deals humorously with a man’s temptations but they are very human and utterly harmless. Am afraid that additional
bleaching will make the picture disintegrate into an incomprehensible nothing.”
All in all, a rich trove and fascinating glimpse into the project’s inception, it’s transformation from stage to screen, all the various legal wranglings
between agents, producers, directors and other studio heads during filming, and finally the fallout over the overt sexuality that faced cinema goers after
the film’s release. Interested parties are strongly encouraged to view this material in person. $30,000 – $50,000

731. Marilyn Monroe and Joe DiMaggio Wire Photo from Their Wedding Day. Gelatin-silver print, 7 in. x 9 in. UPI wire photo (not trimmed, this is correct size for this medium) dated 1/14/1954 announcing the marriage by civil ceremony of Marilyn Monroe to Joe DiMaggio. Friends close to both reported later that Marilyn informed her studio press agent ahead of time, unbeknownst to Joe who wanted a quiet and very private event. This kind of discord likely contributed heavily to the marriage lasting a mere nine months. Wire photos tend to be much more ephemeral than studio publicity material, as they were the “fax” of the time for news organizations to spread images quickly, and tended to be discarded immediately. This example remains in exceptional condition for a print of its type. $300 – $500
Marilyn Monroe’s Platinum and Diamond Eternity Wedding Band Given to Her by Joe DiMaggio After Their 1954 Wedding.

A platinum eternity band set with 35 baguette-cut diamonds (one diamond missing just as it was at the Christie’s Personal Property of Marilyn Monroe sale in 1999), VS1 clarity with a total carat weight of 3.5 (when all diamonds were present), given to Marilyn Monroe by Joe DiMaggio on their wedding day on January 14, 1954. After Marilyn did some publicity photographs wearing a sexy short-skirted baseball outfit in the winter of 1951–1952, DiMaggio saw the pictures and learned that she was a rising Hollywood starlet and was determined to meet her as soon as possible. They were introduced at an Italian restaurant on Sunset Boulevard and DiMaggio was surprised to learn that she had never attended a baseball game and knew practically nothing about the game. For his part, DiMaggio was suspicious of Hollywood and its invented idolatry. Despite this, the couple had an immediate and palpable chemistry; Marilyn was drawn to this calm, handsome ex-ballplayer while DiMaggio was smitten by her considerable charm and a passionate romance was instantly ignited.

The two were married in an intimate civil ceremony at San Francisco City Hall, out of the spotlight, a rarity for both of them. DiMaggio’s friend Reno Barstocchi and his old San Francisco Seals manager, Francis Joseph “Lefty” O’Doul, together with O’Doul’s wife and the judge were the only people in attendance. Marilyn had no loved ones present. Standing beside Joe, holding three orchids, she promised to “love, honor and cherish.” When the orchids withered in her perspiring hands, she turned to Joe and asked that if she died before him, would he place flowers at her grave every week, like William Powell had done at the grave of Jean Harlow? Joe promised that he would.

When the ceremony was completed, the newly married couple exited the courtroom to over 100 reporters, fans and autograph hounds. Unbeknownst to Joe, Marilyn had shared the news with studio publicity chief, Harry Brand. The newlyweds were photographed kissing and submitted to a barrage of questions including famously, “How many children did they plan?” “I’d like to have six,” Marilyn responded. “One,” said Joe.

The dreams of America’s favorite couple were short-lived as the couple’s relationship was strained from the outset. On September 15, 1954 during filming of the famous subway grate sequence of The Seven Year Itch, DiMaggio was urged by friend Walter Winchell to come view the spectacle that was taking place on Lexington Avenue. DiMaggio relented and witnessed the iconic scene of Marilyn astride the subway vent with white dress billowing upward. DiMaggio was furious and stormed off. Two weeks later, Marilyn filed a petition for divorce; the marriage lasting only nine months.

In February, 1961, Monroe was admitted to the Payne Whitney Psychiatric Clinic where she contacted DiMaggio. He secured her release and she spent some time with him in Florida where the couple reconciled. True to his promise, after her death, DiMaggio continued to send one half-dozen roses to her crypt three times a week for 20 years. Unlike Marilyn’s other husbands or others who knew her, DiMaggio refused to talk publicly about her, the woman he loved more than any other.

Provenance: Christie’s Personal Property of Marilyn Monroe, Lot 10, October 27-28, 1999 and sold for $772,500. **$300,000 – $500,000**
733. **Marilyn Monroe signature camisole top by Travilla from River of No Return.** (TCF, 1954) For Marilyn’s studio-imposed adventure in the Canadian wilderness, director Otto Preminger chose to bless film-goers with the joy of watching her, for a large part of the screen time, in this simple yet highly erotic camisole designed by Travilla. Complemented on screen by skin-tight blue jeans, and accented at one point with a good soaking in the river rapids, this little bit of cotton muslin with lace embroidery has become over the succeeding decades one of Marilyn’s most recognized, iconic, and exploited fashions. With interior label inscribed “1-81-2- 4739 A713-05 M. Monroe”. A few very minor stains, otherwise virtually identical to condition as worn on screen, including the off-white coloring, and the intentional rough-hewn bottom margin. A precious and immediately identified artifact from this great star’s career. **$40,000 – $60,000**
734. **Marilyn Monroe 2-piece dance costume by Dorothy Jeakins from *Let’s Make Love*. (TCF, 1960)** For Marilyn Monroe’s singing and dancing character “Amanda Dell” in *Let’s Make Love*, Dorothy Jeakins designed for her this sheer, sexy two-piece pink silk shirt/ black dance-brief combination, worn for rehearsal scenes in the stage musical set within the film. Both pieces bear internal TCF labels inscribed “F-13 M. Monroe” and apart from a few scattered minor to moderate stains in the shirt and minor separations in the brief, they remain essentially intact and presentable. With the long sleeves casually rolled up and shirt tucked into brief, this was a lovely and happy look for her in what was to be her penultimate film. $80,000 – $100,000
736. **Marilyn Monroe** personally owned portrait by Romeo Catozella after a *Modern Screen* magazine cover. Acrylic on canvas, 28 in. x 22 in. (incorrectly catalogued by Christie’s as oil) executed by artist and Marilyn Monroe fan Romeo Catozella of New York, and gifted to her. Based on a 1955 *Modern Screen* magazine cover photo portrait of Marilyn, and kept by her until her death in 1962. Includes an issue of the 1955 *Modern Screen* magazine. Provenance: Christie’s 1999 Personal Property of Marilyn Monroe, Lot 346, $23,000. **$10,000 – $15,000**
Marilyn Monroe invitation to JFK birthday celebration with call sheet and program from her personal property. From the Christie's 1999 sale of the personal property of Marilyn Monroe, three items for one event which document one of the most significant personal moments for her. In chronological sequence, the first is the personal invitation from "New York's Birthday Salute to the President" requesting her presence at Madison Square Garden on May 19, 1962 to celebrate President John F. Kennedy's birthday gala party; the second is a 2pp mimeo call-sheet for the evening's order of events, detailing Marilyn's appearance at #35, "Marilyn Monroe and Stars", which an unknown hand has doodled what might be a stage, and written in red grease pencil, with corrections in graphite, "Who do you have to be to be disappointing"; the last is the official illustrated program for the birthday event with iconic portrait of Kennedy on cover, with red, white and blue patriotic design. All three items were the personal examples in Marilyn Monroe's possession during the time of this historic event, for which she performed an extraordinarily sexy, breathy rendition of "Happy Birthday" to the President (even calling in sick to work at Fox in order to do so), and each shows extra folds and slight handling by her, presumably to secure inside a purse that night. Kennedy remarked on stage that he could retire from politics after such a performance; Peter Lawford introduced her as "the late Marilyn Monroe", and sadly she would be gone to a mysterious death in just over two months. Provenance: Christie's Personal Property of Marilyn Monroe, Lot 54, October 27-28, 1999 and sold for $129,000. **$40,000 – $60,000**
738. **NUDE OIL PAINTING OF MARYLIN MONROE BY EARL MORAN.** Original colorful painting by Earl Moran of a young and nude Marilyn Monroe in a prone pose painted from life circa 1948-1949. Accomplished in oil on board measuring 23 ½ in. x 35 ½ in. Signed “Earl Moran” at the lower right. Matted and framed. Earl Moran (1893-1984) was the most important pin-up artist of the period. He studied with the legendary anatomist George Bridgman at the Art Students League in Manhattan, and after moving to Chicago in 1931, opened a small photograph and illustration studio. He submitted some paintings of models in bikinis to two calendar companies, Brown and Bigelow and Thomas D. Murphy Company, both of which purchased his work and launched his career. One year later he signed an exclusive contract with Brown and Bigelow and sold millions of calendars for the company over the next few years.

He moved to Hollywood in 1946 when a young starlet named Norma Jeane Dougherty was sent to his Sunset Boulevard studio by the Blue Book Agency. Over the next four years, Marilyn came by once a month for a two-hour modeling session. After Moran chose a costume, the models would assume dozens of poses while he peered through his camera’s 20-pound lens. He generally worked in pastels traced in charcoal from his print, but this is one of only a few oils he did and without a doubt his very best subject. The photograph he worked from for this sitting was taken by Moran’s wife, and shows Marilyn lying prone topless on cushions while wearing bikini briefs. As she became more comfortable during the session she removed the briefs and allowed Moran to complete the painting of her completely nude and adding a stylized colorful pillow-like base. Marilyn’s beaming smile is a testament to her comfort and natural demeanor while posing for Moran.

Of all the models he worked with he thought Monroe was the sexiest, “better than anyone else…She expressed just what I wanted.” They met for the last time on the set of *There’s No Business Like Show Business* (1954). Marilyn embraced Moran telling him she loved the way he made her legs look wonderful. Certainly no better endorsement for this fine painting. The consignor was a Moran pin-up model and a close friend of Earl Moran who gifted her the painting in the 1960s. **$70,000 – $90,000**
739. **Lana Turner "Constance MacKenzie" polka-dot dress from *Peyton Place*.** (TCF, 1957) Simple yet elegant champagne silk shift with cream polka-dots, designed by Adele Palmer for Lana Turner as "Constance MacKenzie" in *Peyton Place*. Worn by Turner during the Easter Sunday outdoor service, where Hope Lange is struggling with the guilt from killing her abusive father. Minor separation of a few of the thread “eye” closures, else Very Fine as screen-worn. **$800 – $1,200**

740. **Pair of coin tokens and original program from the *Cleopatra* premiere.** (TCF, 1963) Originally from the personal archive of *Cleopatra* wardrobe manager Ed Wynigear (under costume designer Irene Sharaff) come these four production and premiere objects: two facsimile Roman “golden” coins engraved on back “Attended first showing of Cleopatra/ Hollywood June 18, 1963”; a plastic production disc “badge” marked “CLEOPATRA PROD 47”; and an original “road-show” illustrated program from the film’s initial release. Program shows minor handling, else Fine. **$200 – $300**

741. **Original production artwork of the Crucifixion scene by Edward Carfagno from *Ben-Hur*.** (MGM, 1959) Triptych of conceptual studies by Art Director Edward C. Carfagno accomplished in acrylic and tempera on 5 in. x 14 in. leaves of illustration board featuring designs for the Crucifixion scene at Golgotha. Housed in simple mats affixed with tape on the verso. Carfagno won an Academy Award for Best Art Direction-Set Decoration, Color. Mats exhibit slight toning. **$600 – $800**

742. **Three decorated Macedonian shields from the MGM 1959 *Ben-Hur*.** (MGM, 1959) Three painted aluminum shields with leather grips, 26" in diameter, and two of them also include the fitted leatherette covers which convert them for multi-purposing within this film, and presumably for other MGM productions. Decorations are of Macedonian design, and are visible when the Romans, under command of Jack Hawkins character “Quintus Arrius”, attack the Macedonian fleet, giving Charlton Heston as “Judah Ben-Hur” the opportunity to rescue him. **$300 – $500**
743. **Robert Taylor** “Marcus Vinicius” tunic and sandals, plus unidentified Roman soldier armor from *Quo Vadis.* (MGM, 1951) Robert Taylor plays a dedicated and patriotic Roman general, until Deborah Kerr and her new religion of Christianity enlighten him to the corruption of his Emperor Nero. Designed by Herschel McCoy, this mixed lot contains two costume elements for Robert Taylor, a wool tunic with red decorative band near lower hem, and a pair of studio hand-crafted high webbed lace-up sandals; and for a Roman soldier, a metal and leather cuirass armor set, with front and back interlocking plates and Nike medallion, and hammered metal helmet with orange brush top. Tunic is fine, virtually as screen-worn, though slightly altered for re-purposing; sandals are somewhat worn; armor has been painted crème over original dull gold color also for re-purposing, perhaps in *Ben-Hur* or other MGM biblical epic films. **$2,000 – $3,000**

744. **Anthony Quinn** “Auda Abu Tayi” costume from *Lawrence of Arabia.* (Columbia, 1962) Rust-brown striped robe of raw silk with brocade design along the collar and placket front, hook-and-eye front closure. Worn by Anthony Quinn in his role as “Auda Abu Tayi” in Lawrence of Arabia. Excellent condition. **$5,000 – $7,000**
745. **Elizabeth Taylor and Eddie Fisher’s marriage license from their Las Vegas wedding.** 1 pg, Folio (13 in. x 6 ½ in.), typed Marriage License, joining in marriage Eddie Fisher of Las Vegas and Elizabeth Taylor Todd of Los Angeles, on May 12, 1959. Signed by the attending Clark County, Nevada clerk, best man Michael Todd, Jr., and Rabbi Bernard Cohen of Temple Beth Shalom of Las Vegas. Nine months after Eddie and Liz started their romance, and 3 ½ hours after he divorced Debbie Reynolds, Eddie and Elizabeth were married. In Fisher’s biography, (Been There, Done That, St. Martin’s Press, 1999), he stated, “I divorced Debbie and married Elizabeth the day I finished my run at the Tropicana. It was a typical two-rabbi Jewish ceremony. We invited very few people, among them our parents and some friends. We were married under the chuppah, a canopy, and as is traditional, at the end of the ceremony I stomped on a wine glass.” From the estate of Rabbi Bernard Cohen who conducted the ceremony on May 12, 1959. Howard Terpning Original Final-Draft One-Sheet Poster Artwork for Cleopatra. (TCE, 1963) In late 1962 20th Century-Fox Studios commissioned well known studio artist Howard Terpning to create the promotional artwork for the upcoming epic Cleopatra, perhaps the most-hyped Hollywood film since 1939’s Gone With the Wind. This is the master painting for the standard “one-sheet” poster exhibited in virtually all the movie theaters featuring the film. Accomplished in acrylic on illustration board and measuring approx. 27 1/2 in. x 31 1/2 in., the painting depicts Elizabeth Taylor, the last great female star of the 20th Century, in all her regal glory as she sits upon a solid gold throne of Nubian cats holding the crook & flail of Osiris—the Pharaoh’s symbols of royalty, majesty and dominion over ancient Egypt. Flanking her on either side are Richard Burton as Marc Antony and Rex Harrison as Julius Caesar. This magnificent “Royal Portrait” depicts all three of these great Hollywood stars costumed in the regal state attire of their film characters. 20th Century Fox Studio’s Cleopatra was at the time of release the most expensive motion picture ever made and Elizabeth Taylor Hollywood’s highest paid star. Production costs on the production pushed the studio to the edge of bankruptcy and forced it to sell off much of its coveted back lot later to become Century City. Artist Howard Terpning went on to become one of the most famous painters of the American Southwest and is one of only 33 members inducted into the Cowboy Artists of America. His paintings of the Plains Indians have sold for over $1.5 million dollars and are held in museums and well known private collections in America and overseas. In May, 2011 Profiles in History sold the Howard Terpning Cleopatra “half-sheet” poster art for $126,500.00. A once in a lifetime opportunity to acquire one of the most important and iconic motion picture paintings of all time. Elizabeth Taylor’s beauty is captured at the zenith of her storied career. The lot is accompanied with a framed vintage Cleopatra one-sheet poster and film program depicting the art. In excellent condition; framed. $60,000 – $80,000
755. ELIZABETH TAYLOR’S LAVISH STUDIO—CUSTOMIZED DRESSING ROOM TRAILER FOR CLEOPATRA. (TCF, 1963) It is widely known that Twentieth Century Fox’s 1963 epic Cleopatra was both a troubled and devastatingly expensive production. The film is infamous for nearly bankrupting the studio with its budget swelling to $44 million (equivalent to $320 million in 2010 dollars). Star Elizabeth Taylor was awarded a record-setting contract of $1 million that rose to $7 million due to the delays of the production (equivalent to over $47 million today). The studio was in particular trouble when Taylor became very ill during the early filming and was rushed to the hospital where a life-saving tracheotomy had to be performed. The production was moved to Rome after six months as the English weather proved detrimental to her recovery, as well as being responsible for the constant deterioration of the costly sets required for the production. During the filming Elizabeth met Richard Burton and the two began a very public affair which made the headlines worldwide. To help Taylor remain focused and stay in character, Twentieth Century Fox spent a rumored $75,000 (in 1960s dollars!) to build a heavily customized 36-foot dressing room/trailer for the star, staying true to the theme of the Egyptian/Roman epic. The Aljo trailer is decorated with opulence, through the talent and expertise of the studio set construction crew. It features rose colored carpeting, hand-painted ceilings, hand-painted murals in the bedroom, detailed crown moldings, custom makeup dresser and vanity, half columns mounted on the walls and other columned furniture and decorative pieces. Silky curtains hang from a semicircular runner to separate the bedroom from the rest of the living area. This special hideaway was designed to make the star feel like the Queen of Egypt.

The provenance of this fabled trailer is fascinating. Millionaire financier and developer of the Watergate complex in Washington, DC, Nicolas Salgo, helped arrange financial backing for the film for the studio. Once the film wrapped, Salgo negotiated with Fox to keep Elizabeth Taylor’s dressing room trailer and had it parked at his ZX Ranch in Oregon from the 1960s through 1980. Friends visiting the ranch, the largest in Oregon, would request to stay in the Elizabeth Taylor/Richard Burton love nest—Hollywood’s version of the Lincoln Bedroom. Once Salgo sold the ranch, he transferred ownership to his neighbor from the adjacent ranch (the current owner and consignor) who owned The Lakeview Fantastic Museum where it became part of the museum exhibit. The trailer now resides as a guest house of his personal residence in Lake Tahoe, California.

The furniture, fixtures and curtains are all original. The other pieces currently decorating the dressing room, such as chairs, hand mirror, telephones, magazines, photographs, etc. are placed as a museum-like tribute to Elizabeth Taylor, Richard Burton and Cleopatra. The original round bed was removed over 40 years ago and replaced with a queen-sized bed. Some areas on the walls exhibit minor moisture damage which can be easily restored; otherwise, in very good condition with original curtains and main fixtures intact. Due to the size of the trailer, special transportation considerations must be arranged by the winning bidder. A wonderful and intimate Elizabeth Taylor piece, epitomizing the epic extravagance of Cleopatra—the last of the old guard Hollywood films. $50,000 – $75,000

759. Tony Randall complete wizard costume from The 7 Faces of Dr. Lao. (MGM, 1964) From what is arguably Tony Randall’s true signature role, playing eight different characters in The 7 Faces of Dr. Lao (the eighth is just an audience member at the circus). This complete seven-piece wizard costume is one of Randall’s most impressive incarnations in the film, as “Merlin” of Dr. Lao’s circus. Designed by Robert Fuca, and consisting of long burgundy silk robe with gold bullion and colored-stone embroidery; massive black velvet cape with intricate gold bullion and gold lamé decorations of alchemical symbols; two-tone felt wizard’s peaked hat with dangling star; two long pointed-toe leather slippers; a bright crimson-orange silk scarf; and a hanging leather magic pouch. An extraordinary ensemble from a truly iconic and memorable screen character for children of all ages. All elements show very minor signs of use and age including tarnishing of gold and some separation of lamé, but present themselves overall essentially as screen-worn. MGM wardrobe label inside robe, partially sewn over, indicates it was used earlier for a performer named “Aurica Ciproto” and re-purposed for Randall. $4,000 – $6,000

Polished cast bronze, 11 in. x 4 in. and weighing 12.2oz. **$2,000 – $3,000**

Beyond the fact that this rubber background mask is still supple and has all its original paint and mohair hair, it also still retains the hairy back flap Chambers devised to ingeniously hide the cut in the back that enabled the actor to put the mask on in the first place - the flap just Velcros over the slit and the mask is transformed into what appears to be a real ape head. **$4,000 – $6,000**

**John Chambers**

The following 33 lots are from the estate of groundbreaking makeup effects legend John Chambers (1923-2001). Chambers’ amazing work is seen in such films and television shows as *Planet of the Apes* (1968), *The List of Adrian Messenger* (1963), *The Outer Limits* (1963), *The Munsters* (1964), *Lost in Space* (1965), *Mission Impossible* (1966) and *Star Trek: The Original Series* (Chambers created “Mr. Spock’s” trademark pointed Vulcan ears). Chambers began his career in the Army during World War II, where he served as a dental technician. It was in this capacity that he found himself gaining a great deal of knowledge of repairing more than teeth—he began creating new ears, noses and chins for veterans ravaged by war. This experience landed Chambers at NBC in 1953 with a job in makeup. Though he developed many of his makeup innovations in the 1950s and 1960s, they are still in use today. His skull caps, for instance, are a standard in the business. For his efforts in *Planet of the Apes*, Chambers received an honorary Academy Award at the 1969 Oscars ceremony, and throughout his career he received many other honors, most notably an Emmy and a star on the Hollywood Walk of Fame. John Chambers was also given the highest civilian award from the CIA for his help with numerous “Mission: Impossible-type” transformational disguises he devised for operatives in secret missions. Despite all of his accomplishments, it was Chambers’ charitable work helping injured veterans and firefighters and his work for the CIA that gave him his greatest satisfaction. John Chambers’ expertise as a craftsman and innovator inspired a whole generation of makeup artists and helped to bring the art of makeup effects into the limelight.

Elizabeth Taylor was offered a disguised role but turned it down because the make-up would be too uncomfortable. This plaster lifecast was done for this make-up test in Gstaad, Switzerland. The others are still owned by Universal Studios, and usually on display at the theme parks.

This particular car is one of two that were completely built for off road use. The Delorean chassis was removed from the front and rear and replaced with high performance sand rail sections and suspension. The Delorean engine and transaxle were replaced with a high performance VW engine and transaxle. The entire car had a custom roll cage built from the suspension up and into the interior. As well, the car was outfitted with a special electric brake device with a switch on the dash, allowing the front brakes to be held while the clutch was dropped so the rear tires would spin on screen.

After filming completed, the car sat on the backlot at Universal Studios Hollywood for about 14 years, with a short time on display at the Petersen Auto Museum in Los Angeles. In 2003 it was sold to a private party who then restored it to the condition as seen during the movie. 898. **Le Mans** three-sheet poster. (Solar Productions/ Cinema Center Films, 1971) 41” x 77” U.S. original release three-sheet poster (printed in a single sheet) for *Le Mans*, widely considered the most authentic feature film extant to cover the world of sports car racing. Its accuracy was an essential element for star Steve McQueen and his Solar Production unit, as McQueen already had quite a history racing both cars and motorcycles in his own right, rather than as an actor. This is an extraordinary example of this rare large format (3-sheets were still made for U.S. films, but used almost exclusively by this time overseas) and appears to have been unused and virtually Mint condition before linen-backing. $1,500 – $2,000
LE MANS
899. **Steve McQueen “Michael Delaney” original hero Gulf driving suit from *Le Mans***. (Solar Productions/ Cinema Center Films, 1971) The original hero Hinchman Nomex racing suit worn by Steve McQueen as “Michael Delaney” in *Le Mans*, the most influential movie about racing ever made. The two-piece racing suit (jacket and pants) features a zipper and Velcro closure jacket with “Michael Delaney” stitched in blue thread above the right breast zipper pocket, iconic orange and blue Gulf racing stripes as well as Gulf patches on the breast and back. In addition there are United States flag, Hinchman Nomex, Heuer Chronograph and Firestone sponsor patches. It bears an internal Hinchman Indianapolis label.

When principal filming of *Le Mans* was completed, Solar Productions donated this suit to the British newspaper, *The Observer* for a special Le Mans-themed contest in 1971. By answering 3 Le Mans history questions correctly, 12-year-old Timothy Davies of Wolverhampton, England was chosen as the winner and presented with the suit by racing driver Richard “Dickie” Attwood, winner of the 1970 Le Mans race and driver of the Porsche 917K Gulf car during driving sequences in the film.

Filmed on location in Le Mans, France, the film’s spellbinding cinematography provides a thrilling glimpse of the sights and sounds of Porsche 917s and Ferrari 512s, locked in fierce competition for outright victory. It featured footage from the actual 1970 24 Hours of Le Mans race and remains popular with racing enthusiasts today as it accurately depicted the era with lots of racing and minimal dialogue. The film featured numerous top-level racing drivers of the day for the driving sequences including Derek Bell, Vic Elford, Jacky Ickx, Brian Redman, Jo Siffert and many others.

The suit is in excellent condition overall exhibiting only slight yellowing at the jacket collar and light smudges from production use at the sleeves. Accompanied by a letter of provenance from Timothy Davies, whose collection the suit remained until recently, as well as a binder of provenance materials, including copies of the original *Observer* questionnaire, copies of the young Timothy Davies wearing the suit, copies of contemporary newspaper clippings of the story, etc.

Steve McQueen’s legacy as “the King of Cool” has made his former vehicles, personal property and film memorabilia incredibly sought after. On August 19, 2011 the Porsche 911S driven by McQueen during the opening sequences of *Le Mans* sold for an astounding $1,375,000 and in 2009 his personal Rolex Submariner watch sold at auction for a world-record $234,000. Without question, one of the pinnacles of motorsport memorabilia and the Holy Grail of racing film costumes. **$200,000 – $300,000**

901. **Le M:ns** massive publicity and reference archive from collection of the unit publicist Vincent Tubbs. (Solar Productions/ Cinema Center Films, 1971) Absolutely unique and irreplaceable massive archive of pre- and post-production press documents, photos (many never released for general publicity) of McQueen on and off the set, racing cars of all sorts, beautiful women, some special color photos, even 8 x 10 camera negatives; memos, cast and crew call sheets and other personnel-specific materials, hand-written schedules of cars and drivers, receipts of all sorts from location work at Le Mans in Sarthe, France; biographies and other press-release materials in multiple languages, diagrams and descriptions to create the “crash” sequence and others; all of which was archived by the film’s unit publicist Vincent Tubbs and is ex-libris his collection. Housed in two large 3-ring binders are (110+) black & white portrait and publicity stills, most 8 x 10; (10+) 8 x 10 camera negatives; (11) color stills; (6) 35mm contact sheets; a complete, 4pp double-column driver’s list; and mountains of the afore-mentioned press releases, memos, receipts, etc. This is without question the one definitive comprehensive archive of the entire production process for one of the most significant films of the decade, as well as the most highly regarded and authentic film on this special subject. Of special note is the fact that the original owner of this material, unit publicist Vincent Tubbs, was an instrumental force in the civil-rights movement in America, beginning in college with the National Negro Newspaper Week, followed by becoming the leading “lynching” journalist in the 1930’s, then one of the only black war-correspondents in WWII, followed by Jet Magazine, and leading to his election in 1967 as the first African-American head of a motion picture guild. Contents vary slightly in condition, but majority is near-pristine, in a most welcome state of preservation. 903. **Le Mans** extensive collection of original 35mm publicity and reference slides. (Solar Productions/ Cinema Center Films, 1971) From the personal archive of unit publicist for the film *Le Mans*, a collection of (190+) 35mm color slides documenting virtually every aspect of the production of the film, including Steve McQueen in racing suit in and out of cars, on his motorcycle, and relaxing between takes; actual professional auto racers involved in the racing sequences; many of beautiful women posing with the race cars, sometimes wearing racing suits; and of course many focusing on the racing cars themselves. Of special note is the inclusion here of shots of the Porsche 911 driven by McQueen while off the racetrack, which just fetched well over $1 Million at the auction in Pebble Beach. Though many are loose in their original cardboard mounts, they appear fresh and beautifully preserved, and will make brilliant color prints. 905. **Le Mans** hand-made 1:43 scale race car models for production: Gulf/ Porsche 917, Ferrari 512S, and Porsche 908. (Solar Productions/ Cinema Center Films, 1971) This group of (3) unique authentic scale-model racing cars were commissioned by *Le Mans* propmaster Don Nunley for use in planning shot arrangement and angles, both during the race itself, and the special re-creations of racing sequences. Each is painstakingly hand-made from a small block of fir with only the use of hand tools and no polymers. “Creation R.D. Manou/ Marmande” inscribed on bottom of each translates as Raymond Dauffaure from Marmande (in the Southwest of France) whose small studio was in Manou near Le Mans. Dauffaure specialized in unique commissions of authentic limited editions, fabricating as much of each car as possible himself, usually sourcing only the wheels and tires from other toys. His work spans two decades from 1958 to 1978, and is highly treasured by automotive and racing collectors worldwide. The #20 Gulf/ Porsche 917 represented Steve McQueen’s car, #29 Porsche 908 is the Solar Productions camera car (actually entered in the race), and #8 Ferrari 512S Long Wheelbase was bought by Solar and used in the film. These three gems represent a triumvirate “holy grail” for both scale-model and auto racing enthusiasts. **$4,000 – $6,000**

Consignor states that “this rare 16mm film has good color and is complete [with] running time of 106 minutes, and full titles; only a few splices with no frame loss”. 911. **KENNETH “VON DUTCH” HOWARD UNIQUE HAND-PAINTED JACKET FROM 1958.** From *The Art of Design* (pub. Tornado Design, 2006), “In 1958, 14-year old Eddie Moberg brought a brand new sweatshirt to Dutch for custom airbrushing. The next day he wore it to school, blew students’ minds, and then packed it away in a drawer.” Moberg remembers paying “seven or eight bucks” for the work, and that Von Dutch was busy playing with a Thompson submachine gun when he arrived to pick up this treasure. Though Von Dutch painted unique designs on thousands of surfaces over the years, being credited as the father of both Hot Rod culture and “Low Brow” art, historians know of only one other jacket painted by him, and that was his own, with his signature “Flying Eyeball” logo. Jacket is a “Hercules Outerwear by Sears, Styled and Made in California” which is hand-airbrushed on frontside with a bloodthirsty vampire bat, 20 in. wingspan, specifically laid out around the jacket’s own pattern; and on backside a custom racing car in the shape of a pregnant female form of riveted sheet-metal, containing a maniacal driver (who suspiciously resembles Von Dutch at the time), with title “Sheet Metal Womb” and his characteristic signature, dated ’58. The jacket is well-documented and authenticated, and appears in the aforementioned *The Art of Design*, as well as being exhibited in *Kustom Kulture* at the Laguna Art Museum in 1993, just after the passing of Von Dutch. Currently housed in a custom, 2-sided oak-framed Plexiglas display; special shipping arrangements required. $6,000 – $8,000

Tora!*, the highly authentic film treatment of the Japanese invasion of Pearl Harbor. We see the submarine crew, far ahead of the general invasion force, attempt to follow an American destroyer into the harbor, only to be shelled and depth-charged to the bottom. All exterior submarine shots are of this miniature, as no actual version was required. Some light wear and handling, though essentially complete and is an impressive display piece. **$2,000 – $3,000**
912. **Gene Wilder signature “Willy Wonka” hat from *Willy Wonka and the Chocolate Factory***. (Warner Bros., 1971) From the collection of director Mel Stuart and with a letter of authenticity from him, comes this genuine copper-mine colored wool-felt top hat designed by Helen Colvig for Gene Wilder in the title role, and one of the greatest actor performances on screen, *Willy Wonka and the Chocolate Factory*. Worn throughout the entire film by Wilder, being arguably the single most distinctive and memorable piece in his entire wardrobe ensemble. In fact, the image of this special hat and Wilder’s character in this film has become a symbolic icon in recent years for the child in all of us. Director Mel Stuart relates in the LOA how the hat was stashed away in his garage immediately after filming in 1971, and largely forgotten, until his son unearthed it many years later, making it available here. Band inside is dry and cracked, and brim has three small tears at edges, though overall it remains strong of shape and nicely presentable. **$20,000 – $30,000**

The production wanted a white power cord for contrast on-screen. The real black power cord was hidden in Olivier’s sleeve while a vestigial white cord was added for effect. Comes with a LOA from assistant property master Guy Bushman and his original 4th draft rehearsal script from the film, including Paramount covers, with shooting schedule and pages of original handwritten breakdown notes by Bushman, including an entry “asbl Dentist Tools…Hand Drill – Good one.” The Dremel is in excellent operable condition. 948. RARE FULLY ANIMATRONIC PUPPET FROM HOWARD THE DUCK. (Universal, 1986) This is the only fully animatronic “Howard the Duck” puppet created for the film adaptation of Steve Gerber's comic book. Lucas' adaptation of the comic book placed less emphasis on the satirical storytelling in order to highlight the special effects of Industrial Light & Magic. The film's advanced stop-motion animatronic sequences were difficult to shoot due to the number of puppeteers required to operate the different parts of the body and director Willard Huyck continually reshot scenes as the technology improved. This impressively detailed fully animatronic puppet is constructed of a ball-and-socket aluminum armature covered in foam latex, the torso, arms and head are completely covered in white duck feathers. It features an internal breathing mechanism, multiple servos as well as hand paddles to actuate the mouth and eye movements. Howard stands a full 42 in. tall. Comedic actor Michael Keaton may not have had the ideal Batman body type – no matter once costume designer Bob Ringwood got done with his inspired take on the Dark Knight. Batman represented the first time ever that a superhero costume was envisioned as more than just a fancy set of tights. Instead, Ringwood chose to accent Keaton’s physique with armored pieces molded in foam latex attached to a spandex body suit. Although somewhat crude, this suit represents a grand experiment, which has now paved the way for all successive Batman film costumes, and influenced an entire generation of superheroes. 20th century London titled 'Piccadilly,' and a cliff-hanger western series Roddenberry goes on to write at length about two other series proposed—time television series.

The purpose of the meeting was to determine if Oscar Catz and/or Desilu would be interested in negotiating an arrangement of script payment, royalties, ownership and etc. under which I would write and deliver to them television pilots for the 1965-1966 season.

We had already delivered to them a detailed series prospectus for a one-season arrangement of script payment, royalties, ownership and etc. under which would develop these three series, or some other combination.

The point of this all is that I am finding myself required to come up with inventions and designs far beyond what we earlier thought necessary and far beyond what any show creator-producer should be expected to provide. I absolutely am not content to see Desilu and others getting profits off the top while I have to wait for a profit-loss statement on the entire show. Admittedly, STAR TREK is a very special thing requiring a special kind of inventiveness, perhaps also a special kind of “unity” from one person. But however it is sliced, I find myself necessarily becoming a toy-costume-etc. creator and inventor and going far beyond what any of our talented people involved, these are all items on which I have had to come up with the basic conception.

The point of all this, Alden, is that I am not at all happy with these provisions for the show. They are one-sided, unfair, and each day become more deprecating the work of any of our talented people involved, and requires a special kind of inventiveness, perhaps also a special kind of “unity” from one person. But however it is sliced, I find myself necessarily becoming a toy-costume-etc. creator and inventor and going far beyond what any of our talented people involved, these are all items on which I have had to come up with the basic conception.

Roddenberry had some early writing credits prior to Star Trek, but it wasn’t until 1966 when he created and produced Star Trek, that he found his voice in Hollywood. The two pilots were regarded as “cerebral” by the network, but once on the air, the series developed a loyal following and it continues to captivate audiences over 40 years after its inception. Phenomenal content and a wonderful association. A letter in which Roddenberry mentions making his pitch to the studio the earliest origins of the legendary Sci-Fi series that became synonymous with his name, and the production company that produced it for NBC-TV less than two years later. Original binder holes at the top; otherwise, Fine. $3,000 – $5,000

“Dear Alden: Have just completed sketching out for our female Yeoman, again basically for dramatic uses on our show but also with female child’s toy potential, a device which acts sort of as a portable secretary-recording-photographic unit capable of taking down any information the Captain wishes at any time he is away from his bridge. Also have spent a considerable amount of time working with our costumer, improving the basic design – items which also have considerable sales potential. And without deprecating the work of any of our talented people involved, these are all items on which I have had to come up with the basic conception.

With the introduction of the Star Trek TV series, a veritable phenomena was unleashed upon the public, numbering physicists, engineers, housewives, senators, children and intellectuals among its devotees. Roddenberry’s reputation as a futurist and visionary began to grow as the phenomenon was unleashed upon the public, numbering physicists, engineers, housewives, senators, children and intellectuals among its devotees. Roddenberry’s reputation as a futurist and visionary began to grow as the series continued and the present letter represents a milestone in his mentioning the birth of two of the most quintessential and revered devices in Trek lore: the phaser and the tricorder. Also evident is the frustration of being the chief conceptualist during the show’s earliest stage. Original binder holes at the top; otherwise, Fine. $3,000 – $5,000

1098. **Don Post Studios Star Wars “C-3PO” limited edition sculpture from Lucasfilm Archive Collection.**

This C-3PO sculpture was crafted of fiberglass by Don Post Studios using the original molds from Lucasfilm archives giving the droid complete accuracy. A pair of original C-3PO eyes were used as masters to guarantee accurate reproduction. The body casts were manufactured by expert mannequin artisans and, following casting, the parts were detail sanded and plated first in nickel and then in gold (earlier production numbers were plated in brass). The sculpture stands on a custom pewter-finished base with a small plaque bearing “063”. Due to the great expense in manufacturing such a meticulously detailed piece, less than 100 sculptures of C-3PO were created by Don Post Studios (retail price exceeded $10,000 when production ended). Of special note, Don Post, himself, has signed his name in black marking pen on the base above the plaque giving this beautiful sculpture added distinction. C-3PO’s eyes are wired to illuminate (untested). Stands 73 in. tall (on 3 in. base). The gold finish has oxidized in areas; otherwise, in very fine condition. Special shipping arrangements will apply.

“DARTH VADER” PROMOTIONAL COSTUME FOR
THE EMPIRE STRIKES BACK AND RETURN OF THE
JEDI. (TCF 1980; 1983) Prior to the release of Star Wars: Episode V - The Empire Strikes Back in 1980, Lucasfilm authorized Nick Farmer of N.J. Farmer Associates LTD in England to create touring costumes of the iconic “Darth Vader” character. Farmer contacted David Middleton, the construction storeman for The Empire Strikes Back at Pinewood Studios, who released one of the original Darth Vader costumes used in the film in order to make the master molds and patterns necessary to create exact replicas of the costume for the film’s premieres in select major markets. This is one of the surviving costumes from the handful of examples that were produced by N.J. Farmer Associates LTD and used for the release of both The Empire Strikes Back and, three years later, Return of the Jedi. The costume is complete, featuring the following components comprising one of the greatest all-time villains in cinema history: signature fiberglass dome and facemask, fiberglass shoulder armor, pair of fiberglass greaves (shin guards), chest box wired for sequenced lighting (including leather straps), leather belt with machined aluminum buckle, pair of illuminating belt boxes, leather vest, cotton jerkin with leather sleeves, leather pants, leather codpiece, outer and inner cloaks, leather gloves and faux leather boots. The garments feature interior “N.J. Farmer Associates LTD” labels. The costume is beautifully detailed and all fiberglass components are painted and polished to a very high standard, just as the screen-used costume. One could never expect to acquire a complete screen-used Darth Vader, so this is a rare opportunity for a collector to obtain a precise, production-authorized replica. Comes with a certificate of authenticity from N.J. Farmer. Electronics have not been tested. The costume exhibits minor chipping on the right greave near the knee; otherwise, in very fine condition. $40,000 – $60,000
1100. **YODA ON-SET REHEARSAL PUPPET FROM *STAR WARS: EPISODE V – THE EMPIRE STRIKES BACK***. (TCF, 1980) Yoda puppet used as a prototype on set while the real puppet was being built over a period of several months and also, more importantly, to give Frank Oz a chance to develop the character of Yoda. Establishing a realistic movement, with believable body characteristics was important in developing the character to its full potential. Frank Oz wished to have as much time as required with the puppet in order to experiment with it. The puppet also served as a lighting double to the actual Yoda puppet on set. Constructed of polyfoam head with clear-coated eyes, limbs and body are polyfoam over sewn cotton stuffed with buckwheat. Measures approx. 32 in. long. The rough woven costume was taken from the original sketches of Yoda before it was decided he should wear a Jedi robe. Exhibits slight loss of foam at the arms, but remains in remarkable condition given its age and intended use. Accompanied by a LOA from Wendy Froud (credited as Wendy Midener), who worked under Stuart Freeborn as Yoda sculptor and puppeteer, and operated Yoda’s cables during filming. A fantastic artifact that heavily contributed to the creation of one of the most beloved and revered characters in film history. **$6,000 – $8,000**

1109. **COMPLETE NASA GEMINI PROGRAM G-2C SPACESUIT, HELMET, GLOVES AND BOOTS.** This is a very rare early Gemini Program G-2C spacesuit, helmet and gloves with G-5C boots (type of boots used on Gemini 7 mission) and used for testing during the brief 2nd phase of the U.S. Space program – Gemini. The suit was worn by Mitchell B. Kanowski, Chief Warrant Officer and specialist in high altitude parachute testing. Kanowski was one of the five “Air Jumpers” brought into the program to test the emergency escape system incorporated into the Gemini capsules. One of NASA’s unsung heroes, he willingly risked his life testing this spacesuit, jumping multiple times, the highest from a distance of 33,000 feet in an uncontrolled free fall.

All five Air Jumpers and the Gemini astronauts traveled to the David C. Clark Company in Massachusetts where each Gemini suit was custom tailored for each individual. It bears an internal label “SUIT HIGH ALTITUDE/FULL PRESSURE/G2C-4/SIZE KANOWSKI/DATE OF MFG. 8-2-63.” It bears the original NASA red/white/blue extended vector patch on the left breast and Velcro-attached leather tag on the right breast. The original U.S. flag patch on the left shoulder was torn, and was replaced by The Kansas Cosmosphere with a correct identical one from that era. The boots have sewn-in labels that read “BOOT RIGHT/PRESSURE SUIT ASSEMBLY/NASA DESIGNATION gb-5c-9/ MFG. DAVID CLARK COMPANY INC./P/N A-2482-2 SERIAL NO. 509/SIZE BORMAN OCT. 1965.” Left boot is the same except: “BOOT LEFT” and “P/N A2482-2.” Glove labels read: “GLOVE, SPACE SUIT/NASA DESIGNATION GG-2C-1/DAVID CLARK CO. INC./P/N ACS 1003 SER. NO. 116/SIZE CONRAD DEC. 13.” The boots were made for Astronaut Frank Borman, Command Pilot of the Gemini 7 Mission and the gloves were made for Astronaut Charles “Pete” Conrad, Jr., Pilot of the Gemini 5 Mission and Command Pilot of the Gemini 11 Mission and later third person to walk on the Moon during the Apollo 12 mission.

Following its use in the Gemini test program, the suit was re-assembled by NASA to create a display for ROTC military recruiters. Made of 100% actual Gemini parts that were used in test situations, the suit is virtually complete, with all external parts intact as assembled by NASA. The condition of the spacesuit is very good overall with no visible signs of deterioration. The outer layer is somewhat yellowed from U/V exposure at high altitude which has slightly discolored the Nomex Nylon material. The interior Nylon liner is in very good condition and the internal rubber bladder for the body is present. The anodized aluminum is in excellent condition, exhibiting no corrosion that is typically found along the aluminum glove wrist and suit neck rings. All closures and connections are in sound, working condition.

The Gemini G-2C spacesuit underwent some restoration by The Kansas Cosmosphere, the world’s leading space artifact restoration facility and the only facility designated by the Smithsonian Institution to restore flown U.S. spacesuits and craft. The restoration was overseen by F. James Remar, Vice President of Museum Operations in October and November, 2005. A preservation mannequin was fabricated and inserted in the suit at the time of the restoration. The mannequin was fabricated with a stainless steel frame and ethafoam and polyester batting for padding. The mannequin can be used for both display and storage and includes a vintage plaster mannequin head. While a myriad of Russian space suits have come on the market over the years, varying in rarity, age, condition and historical importance, this is the only complete NASA Gemini spacesuit available to private collectors that we are aware of. All space-flown suits become the property of the The Smithsonian if NASA decides it has no further use for them. While it is true that this suit did not fly in space, the test suits were an instrumental part of the Gemini program, and it is only available to private collectors because it did not fly in space. A unique opportunity to acquire an original Gemini test spacesuit and certainly worthy of inclusion as the centerpiece of any museum or personal space memorabilia collection. Includes complete documentation of provenance and researched history of the suit as well as a full list of the restoration process. **$150,000 – $250,000**
1110. **Original flown Soviet Sokol-KV-2 spacesuit worn by cosmonaut Svetlana Savitskaya—the second woman in space and the first to walk in space.**

On August 19, 1982, Soviet cosmonaut Svetlana Savitskaya became the second woman to travel in space during the Soyuz T-7 mission. She served two tours of duty on the Salyut 7 space station and on her second, on July 25, 1984, became the first woman to perform a space walk conducting experiments. The walk lasted 3.58 hours and was part of the Soyuz T-12 mission. This Sokol-KV-2 suit was worn by Savitskaya upon re-entry into Earth’s atmosphere following her historic Soyuz T-12 mission, being her last.

The Sokol-KV-2 crew rescue suit was first worn in the Soyuz T-2 spacecraft on 5 June, 1980, and is still worn by Russian crews today during launch and descent. Each suit is connected to an on-board life support system which supplies oxygen, electrical power, suit ventilation and water for the cooling garment worn underneath. It is considered part of the Soyuz life support system. Each suit is tailor-made to fit individual crew members and is constructed of two layers: an internal and external. The internal part is made of an elastic-type material and keeps the suit pressurized. The external layer is made of a flame-resistant fabric called “Lavsan” or “Dacron”. The suit, including the helmet and boots, is integrated; only the gloves are removable and attach by means of blue anodized aluminum wrist couplings. The polycarbonate visor can open on hinges mounted near the ears and seals with an anodized aluminum clavicle flange when closed; the hood or “soft helmet” folds when the visor is raised. The wearer climbs into the suit via the zippered front opening; into the legs first, then arms and head. The suit is then sealed by means of the “appendix”, flaps of cloth bound up by rubber bands. The wearer is fitted with biomedical sensors next to his skin. The blue anodized aluminum knob on the front is a pressure regulator and there is a suit pressure gauge mounted on the left wrist. There are four connections to the suit: an electrical cable for transmitting biomedical data; another cable for communications; a ventilation tube and an oxygen tube. The suit weighs around 22 lbs. and is intended to be worn for up to 30 hours in a pressurized environment or two hours in a vacuum.

Savitskaya was twice awarded the Hero of the Soviet Union title. She was also a test and sports pilot – starting from 1974 she set 18 international world records on MiG aircraft and three records in team parachute jumping. She won first place at the 6th FAI World Aerobatic Championship in 1970. Savitskaya retired in 1993 from the Russian Air Force with the rank of Major.

On May 5, 2011, Bonhams, NY sold a Sokol spacesuit worn by Alexei Leonov during the Apollo-Soyuz Test Project for $242,000. A once in a lifetime opportunity to acquire a spacesuit from one of the true heroes of aerospace who will forever be listed in the record books of human history. Suit is in excellent condition. **$200,000 – $300,000**
